MAXIMISING THE IMPACT OF TEACHING ASSISTANTS

GUIDANCE FOR SCHOOL LEADERS AND TEACHERS

Routledge Teaching assistants are an integral part of classroom life, yet pioneering research by the authors has shown schools are not making the most of this valued resource. Evidence shows the more support pupils receive from TAs, the less academic progress they made. Yet the reason for this has little to do with TAs. It is decisions made about them by school leaders and teachers that best explain this provocative finding. The fully updated second edition of this book draws on the experiences of schools that have put this guidance into action via the Maximising the Impact of Teaching Assistants programme. Revised to reflect the latest research evidence and changes within education, including the 2014 SEND Code of Practice, this book will help school leaders and teachers in primary and secondary settings to rethink the role, purpose and contribution of TAs, and add real value to what can be achieved in classrooms. Setting out a field-tested process, structured around a coherent and empirically sound conceptual framework, this book: helps school leaders review, reform and reenergise their TA workforce provides practical strategies to implement in the classroom illustrates key points with new case studies provides photocopiable templates and resources to support decision-making and action. Maximising the Impact of Teaching Assistants provides much-needed and evidence-informed guidance on how to unleash the huge potential of TAs, and is essential reading for all school leaders.

WRITING THE SCHOOL HOUSE BLUES

LITERACY, EQUITY, AND BELONGING IN A CHILD'S EARLY SCHOOLING

Teachers College Press "This ethnographic study of a young African American boy's educational trajectory from Pre-K to second grade, examining how a district mandate to desegregate its schools altered the school-based experiences of Ta'Von and his fellow

students. Taking a sociocultural perspective, the book examines the relationship between integration and social inclusion/exclusion, arguing that desegregation is not sufficient to create a truly inclusive schooling system. Citing instances of persistent inequality based on race, class, and gender, Dyson outlines how literacy, while complicit in both creating and magnifying these types of inequality/exclusion, can also be a powerful tool for remediating them and thereby creating truly inclusive spaces"--
