After the tempest, after the reunion, after her father drowned his books, Miranda was meant to enter a brave new world. Naples awaited her, and Ferdinand, and a throne. Instead she finds herself in Milan, in her father's castle, surrounded by hostile servants who treat her like a ghost. Whispers cling to her like spiderwebs, whispers that carry her dead mother's name. And though he promised to give away his power, Milan is once again contorting around Prospero's dark arts. With only Dorothea, her sole companion and confidant to aid her, Miranda must cut through the mystery and find the truth about her father, her mother, and herself. "Love and lust, mothers and monsters, magicians and masked balls, all delivered with Shakespearean panache." —Nicola Griffith, author of *Hild* "Miranda in Milan is somehow both utterly charming and perfectly sinister, and altogether delightful. A pleasure for any lover of romance, myth, and magic—whether or not they're fans of the Bard." —Cherie Priest, author of *Boneshaker* and *I Am Princess X* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. **HTML, CSS, and JavaScript All in One Covering HTML5, CSS3, and ES6** Sams Teach Yourself Sams Publishing Teach Yourself HTML, CSS, and JavaScript All in One combines these three fundamental web development technologies into one clearly written, carefully organized, step-by-step tutorial that expertly guides the beginner through these three interconnected technologies.
