KEY=UNTIL - ANDREWS RANDOLPH

FROM THE FOUNDATION OF THE MONASTERY UNTIL THE NORMAN CONQUEST

THE NORMAN CONQUEST

ENGLAND AFTER WILLIAM THE CONQUEROR

Rowman & Littlefield Exploring the successful Norman invasion of England in 1066, this concise and readable book focuses especially on the often dramatic and enduring changes wrought by William the Conqueror and his followers. From the perspective of a modern social historian, Hugh M. Thomas considers the conquest's wide-ranging impact by taking a fresh look at such traditional themes as the influence of battles and great men on history and assessing how far the shift in ruling dynasty and noble elites affected broader aspects of English history. The author sets the stage by describing English society before the Norman Conquest and recounting the dramatic story of the conquest, including the climactic Battle of Hastings. He then traces the influence of the invasion itself and the Normans' political, military, institutional, and legal transformations. Inevitably following on the heels of institutional reform came economic, social, religious, and cultural changes. The results, Thomas convincingly shows, are both complex and surprising. In some areas where one might expect profound influence, such as government institutions, there was little change. In other respects, such as the indirect transformation of the English language, the conquest had profound and lasting effects. With its combination of exciting narrative and clear analysis, this book will capture students interest in a range of courses on medieval and Western history.

THE LATIN CHURCH IN NORMAN ITALY

Cambridge University Press First published in 2007, this was the first significant study of the incorporation of the Church in southern Italy into the mainstream of Latin Christianity during the eleventh and twelfth centuries. Professor G. A. Loud examines the relationship between Norman rulers, south Italian churchmen and the external influence of the new 'papal monarchy'. He discusses the impact of the creation of the new kingdom of Sicily in 1130; the tensions that arose from the papal schism of that era; and the religious policy and patronage of the new monarchs. He also explores the internal structures of the Church, both secular and monastic, and the extent and process of Latinisation within the Graecophone areas of the mainland and on the island of Sicily, where at the time of the Norman conquest the majority of the population was Muslim. This is a major contribution to the political, religious and cultural history of the Central Middle Ages.

FROM NORMAN CONQUEST TO MAGNA CARTA

ENGLAND 1066-1215

Routledge Using a combination of original sources and sharp analysis, this book is sheds new light on a crucial period in England's development. From Norman Conquest to Magna Carta is a wide-ranging history of England from 1066 to 1215 ideal for students and researchers throughout the field of medieval history. Starting with the build-up to the Battle of Hastings and ending with the Magna Carta, Christopher Daniell traces the profound change England underwent over the period, from religion and the life of the court through to arts and architecture. Central discussion topics include: how the Papacy became powerful enough to proclaim Crusades

and to challenge kings how new monastic orders revitalized Christianity in England and spread European learning throughout the country how new Norman conquerors built cathedrals, monasteries and castles, which changed the English landscape forever how by 1215 the king's administration had become more sophisticated and centralized how the acceptance of the Magna Carta by King John in 1215 would revolutionize the world in centuries to come. This volume will make essential reading for all students and researchers of medieval history.

THE NORMAN CONQUEST OF SOUTHERN ITALY AND SICILY

McFarland The Normans originally came to Italy and Sicily in the 11th and 12th centuries looking for adventure or a livelihood, but once there, found opportunity for fame and fortune. The story of the Norman conquest in Italy and Sicily is indeed one of knights and adventurers, great battles and lowly pillage, opportunism and statesmanship, and crusade and coexistence. This rich and often dramatic study focuses on the eight sons of Tancred of Hauteville, especially Robert Guiscard, who has been called "the most dazzling military ruler between Julius Caesar and Napoleon," and his youngest brother Roger, who conquered Sicily. It discusses how they expanded their lands throughout southern Italy, and then took Sicily from its Muslim rulers. The brothers, often in conflict with each other, challenged both the Papacy and the Byzantine Empire, became the main supporters of the reformed Papacy, and founded a rich, sophisticated kingdom that lasted until the nineteenth century.

CHRONICON MONASTERII DE ABINGDON: VOLUME 2, FROM THE NORMAN CONQUEST UNTIL THE ACCESSION OF RICHARD THE FIRST

Cambridge University Press Published in 1858, this two-volume chronicle covers approximately 500 years, from the seventh-century foundation of Abingdon Abbey to the accession of Richard I in 1189. Editor Joseph Stevenson claims its value is not as a detailed history but as a rich illustration of England's journey from barbarism to civilisation.

THE BUILDER

A COMPANION TO THE ANGLO-NORMAN WORLD

Boydell & Brewer Ltd By the time of the Conquest, the Normans had been established in Normandy for over a hundred and fifty years. They had transformed themselves from pagan Northmen into Christian princes; their territories extended from England, southern Italy and Sicily to distant Antioch, and their influence had spread throughout western Europe and the Mediterranean. Duke William's victory at Hastings and the resulting Anglo-Norman union brought England into the mainstream of European history and culture, with far-reaching consequences for Western civilisation. These specially commissioned studies are concerned with the achievements of the cross-Channel realm. They make a major contribution to an understanding of the hundred years that witnessed great change and major developments in English and Norman government and society. There are surveys of the two constituent parts, of Normandy under the Angevin kings, of the place of kingdom and duchy in the politics and culture of the North Sea, and of the parallel Norman achievement in the Mediterranean. There are overviews both of secular administration and of the church, and a study

of "feudalism" and lordship. Within the broad field of cultural history, there are discussions of language, literature, the writing of history, and ecclesiastical architecture. Contributors: LESLEY ABRAMS, MATTHEW BENNETT, MARJORIE CHIBNALL, CHRISTOPHER HARPER-BILL, ELISABETH VAN HOUTS, EMMA MASON, RICHARD PLANT, CASSANDRA POTTS, DANIEL POWER, IAN SHORT, ANN WILLIAMS

THE NORMANS

John Wiley & Sons This book provides the most comprehensive examination of the Normans available, examining the emergence of the Normans, their characteristics as a group, and their various achievements in war, culture and civilization.

FAMILY NAMES AND FAMILY HISTORY

A&C Black Family names are an essential part of everyone's personal history. The story of their evolution is integral to family history and fascinating in its own right. Formed from first names, place names, nicknames and occupations, names allow us to trace the movements of our ancestors from the middle ages to the present day. David Hey shows how, when and where families first got their names, and proves that most families stayed close to their places of origin. Settlement patterns and family groupings can be traced back towards their origin by using national and local records. Family Names and Family History tells anyone interested in tracing their own name how to set about doing so.
