MIGRANTS AT WORK

IMMIGRATION AND VULNERABILITY IN LABOUR LAW

Oxford University Press, USA *There is a highly significant and under-considered intersection and interaction between migration law and labour law. Labour lawyers have tended to regard migration law as generally speaking outside their purview, and migration lawyers have somewhat similarly tended to neglect labour law. Examining and clarifying the interactions between migration, migration law and labour law, the book particularly focuses on how migration status has a bearing on labour relations and the world of work. Contributors to the volume identify the many ways that migration law, as currently designed, divides the objectives of labour law, privileging employer concerns over the supply of labour over worker-protective concerns. In addition, migration law creates a particular form of status, which affects labour relations, thereby dividing the subjects of labour law. Written by leading scholars of labour law, migration law, and migration studies, this book provides a diverse and multidisciplinary approach to this field of legal interaction, of interest to academics, policymakers, legal practitioners, trade unions, and migrants' groups alike.*

MIGRATION IN POLITICAL THEORY

THE ETHICS OF MOVEMENT AND MEMBERSHIP

Oxford University Press *Written by an international team of leading political and legal theory scholars whose writings have contributed to shaping the field, Migration in Political Theory presents seminal new work on the ethics of movement and membership. The volume addresses challenging and under-researched themes on the subject of migration. It debates the question of whether we ought to recognize a human right to immigrate, and whether it might be legitimate to restrict emigration. The authors critically examine criteria for selecting would-be migrants, and for acquiring citizenship. They discuss tensions between the claims of immigrants and existing residents, and tackle questions of migrant worker exploitation and responsibility for refugees. The book illustrates the importance of drawing on the tools of political theory to clarify, criticize, and challenge the current terms of the migration debate.*

CARE, MIGRATION AND HUMAN RIGHTS

LAW AND PRACTICE

Routledge *The continuum of exploitation that has historically defined the everyday of domestic work - exclusion from employment and social security standards and precarious migration status - has frequently been neglected. It is primarily the moments of crisis, incidents of human trafficking, slavery or forced labour, that have captured the attention of human rights law. Only recently has human rights law begun to address the structured inequalities and exclusions that define the domain of domestic work. This book addresses the specific position of domestic workers in the context of evolving human rights norms. Drawing upon a broad range of case studies, this book presents a thorough examination of key issues such as the commodification of care, the impact of the jurisprudence of the Court of Justice of the European Union and the European Court of Human Rights on 'primary care providers', as well as the effect that trends in migration law have on migrant domestic workers. This volume will be of interest to lawyers, academics and policy makers in the fields of human rights, migration, and gender studies.*

IMMIGRATION LAW IN THE EUROPEAN COMMUNITY

BRILL

THE ECONOMIC, SOCIAL AND CULTURAL RIGHTS OF MIGRANTS IN AN IRREGULAR SITUATION

This publication aims to fill a significant knowledge gap on the human rights of irregular migrants. It seeks to describe barriers faced by irregular migrants in the exercise of such fundamental rights as the right to health, to education, to an adequate standard of living, to social security, and to just and favourable conditions of work, as well as trends and national policies, highlighting where possible examples of promising practice from around the world. It also draws attention to the guidance provided by international human rights law as well as related legal frameworks such as international labour law, and provides key messages on a human rights-based response to irregular migration.

AFRICAN MIGRATION TO THAILAND

RACE, MOBILITY, AND INTEGRATION

Taylor & Francis *This book, based on exploratory ethnographic research, analyses the experiences of African migrants in Thailand. Thailand has always been a regional migration hub with Africans being the most recent. Sitting at the intersection of race and migration studies, this book focuses on the challenges Black asylum seekers and labor migrants face trying to integrate into a society that has had very limited contact with and knowledge about Black Africans. Bringing together research from African, Thai, and European scholars, this volume focuses on forced migrants, such as Somali asylum seekers, and labor migrants, largely African men*

seeking better livelihoods in niche economies such as gem trading, garment wholesale, and football playing and coaching. The book also includes theoretical contributions to the understanding of precarity and human security, the concept of in/visibility to analyze the challenges African migrants face in Thailand as well as the concept of othering to understand discrimination against Africans. The book also analyzes the Thai migration policy context and the challenges facing Thai policy makers, law enforcement representatives, and the migrants themselves. While not comparative in nature, this volume directly connects with studies of Africans in other parts of Asia, especially China. Addressing an important gap in migration research, this book will be of interest to researchers across the fields of migration and mobility studies, African Studies, and Asian Studies.

THE EXTERNAL DIMENSION OF THE EU'S MIGRATION POLICY

DIFFERENT LEGAL POSITIONS OF THIRD-COUNTRY NATIONALS IN THE EU: A COMPARATIVE PERSPECTIVE

Martinus Nijhoff Publishers *This book critically discusses whether the objective of creating a common EU migration policy can be achieved against the backdrop of a highly fragmented EU framework for migration law and policy by comparing the different legal positions of third-country nationals.*

HANDBOOK ON EUROPEAN LAW RELATING TO ASYLUM, BORDERS AND IMMIGRATION

The European Convention on Human Rights and European Union law provide an increasingly important framework for the protection of the rights of foreigners. European Union legislation relating to asylum, borders and immigration is developing fast. There is an impressive body of case law by the European Court of Human Rights relating in particular to Articles 3, 5, 8 and 13 of the ECHR. The Court of Justice of the European Union is increasingly asked to pronounce itself on the interpretation of European Union law provisions in this field. This handbook presents this European Union legislation and the body of case law by the two European courts in an accessible way. It is intended for legal practitioners, judges, prosecutors, immigration officials and nongovernmental organisations, in the EU and Council of Europe Member States.

FOUNDATIONS OF INTERNATIONAL MIGRATION LAW

Cambridge University Press *International migration law is an important field of international law, which has attracted exceptional interest in recent years. This book has been written from a wide variety of perspectives for those wanting to understand the legal framework that regulates migration. It is intended for students new to this field of study who seek an overview of its many*

components. It will also appeal to those who have focussed on a particular branch of international migration law but require an understanding of how their specialisation fits with other branches of the discipline. Written by migration law specialists and led by respected international experts, this volume draws upon the combined knowledge of international migration law and policy from academia; international, intergovernmental, regional and non-governmental organisations; and national governments. Additional features include case studies, maps, break-out boxes and references to resources which allow for a full understanding of the law in context.

INTERNATIONAL MIGRATION LAW

Oxford University Press *International Migration Law* provides a detailed and comprehensive overview of the international legal framework applicable to the movement of persons across borders. The role of international law in this field is complex, and often ambiguous: there is no single source for the international law governing migration. The current framework is scattered throughout a wide array of rules belonging to numerous fields of international law, including refugee law, human rights law, humanitarian law, labour law, trade law, maritime law, criminal law, and consular law. This textbook therefore cuts through this complexity by clearly demonstrating what the current international law is, and assessing how it operates. The book offers a unique and comprehensive mapping of this growing field of international law. It brings together and critically analyses the disparate conventional, customary, and soft law on a broad variety of issues, such as irregular migration, human trafficking, refugee protection, labour migration, non-discrimination, regional free movement schemes, and global migration governance. It also offers a particular focus on important groups of migrants, namely migrant workers, refugees, and smuggled migrants. It maps the current status of the law governing their movement, providing a thorough critical analysis of the various stands of international law which apply to them, suggesting how the law may continue to develop in the future. This book provides the perfect introduction to all aspects of migration and international law.

INTERNATIONAL LEGAL NORMS AND MIGRATION

AN ANALYSIS

UN Offprint and the introductory chapter of a monograph to appear under the title : *Migration and international legal norms*, edited by T. Alexander Aleinikoff and Vincent Chetail, published by T.M.C. Asser Press in early 2003

FAMILY, UNVALUED

DISCRIMINATION, DENIAL, AND THE FATE OF BINATIONAL SAME-SEX COUPLES UNDER U.S. LAW

This report documents how U.S immigration law and federal policy discriminate against binational same-sex couples. The 191-page report documents the consequences of this discrimination and shows how it can separate not only loving partners from one another, but also parents from children. It also shows how this policy has destroyed careers, livelihoods and lives.

THE IMMIGRANT WAR

A GLOBAL MOVEMENT AGAINST DISCRIMINATION AND EXPLOITATION

Policy Press *The abuse of Asian workers in the oil-rich Gulf countries, the trafficking of undocumented latinos at the US border, the exploitation of African sans papiers in France and the attacks on Sub-Saharan farmhands by the mob in Italy. All these events show how migrants, especially those without legal documents, can be an easy target for violence and discrimination, often with impunity. At least, until they decide to fight back. In this original, accessible book, Vittorio Longhi, a journalist who specialises in international labour matters, describes an emerging phenomenon of social conflict, in which migrants are not conceived as passive victims of exploitation. Instead they are portrayed as conscious, vital social actors who are determined to organise and claim better rights. With a global perspective, The immigrant war highlights the 'struggle for human rights, citizenship and equality', in the context of a policy vacuum within the international community towards migration. He demonstrates how these emerging conflicts can break the chain of exploitation and contribute to rethinking failing migration policies and the role of migrants in contemporary societies. The book will be of interest to labour and migration specialists, students of social sciences, trade unionists and human rights activists, as well as a general readership interested in migration.*

ALIENS BEFORE THE EUROPEAN COURT OF HUMAN RIGHTS

ENSURING MINIMUM STANDARDS OF HUMAN RIGHTS PROTECTION

POLICY FRAMES ON SPOUSAL MIGRATION IN GERMANY

REGULATING MEMBERSHIP, REGULATING THE FAMILY

Springer *Laura Block asks how liberal democracies manage to restrict migration in spite of liberal constraints. She analyses the political debates surrounding spousal migration policies from 2005–2010 in Germany and reveals government strategies that restrict spousal migration while staying within the discursive realm of individual rights. By circumscribing and scrutinising both the membership status necessary to access the right to family protection and the family ties in question, restricting spousal migration is legitimised.*

REGULATING MARRIAGE MIGRATION INTO THE UK

A STRANGER IN THE HOME

Routledge *Marriage migration is a controversial and problematic issue in the UK as elsewhere in Europe. This timely analysis is a comprehensive examination of the regulation of marriage migration into the UK. With international relevance, the book uses the analysis to examine the relationship between government priorities and the dynamics of transnational family life. The book is one of the first to scrutinise the control of UK marriage migration after 1997 and explores the dilemmas faced by the post-1997 government in managing this form of migration in a changed domestic and international environment. Using high-quality sources from across the political spectrum, it analyses regulatory decisions made by government, the judiciary and the visa service, and suggests that there is an unofficial and unarticulated hierarchy predicated on assumptions and beliefs about acceptable marriages. Finally, the book establishes a principled basis for the future regulation of marriage migration.*

REFUGEES AND MIGRANTS IN LAW AND POLICY

CHALLENGES AND OPPORTUNITIES FOR GLOBAL CIVIC EDUCATION

Springer *Refugees and migration are not a new story in the history of humankind, but in the last few years, against a backdrop of*

huge numbers of migrants, especially from war-torn countries, they have again been a topic of intensive and contentious discussion in politics, the media and scientific publications. Two United Nations framework declarations on the sustainable development goals and on refugees and migrants adopted in 2016 have prompted the editors – who have a background in international criminology – to invite 60 contributors from different countries to contribute their expertise on civic education aspects of the refugee and migrant crisis in the Global North and South. Comprising 35 articles, this book presents an overview of the interdisciplinary issues involved in irregular migration around the world. It is intended for educationists, educators, diplomats, those working in mass media, decision-makers, criminologists and other specialists faced with questions involving refugees and migrants as well as those interested in improving the prospects of orderly, safe, regular and responsible migration in the context of promoting peaceful and inclusive societies for sustainable development. Rather than a timeline for migration policies based on “now”, with states focusing on “stopping migration now”, “sending back migrants now” or “bringing in technicians or low-skilled migrant workers now”, there should be a long-term strategy for multicultural integration and economic assimilation. This book, prefaced by François Crépeau, the United Nations Special Rapporteur on the human rights of migrants, and William Lacy Swing, Director-General of the International Organization for Migration, addresses the question of the rights and responsibilities involved in migration from the academic and practical perspectives of experts in the field of social sciences and welfare, and charts the way forward to 2030 and beyond, and also beyond the paradigm of political correctness.

WE'RE HERE BECAUSE YOU WERE THERE

IMMIGRATION AND THE END OF EMPIRE

Verso Books *What are the origins of the hostile environment for immigrants in Britain? Drawing on new archival material from the Foreign and Commonwealth Office, Ian Sanjay Patel retells Britain’s recent history in an often shocking account of state racism that still resonates today. In a series of post-war immigration laws, Britain’s colonial and Commonwealth citizens from the Caribbean, Asia and Africa were renamed immigrants. In the late 1960s, British officials drew upon an imperial vision of the world to contain what it saw as a vast immigration ‘crisis’ involving British citizens, passing legislation to block their entry. As a result, British citizenship itself was redefined along racial lines, fatally compromising the Commonwealth and exposing the limits of Britain’s influence in world politics. Combining voices of so-called immigrants trying to make a home in Britain and the politicians, diplomats and commentators who were rethinking the nation, Ian Sanjay Patel excavates the reasons why Britain failed to create a post-imperial national identity. The reactions of the British state to post-war immigration reflected the shift in world politics from empires to decolonization. Despite a new international recognition of racial equality, Britain’s colonial and Commonwealth citizens were subject to a new regime of*

immigration control based on race. From the Windrush generation who came to Britain from the Caribbean to the South Asians who were forced to migrate from East Africa, Britain was caught between attempting both to restrict the rights of its non-white colonial and Commonwealth citizens and redefine its imperial role in the world. Despite Britain's desire to join Europe, which eventually occurred in 1973, its post-imperial moment never arrived, subject to endless deferral and reinvention.

CITIZENSHIP AND IMMIGRATION

John Wiley & Sons *This incisive book provides a succinct overview of the new academic field of citizenship and immigration, as well as presenting a fresh and original argument about changing citizenship in our contemporary human rights era. Instead of being nationally resilient or in "postnational" decline, citizenship in Western states has continued to evolve, converging on a liberal model of inclusive citizenship with diminished rights implications and increasingly universalistic identities. This convergence is demonstrated through a sustained comparison of developments in North America, Western Europe and Australia. Topics covered in the book include: recent trends in nationality laws; what ethnic diversity does to the welfare state; the decline of multiculturalism accompanied by the continuing rise of antidiscrimination policies; and the new state campaigns to "upgrade" citizenship in the post-2001 period. Sophisticated and informative, and written in a lively and accessible style, this book will appeal to upper-level students and scholars in sociology, political science, and immigration and citizenship studies.*

DISCRIMINATION AND DELEGATION

EXPLAINING STATE RESPONSES TO REFUGEES

Oxford University Press *What explains the variety of responses that states adopt toward different refugee groups? Refugees might be granted protection or turned away; they might be permitted to live where they wish and earn an income, pursue education, and access medical treatment; or, they might be confined to a camp and forced to rely on aid while being denied basic services. However, states do not consistently wield their capacity for control, nor do they jealously guard their authority to regulate. In this book, Lamis Elmy Abdelaaty asks why states sometimes assert their sovereignty vis-à-vis refugee rights and at other times seemingly cede it by delegating refugee oversight to the United Nations. To explain this selective exercise of sovereignty, Abdelaaty develops a two-part theoretical framework in which policymakers in refugee-receiving countries weigh international and domestic concerns. Policymakers in a receiving country might decide to offer protection to refugees from a rival country in order to undermine the sending country's stability, saddle it with reputation costs, and even engage in guerilla-style cross-border attacks. At the domestic level, policymakers consider political competition among ethnic groups--welcoming refugees who are ethnic kin of citizens can satisfy domestic*

constituencies, expand the base of support for the government, and encourage mobilization along ethnic lines. When these international and domestic incentives conflict, the state shifts responsibility for refugees to the UN, which allows policymakers to placate both refugee-sending countries and domestic constituencies. Abdelaaty analyzes asylum admissions worldwide, and then examines three case studies in-depth: Egypt (a country that is broadly representative of most refugee recipients), Turkey (an outlier that has limited the geographic application of the Refugee Convention), and Kenya (home to one of the largest refugee populations in the world). *Discrimination and Delegation* argues that foreign policy and ethnic identity, more so than resources, humanitarianism, or labor skills, shape reactions to refugees.

LAW AND ARTIFICIAL INTELLIGENCE

REGULATING AI AND APPLYING AI IN LEGAL PRACTICE

Springer Nature This book provides an in-depth overview of what is currently happening in the field of Law and Artificial Intelligence (AI). From deep fakes and disinformation to killer robots, surgical robots, and AI lawmaking, the many and varied contributors to this volume discuss how AI could and should be regulated in the areas of public law, including constitutional law, human rights law,

criminal law, and tax law, as well as areas of private law, including liability law, competition law, and consumer law. Aimed at an audience without a background in technology, this book covers how AI changes these areas of law as well as legal practice itself. This scholarship should prove of value to academics in several disciplines (e.g., law, ethics, sociology, politics, and public administration) and those who may find themselves confronted with AI in the course of their work, particularly people working within the legal domain (e.g., lawyers, judges, law enforcement officers, public prosecutors, lawmakers, and policy advisors). Tadashi Hanami have brought together a distinguished group of American and Japanese experts to examine the very different approaches of these two societies in dealing with employer demand for labour, control over illegal migration, the challenge of incorporating immigrants, the legal rights and social benefits of foreign residents and illegal migrants, and the claims of refugees and asylum seekers.

EXPLOITATION OF MIGRANT CONSTRUCTION WORKERS IN RUSSIA

Human Rights Watch *"Russia is home to an estimated 4 to 9 million migrant workers, over 40 percent of whom work in the construction industry. Large numbers of Russia's migrant construction workers, who overwhelmingly come from other countries of the former Soviet Union in search of steady work and decent wages, suffer abuses ranging from non-payment of wages, excessively long working hours, physical and psychological abuse, and unsafe working conditions. In the worst cases, migrant workers have been trafficked from their home countries into forced labor in Russia. Employers routinely refuse to provide migrant workers with written employment contracts, as required under Russian law, making workers especially vulnerable to wage violations and other abuses and limiting their ability to access official avenues of redress. Many migrant workers also suffer abuse at the hands of police and other officials. Police regularly target ethnic minorities, including migrant workers, for petty extortion, as well as in some instances physical abuse and harassment. Russia deserves credit for liberalizing some of its migration laws in recent years. However, the authorities have not done enough to ensure protection of migrant workers from abuse, including from private actors. Russia must protect all victims of abuse irrespective of contractual or migration status. The government should ensure rigorous labor inspections, prosecution of abusive employers, and effective regulation of employment agencies and other intermediaries. It should also develop accessible complaint mechanisms for victims and timely and effective investigations into allegations of abuse. In addition, further reform in migration law is necessary to allow workers to more easily regularize their stay, making them less vulnerable to abuse, and more likely to seek protection from state agencies."*--Page 4 of cover.

REPAIRING DOMESTIC CLIMATE DISPLACEMENT

THE PENINSULA PRINCIPLES

Routledge *Climate change, sometimes thought of as a problem for the future, is already impacting people's lives around the world: families are losing their homes, lands and livelihoods as a result of sea level rise, increased frequency and intensity of storms, drought and other phenomena. Following several years of preparatory work across the globe, legal scholars, judges, UN officials and climate change experts from 11 countries came together to finalise a new normative framework aiming to strengthen the right of climate-displaced persons, households and communities. This resulted in the approval of the Peninsula Principles on Climate Displacement within States in August 2013. This book provides detailed explanations and interpretations of the Peninsula Principles and includes in-depth discussion of the legal, policy and programmatic efforts needed to uphold the standards and norms embedded in the Principles. The book provides policy-makers with the conceptual understanding necessary to ensure that national-level policies are in place to*

respond to the climate displacement challenge, as well as a firm sense of the programme-level approaches that can be taken to anticipate, reduce and manage climate displacement. It also provides students and policy advocates with the necessary information to debate and critique responses to climate displacement at different levels. Drawing together key thinkers in the field, this volume will be of great relevance to scholars, lawyers, legal advisors and policy-makers with an interest in climate change, environmental policy, disaster management and human rights law and policy.

QUEER MIGRATION AND ASYLUM IN EUROPE

UCL Press *Europe is a popular destination for LGBTQ people seeking to escape discrimination and persecution. Yet, while European institutions have done much to promote the legal equality of sexual minorities and a number of states pride themselves on their acceptance of sexual diversity, the image of European tolerance and the reality faced by LGBTQ migrants and asylum seekers are often quite different. To engage with these conflicting discourses, Queer Migration and Asylum in Europe brings together scholars from politics, sociology, urban studies, anthropology and law to analyse how and why queer individuals migrate to or seek asylum in Europe, as well as the legal, social and political frameworks they are forced to navigate to feel at home or to regularise their status in the destination societies. The subjects covered include LGBTQ Latino migrants’ relationship with queer and diasporic spaces in London; diasporic consciousness of queer Polish, Russian and Brazilian migrants in Berlin; the role of the Council of Europe in shaping legal and policy frameworks relating to queer migration and asylum; the challenges facing bisexual asylum seekers; queer asylum and homonationalism in the Netherlands; and the role of space, faith and LGBTQ organisations in Germany, Italy, the UK and France in supporting queer asylum seekers.*

ECONOMIC MIGRANTS IN INTERNATIONAL LAW AND POLICY. SELECTED ISSUES AND CHALLENGES

Logos Verlag Berlin GmbH *In recent years international labour migrations and its social consequences have become one of the key*

issues on the international agenda. Changing image of the economic mobility strongly affected domestic policies, activities of international organizations and international law. The growing dynamic of economic migration and the transformation of this process becoming a source of challenges for the various areas of international law including international labour law, international humanitarian law and international human rights law. The book discusses the most important documents concerning regulation of migration and international protection of migrant workers. The author devotes attention to the practical activities of all intergovernmental organizations (UN, ILO, UNHCR, EU, COE, OSCE, OAS) dealing with the issue of international migration. A significant part of the book is focused on the legal context of currently observed problems such as undocumented migration, human trafficking, socio-economic rights of migrants, deportation, employment of migrants, access to health care institutions, the issue of asylum and the rights of specific categories of economic migrants. Considerations presented in this book are based on in-depth analysis of more than hundred international treaties and documents focused on international migrations. The book presents the most important international initiatives concerning protection of economic migrants between 1919 and 2018.
