Changing the Score

Arias, Prima Donnas, and the Authority of Performance

Oxford University Press This study seeks to explore the role and significance of aria insertion, the practice that allowed singers to introduce music of their own choice into productions of Italian operas. Each chapter investigates the art of aria insertion during the nineteenth century from varying perspectives, beginning with an overview of the changing fortunes of the practice, followed by explorations of individual prima donnas and their relationship with particular insertion arias: Carolina Ungher's difficulties in finding a "perfect" aria to introduce into Donizetti's *Marino Faliero*; Guiditta Pasta's performance of an aria from Pacini's *Niobe* in a variety of operas, and the subsequent fortunes of that particular aria; Maria Malibran's interpolation of Vaccai's final scene from *Giulietta e Romeo* in place of Bellini's original setting in his *I Capuleti e i Montecchi*; and Adelina Patti's "mini-concerts" in the lesson scene of *Il barbiere di Siviglia*. The final chapter provides a treatment of a short story, "Memoir of a Song," narrated by none other than an insertion aria itself, and the volume concludes with an appendix containing the first modern edition of this short story, a narrative that has lain utterly forgotten since its publication in 1849. This book covers a wide variety of material that will be of interest to opera scholars and opera lovers alike, touching on the fluidity of the operatic work, on the

reception of the singers, and on the shifting and hardening aesthetics of music criticism through the period.

Analyzing Bach Cantatas

Oxford University Press on Demand **Bach's cantatas** are surely among the highest achievements of Western musical art, yet individual studies of these works that are both illuminating and detailed are quite few. Chafe combines theological, historical, analytical, and interpretive approaches to the cantatas to offer readers and listeners alike the richest possible experience of these pieces. His study is sensitive to the composer's intentions as well as the universal and enduring qualities of the music itself.

A History of the Oratorio

Vol. 3: the Oratorio in the Classical Era

UNC Press Books The Oratorio in the classical Era is the third volume of Howard Smither's monumental History of the Oratorio, continuing his synthesis and critical appraisal of the oratorio. His comprehensive study surpasses in scope and treatment all previous works on the subject. A fourth and final volume, on the oratorio in the nineteenth and twentieth centuries, is forthcoming. In this volume Smither discusses the Italian oratorio from the 1720s to the early nineteenth century and oratorios from other parts of Europe from the 1750s to the nineteenth century. Drawing on works that represent various types, languages, and geographical areas, Smither treats the general characteristics of oratorio libretto and music and analyzes twenty-two oratorios from Italy, England, Germany, France, and Russia. He synthesizes the results of specialized studies and contributes new material based on firsthand study of eighteenth-century music manuscripts and printed librettos. Emphasizing the large number of social contexts within which oratorios were heard, Smither discussed examples in Italy such as the Congregation of the Oratory, lay contrafraternities, and educational institutions. He examines oratorio performances in German courts, London theaters and English provincial festivals, and the Parisian Concert spirituel. Though the volume concentrates primarily on eighteenth-century oratorio from the early to the late Classical styles, Smither includes such transitional works as the

oratorios of Jean-Francois le Seur in Paris and Stepan Anikievich Degtiarev in Moscow. A History of the Oratorio is the first full-length history of the genre since Arnold Schering's 1911 study. In addition to synthesizing current thought about the oratorio, this volume contributes new information on relationships between oratorio librettos and contemporary literary and religious thought, and on the musical differences among oratorios from different geographical-cultural regions. The Cantatas of J. S. Bach

With Their Librettos in German-English Parallel Text

Oxford University Press This is the only English translation of this important book by the world's most distinguished Bach scholar. This work is widely regarded as the most authoritative and comprehensive treatment of the Bach cantatas. It begins with a historical survey of the seventeenth-century background to the cantatas, and performance practice issues. The core of the book is a work-by-work study in which each cantata in turn is represented by its libretto, a synopsis of its movements, and a detailed analytical commentary. This format makes it extremely useful as a reference work for anyone listening to, performing in, or studying any of the Bach cantatas. All the cantata librettos are given in German-English parallel text. For the English edition the text has been carefully revised to bring it up to date, taking account of recent Bach scholarship.

The Pathetick Musician

Moving an Audience in the Age of Eloquence

Oxford University Press What is rhetorical music? In *The Pathetick Musician*, Bruce Haynes and Geoffrey Burgess illustrate the vital place of rhetoric and eloquent expression in the creation and performance of Baroque music. Through engaging explorations of the cantatas of J.S. Bach, the authors explode the conventional notion of historical authenticity in music, proposing adventurous new directions to reinvigorate the performance of early music in the modern setting. Along the way, Haynes and Burgess investigate intersections between music and oratory, dance, gesture, poetry, painting and sculpture, and offer insights into figural elaboration, articulation, nuance and temporality. Aimed primarily at performers of Baroque music, the book situates the study of performance practice in a broader cultural context, and as much as an invaluable resource for advanced study, it contains a wealth of information that pertains directly to anyone working in the field of early music. Based on a draft sketched by celebrated Baroque oboist and early music scholar Bruce Haynes before his death in 2011, *The Pathetick Musician* is the fruit of the combined wisdom of two musicians renowned equally for their contributions as performers and scholars. Drawing on an impressive array of Classical treatises on oratory, musical autographs and performance accounts, it is an essential companion to Haynes' controversial *The End of Early Music*. Geoffrey Burgess has taken up the broader claims of Haynes' philosophy to create a practical, accessible text that will be stimulating for all musicians interested in the rediscovery of early music. With copious musical examples, contemporaneous works of art, and a companion website with supplementary audio recordings, *The Pathetick Musician* is an invaluable resource for all interested in exploring new expressive possibilities in the performance and study of Baroque music.

The Sacred Dramas of J.S. Bach

A Reference and Textual Interpretation

McFarland & Company Incorporated Pub Each of Bach's longer vocal works is herein translated into English from the original Latin or German. The Magnificat, the four extant Passions (Luke, John, Matthew, and Mark) and the Masses (B minor and the four Lutheran short masses) are included. The dramatic qualities of the works and their suitability for concert and stage presentation are emphasized. Vocalists and instruments are identified for each number, as is Bach's style in setting each movement.

J. S. Bach's Johannine Theology

The St. John Passion and the Cantatas for Spring 1725

Oxford University Press *Bach's Johannine Theology: The St. John Passion and the Cantatas for Spring 1725* is a fertile examination of this group of fourteen surviving liturgical works. Renowned Bach scholar Eric Chafe begins his investigation into Bach's theology with the composer's St. John Passion, concentrating on its first and last versions. Beyond providing a uniquely detailed assessment of the passion, *Bach's Johannine Theology* is the first work to take the work beyond the scope of an isolated study, considering its meaning from a variety of musical and historical standpoints. Chafe thereby uncovers a range of theological implications underlying Bach's creative approach itself. Building considerably on his previous work, Chafe here expands his methodological approach to Bach's vocal music by arguing for a multi-layered approach to religion in Bach's compositional process. Chafe bases this approach primarily on two aspects of Bach's theology: first, the specific features of Johannine theology, which contrast with the more narrative approach found in the Synoptic Gospels (Matthew, Mark, Luke); and second, contemporary homiletic and devotional writings - material that is not otherwise easily accessible, and less so in English translation. *Bach's Johannine Theology* provides an unprecedented, enlightening exploration of the theological and liturgical contexts within which this music was first heard.

The Musical World

The Aesthetic of Johann Sebastian Bach

Rowman & Littlefield *The Aesthetic of Johann Sebastian Bach (L'Esthétique de Jean-Sébastien Bach)*, by the celebrated French musicologist André Pirro (1869–1943), was originally published in 1907 and reissued in 1973. It is offered here for the first time in English, as translated by Joe Armstrong. Pirro's work is based primarily on an examination of the close relationships between language and music in Bach's vocal works and provides us with an extensive and well-researched "lexicon" of the expressive resources of Bach and his contemporaries. Pirro's study thus serves as a still sound basis for understanding and interpreting Bach's instrumental works. Pirro's engaging analysis that has informed and even moved discerning readers for more than a century. This translation introduces his

work to a new audience of performers, music teachers and their students, composers, musicologists, and all who wish to have a greater understanding of the expressive import of Bach's music.

Repertoire for the Voice

Scarecrow Press The repertoire files of the late Dr. Barbara Doscher, in which she noted her tips, observations on each particular piece, and notes on how to best teach it, comprise a unique trove of wisdom unmatched by any other source. Laboriously transcribed and annotated by John Nix, one of Doscher's students, the notes are presented here as a companion volume to her best-selling text, *The Functional Unity of the Singing Voice*. Entries are divided by broad category (art song, arias, folk songs, oratorio, musicals, etc.) and are arranged by song title. Each entry includes author, poet or librettist, key(s) available, ranges (for each key), tessitura, difficulty level, voice types, comments, a summary of the text, and notes as to genre, language, and editions available. Five comprehensive indexes facilitate searching. As a guide to selecting vocal repertoire, this book's practical and sometimes colorful comments on each song or aria will assist the vocal instructor in matching the student's ability and range to the appropriate piece. This

distillation of Barbara Doscher's many years of experience in the teaching studio is a necessary addition to any vocal instructor's collection, as well as a valuable resource for the individual singer.

Recognition in Mozart's Operas

Oxford University Press Since its beginnings, opera has depended on recognition as a central aspect of both plot and theme. Though a standard feature of opera, recognition--a moment of new awareness that brings about a crucial

reversal in the action--has been largely neglected in opera studies. In *Recognition in Mozart's Operas*, musicologist Jessica Waldoff draws on a broad base of critical thought on recognition from Aristotle to Terence Cave to explore the essential role it plays in Mozart's operas. The result is a fresh approach to the familiar question of opera as drama and a persuasive new reading of Mozart's operas.

Wolfgang Amadè Mozart

Essays on His Life and His Music

Oxford University Press This volume is a collection based on the Royal Musical Association's Mozart Conference, held at London's South Bank in August 1991. That conference, the largest and most international ever held by the Association, attracted an international group of speakers, and was open to the general public. The 26 papers included here have been substantially revised and extended for publication. They provide a wide panorama of modern Mozart research, exploring aspects of his life and work hitherto obscure, interpreting his instrumental music, and describing the context, in Vienna and Salzburg, in which he lived and worked. Close attention is paid to different aspects of his operas, from *Lucio Silla* to *La clemenza di Tito*, with particular stress on the creative processes in the three great Da Ponte operas: *Le nozze di Figaro*, *Don Giovanni*, *Così fan tutte*.
