Social Media in an English Village (Or how to keep people at just the right distance) [UCL Press](#) Daniel Miller spent 18 months undertaking an ethnographic study with the residents of an English village, tracking their use of the different social media platforms. Following his study, he argues that a focus on platforms such as Facebook, Twitter and Instagram does little to explain what we post on social media. Instead, the key to understanding how people in an English village use social media is to appreciate just how 'English' their usage has become. He introduces the 'Goldilocks Strategy': how villagers use social media to calibrate precise levels of interaction ensuring that each relationship is neither too cold nor too hot, but 'just right'. Constructicography Constructicon development across languages [John Benjamins Publishing Company](#) In constructionist theory, a constructicon is an inventory of constructions making up the full set of linguistic units in a language. In applied practice, it is a set of construction descriptions - a "dictionary of constructions". The development of constructicons in the latter sense typically means combining principles of both construction grammar and lexicography, and is probably best characterized as a blend between the two traditions. We call this blend constructicography. The present volume is a comprehensive introduction to the emerging field of constructicography. After a general introduction follow six chapters presenting constructicon projects for English, German, Japanese, Brazilian Portuguese, Russian, and Swedish, respectively, often in relation to a framenet of the language. In addition, there is a chapter addressing the interplay between linguistics and language technology in constructicon development, and a final chapter exploring the prospects for interlingual constructicography. This is the first major publication devoted to constructicon development and it should be particularly relevant for those interested in construction grammar, frame semantics, lexicography, the relation between grammar and lexicon, or linguistically informed language technology. Fateful Decisions Choices That Will Shape China's Future [Stanford University Press](#) China's future will be determined by how its leaders manage its myriad interconnected challenges. In Fateful Decisions, leading experts from a wide range of disciplines eschew broad predictions of success or failure in favor of close analyses of today's most critical demographic, economic, social, political, and foreign policy challenges. They expertly outline the options and opportunity costs entailed, providing a cutting-edge analytic framework for understanding the decisions that will determine China's trajectory. Xi Jinping has articulated ambitious goals, such as the Belt and Road Initiative and massive urbanization projects, but few priorities or policies to achieve them. These goals have thrown into relief the crises facing China as the economy slows and the population ages while the demand for and costs of education, healthcare, elder care, and other social benefits are increasing. Global ambitions and a more assertive military also compete for funding and policy priority. These challenges are compounded by the size of China's population, outdated institutions, and the reluctance of powerful elites to make reforms that might threaten their positions, prerogatives, and Communist Party legitimacy. In this volume, individual chapters provide in-depth analyses of key policies relating to these challenges. Contributors illuminate what is at stake, possible choices, and subsequent outcomes. This

volume equips readers with everything they need to understand these complex developments in context. **Newcomers No More? Contemporary NATO and the Future of the Enlargement from the Perspective of “Post-Cold War” Members** [Instytut Badań nad Stosunkami Międzynarodowymi](#) The central aims of the book is to present, in the form of a collection of papers, a variety of views on NATO from member states “formerly known as new”, and to assess in this context the prospects for NATO enlargement. Therefore, the book consists of two parts. The main objective of the first part is to present how NATO is now perceived in Central and South-Eastern Europe. Papers collected here offer an opportunity to reflect on the impact of the enlargements starting from 1999 on NATO functioning and evolution, roles, tasks and capabilities. The issue of how accession has transformed accessioning states will also be discussed. Last but not least, the perspective of “new” members on NATO’s future will be presented. The authors of the articles in this part mainly come from those countries that joined the Alliance after the end of the Cold War. The second part is devoted strictly to the topic of enlargement. In this part we asked experts from NATO members (both “old” and “new”), potential candidates and other NATO partners (including Russia, Georgia, Ukraine, Azerbaijan, Sweden, Finland etc.) how they view the future of NATO cooperation with external partners in Europe and the prospects for enlargement of the Alliance. **Mom and Me and Mom** [Hachette UK](#) ‘In the first decade of the twentieth century, it was not a good time to be born black, or woman, in America.’ So begins this stunning portrait of Vivian Baxter Johnson: the first black woman officer in the Merchant Marines, purveyor of a gambling business and rooming house, and mother to Maya Angelou, beloved and bestselling author **I KNOW WHY THE CAGED BIRD SINGS**. ‘A brilliant writer, a fierce friend and a truly phenomenal woman’ **BARACK OBAMA** Anyone who’s read the classic, *I Know Why the Caged Bird Sings*, knows Maya Angelou was raised by her paternal grandmother in Stamps, Arkansas. In **Mom & Me & Mom**, Angelou details what brought her mother to send her away and unearths the well of emotions Angelou experienced long afterward as a result. While Angelou’s six autobiographies tell of her out in the world, influencing and learning from statesmen and cultural icons, **Mom & Me & Mom** shares the intimate, emotional story about her own family. ‘She moved through the world with unshakeable calm, confidence and a fierce grace . . . She will always be the rainbow in my clouds’ **OPRAH WINFREY** ‘She was important in so many ways. She launched African American women writing in the United States. She was generous to a fault. She had nineteen talents - used ten. And was a real original. There is no duplicate’ **TONI MORRISON** **Chinese Politics in the Era of Xi Jinping Renaissance, Reform, or Retrogression?** [Routledge](#) Renowned for his coverage of China’s elite politics and leadership transitions, veteran Sinologist Willy Lam has produced the first book-length study in English of the rise of Xi Jinping--General Secretary of the Chinese Communist Party (CCP) since November 2012. With rare insight, Lam describes Xi’s personal history and his fascination with quasi-Maoist values, the factional politics through which he ascended, the configuration of power of the Fifth-Generation leadership, and the country’s likely future directions under the charismatic “princeling.” Despite an undistinguished career as a provincial administrator, Xi has rapidly amassed more power than his predecessors. He has overawed his rivals and shaken up the party-state hierarchy by launching large-scale anti-corruption and rectification campaigns. With a strong power base in the People’s Liberation Army and a vision of China as an “awakening lion,” Xi has been flexing China’s military muscle in sovereignty rows with countries including Japan, Vietnam, and the Philippines while trying to undermine the influence of the United States in the Asia-Pacific region. While Xi is still fine-tuning his art of governance, his zero tolerance for dissent and his preoccupation with upholding the privileges of the “red aristocracy” and the CCP’s status as “perennial ruling party” do not bode well for economic, political, or cultural reforms. Lam takes a close look at Xi’s ideological and political profile and considers how his conservative outlook might shape what the new strongman calls “the Great Renaissance of the Chinese race.” **Oswaal One For All Olympiad Previous Years Solved Papers Class 4 (Set of 5 Books) Maths English Science Reasoning & General Knowledge (For 2022-23 Exam)** [Oswaal Books and Learning Private Limited](#) As per the Latest Pattern issued by various Exam Conducting Bodies-ISO, SZF, HO, UIMO, IOEL, ITHO, NSO, IEO, IRAO, NSTSE, SEAMO, IMO, IOS, IGKO, UIEO - Previous years’ Solved Papers 2011 to 2020 Assessment through 3 Levels of Questions--Level 1, Level 2 & Achievers Answer Key with Explanations Amazing Facts, Fun Trivia & ‘Did You Know?’ Concept Review with Examples Latest Sample Papers with complete solutions Extravagant Morphology Studies in rule-bending, pattern-extending and theory-challenging morphology [John Benjamins Publishing Company](#) Taking extra-vagans literally (Lat. ‘wandering outside, out of bounds’), this volume comprises nine case studies on extravagant morphology ranging from pattern-extending derivational processes via theory-challenging compounding processes to interface-straddling morphosyntactic phenomena. As a heuristic approach, morphological extravagance captures word-formation processes characterised by constraint violations, interface phenomena as well as borderline phenomena not easily reconcilable with traditional postulates of morphological accounts. In this regard, the notion of extravagance allows for an exploration of rule-bending language use both empirically and theoretically. The volume makes a valuable contribution to studies on morphological variation, which has only recently seen a renewed and growing interest in morphological phenomena that challenge morphological frameworks. The volume is of interest to all researchers who seek to gain a broader understanding of the mechanisms and factors at work in morphological variation and who are interested in the reassessment of morphological theorising in light of empirical data. **Educational Policy Borrowing in China Looking West or looking East?** [Routledge](#) For over a decade, Mainland China has been embarking on an ambitious nation-wide education reform (‘New Curriculum Reform’) for its basic education. The reform reflects China’s propensity to borrow selected educational policies from elsewhere, particularly North America and Europe. Chinese scholars have used a local proverb “the West wind has overpowered the East wind” to describe this phenomenon of ‘looking West’. But what do we mean by educational policy borrowing from the West? What are the educational policies in China’s new curriculum reform that are perceived to be borrowed from the West? To what extent have the borrowed educational policies in China’s new curriculum reform been accepted, modified, and rejected by the various educational stakeholders? How does culture influence the various educational stakeholders in China in interpreting and mediating educational policy borrowing from the West? How do the findings of this study on China’s education reform inform and add to the existing theories on and approaches to on cross-cultural educational policy borrowing? This book answers the above questions by critically discussing China’s policy borrowing from the West through its current reform for primary and secondary education. It presents the latest in-depth research findings from a three-year empirical study (2013-2015) with school principals, teachers, students and other educational stakeholders across China. This study offers new insights into China’s educational policy borrowing from the West and international implications on cross-cultural educational transfer for academics, policymakers and educators. **Expanding the Landscapes of Irish English Research Papers in Honour of Dr Jeffrey L. Kallen** [Routledge](#) This collection brings together work from scholars across sociolinguistics, World Englishes and linguistic landscapes to reflect on developments and future directions in Irish English, building on the ground-breaking contributions of Jeffrey Kallen to the discipline. Taking their cue from Kallen’s extensive body of work on Irish English, the 20 contributors critically examine advances in the field grounded in frameworks from variationist sociolinguistics and semiotic and border studies in linguistic landscapes. Chapters cover pragmatic, cognitive sociolinguistic, sociophonetic, historical and World Englishes perspectives, as well as two chapters which explore the border between Northern Ireland and the Republic of Ireland through the lens of perceptual dialectology and linguistic landscape research. Taken together, the collection showcases the significant role Kallen has played in the growth of Irish English studies as a field in its own right and the impact of this work on a new wave of researchers in the field today and beyond. This volume will be of particular interest to scholars of varieties of English, variationist sociolinguistics and linguistic landscape research. Differences between politeness and impoliteness based on the example of Polish and English speakers [GRIN Verlag](#) Seminar paper from the year 2018 in the subject English Language and Literature Studies - Culture and Applied Geography, grade: 2,7, University of Potsdam, language: English, abstract: In every culture, the individuals behave according to some cultural norms of the society. However, when it comes to politeness and impoliteness, those notions are dictated by the culture and language, but also personal feelings of an individual. The aim of this paper is to establish the differences between the forms of politeness and impoliteness between the Western and Easter European culture. The representatives of Poland and United Kingdom tend to different linguistic and behavioral choices, when in particular circumstances. Speakers from Great Britain and Poland have been interviewed, in order to establish whether their idea of politeness and impoliteness is culture-based or depends rather on the individual himself. Moreover, the behavioral and linguistic pattern of the individuals was evaluated to find out, whether there are certain guidelines of politeness in the given culture. **Time’s Fool Essays in Context** [Cambridge Scholars Publishing](#) **Time’s Fool: Essays in Context** is a collection of essays on a broad range of topics, from Gilgamesh to James Joyce - and beyond: to Kazuo Ishiguro, Michael Ondaatje, Yaşar Kemal, Cormac McCarthy, Abdulrahman Munif, and many others. **Time’s Fool** is a memorial to the life work of A. Clare Brandabur, who walked away from a tenure-track teaching position at the University of Illinois to embark on a career of teaching in Middle Eastern universities in Jordan, Syria, Bahrain, occupied Palestine, Cyprus, Ankara, and finally Istanbul, where she taught for the last decade and a half of her life. Had Clare stayed with a career at a “Research I” university in the United States, her scholarship would have been far less rich and free-wheeling - more narrow, concentrated, and specialized - and she would not have been able to help and inspire her graduate and undergraduate students from the Near East and, especially during her last five or six years at Fatih University, from around the world. The essays are organized into five main groups, from “Gender and Family Relations” and “Ecocriticism,” to “Colonialism and Post-Colonialism,” “Colonialism and Ireland,” and “Colonialism, Palestine, Genocide”; and a final ‘catch-all’ section of “Miscellaneous Essays” that includes Gilgamesh, T.E. Lawrence, Yaşar Kemal, Graham Green, and modern theory. There are also sub-categories that transcend the six sections, such as Arab Literature, Catholicism, Women’s Studies, and Mythology - something for everyone, in short. Clare’s essays give a sense of her breadth of scholarship and her very rich play of mind, but the real monument to her life’s work is in the hearts and minds of the students from around the world whom she influenced. **Indigenous Peoples and the State International Perspectives on the Treaty of Waitangi** [Taylor & Francis](#) Across the globe, there are numerous examples of treaties, compacts, or other negotiated agreements that mediate relationships between Indigenous peoples and states or settler communities. Perhaps the best known of these, New Zealand’s Treaty of Waitangi is a living, and historically rich, illustration of this types of negotiated agreement, and both the symmetries and asymmetries of Indigenous-State relations. This collection refreshes the scholarly and public discourse relating to the Treaty of Waitangi and makes a significant contribution to the international discussion of Indigenous-State relations and reconciliation. The essays in this collection explore the diversity of meanings that have been ascribed to Indigenous-State compacts, such as the Treaty, by different interpretive communities. As such, they enable and illuminate a more dynamic conversation about their meanings and applications, as well as their critical role in processes of reconciliation and transitional justice today. **Quantification and scales in change** [Language Science Press](#) This volume contains thematic papers on semantic change which emerged from the second edition of **Formal Diachronic Semantics** held at Saarland University. Its authorship ranges from established scholars in the field of language change to advanced PhD students whose contributions have equally qualified and have been selected after a two-step peer-review process. The key foci are variability and diachronic trajectories in scale structures and quantification, but readers will also find a variety of further (and clearly non-disjoint) issues covered including reference, modality, givenness, presuppositions, alternatives in language change, temporality, epistemic indefiniteness, as well as - in more general terms - the interfaces of semantics with syntax, pragmatics and morphology. Given the nature of the field, the contributions are primarily based on original corpus studies (in one case also on synchronic experimental data) and present a series of new findings and theoretical analyses of several languages, first and foremost from the Germanic and Romance subbranches of Indo-European (English, French, German, Italian, Spanish) and from Semitic (with an analysis of universal quantification in Biblical Hebrew). **The Blue Book of Grammar and Punctuation An Easy-to-Use Guide with Clear Rules, Real-World Examples, and Reproducible Quizzes** [John Wiley & Sons](#) The bestselling workbook and grammar guide, revised and updated! Expert contributors examine the application of fundamental international law Approaches to Teaching the History of the English Language Pedagogy in Practice [Oxford University Press, USA](#) -First Edition published in Paperback 2001.- The Welsh Language Commissioner in Context Roles, Methods and Relationships [University of Wales Press](#) This research monograph is the first authoritative work on the office of the Welsh Language Commissioner and the associated Welsh language regulatory and statutory regime. Revised Selected Papers [Springer](#) This book constitutes the refereed post-workshop proceedings of the Second International Workshop on Worldwide Language Service Infrastructure, WLSI 2015, held in Kyoto, Japan, in January 2015. The 4 full papers included in this volume and presented together with 2 short papers and 8 invited papers, were carefully reviewed and selected from 7 submissions. The papers are categorized into four parts: introducing metadata and annotations; providing technologies for language service platforms; atomic language services across different interfaces, policies, and development of language resources and services; and collecting reports on language service application. The Old English Gloss to the Lindisfarne Gospels Language, Author and Context [Walter de Gruyter GmbH & Co KG](#) Aldred's interlinear gloss to the Lindisfarne Gospels (London, British Library, MS Cotton Nero D.IV) is one of the most substantial representatives of the Old English variety known as late Old Northumbrian. Although it has received a great deal of attention in the past two centuries, there are still numerous issues which remain unresolved. The papers in this collection approach the gloss from a variety of perspectives - language, cultural milieu, palaeography, glossography - in order to shed light on many of these issues, such as the authorship of the gloss, the morphosyntax and vocabulary of the dialect(s) it represents, its sources and relationship to the Rushworth Gospels, and Aldred's cultural and religious affiliations. Because of its breadth of coverage, the collection will be of interest and great value to scholars in the fields of Anglo-Saxon studies and English historical linguistics. Useful Assessment and Evaluation in Language Education [Georgetown University Press](#) This volume, derived from papers presented at the 2016 GURT conference, seeks to explore research and examples of practice of assessment and evaluation in language education. The specific--and varied--ways in which assessment and evaluation are able to impact learning and teaching have become an important language education research concern, particularly as educators are increasingly called upon to implement these processes for improvement, accountability, or curricular development purposes. This volume is divided into three parts, each exploring a different element of the conversation around assessment: "Connecting assessment, learners, and learning"; "Innovating, framing, and exploring assessment in language education"; and "Validity evaluation." International Handbook of Research in Statistics Education [Springer](#) This handbook connects the practice of statistics to the teaching and learning of the subject with contributions from experts in several disciplines. Chapters present current challenges and methods of statistics education in the changing world for statistics and mathematics educators. Issues addressed include current and future challenges in professional development of teachers, use of technology tools, design of learning environments and appropriate student assessments. This handbook presents challenging and inspiring international research perspectives on the history and nature, current issues, and future directions of statistics education and statistics education research. Mining Scientific Papers: NLP-enhanced Bibliometrics [Frontiers Media SA](#) A Cross-Cultural Study of Commercial Media Discourses From the Perspective of Cognitive Semantics [Springer Nature](#) This book decodes commercial news discourses from the perspective of cognitive semantics. It attaches considerable importance to the bodily experientialism and linguistic embodiment advocated in discourse analysis and cognitive linguistics and explores the complex yet thought-provoking correlation between overt language and covert cognition by focusing on contrastive analyses of metaphors, image schemas, and stance markers in texts. On the basis of the analyses, the author discusses the linguistic applications, lexical devices and personal experiences, along with their embodied mechanisms, revealing the linguistic strategies, embodied cognitive linguistic actions and constructive thoughts used in media discourses on product promotion, human resources deployment, and commodity problem resolution. In turn, this sheds light on how linguistic selections and cognitive mechanisms are used in composing media news and on how public cognition on certain social and business issues might be framed. The combination of cognitive semantics and commercial discourse analysis offers comprehensive and rewarding insights into the cross-cultural research of both cognitive actions and linguistic behavior reflected in news reports and highlights the correlation between the use of wording and cognitive construction in discourses, which broadens the scope of discourse analysis, cognitive linguistics, applied linguistics, and sociolinguistics. Further, the use of analytical measures and the effective integration of discourse analysis and cognitive semantics lend the book additional analytical authenticity, providing an empirical foundation for cross-cultural communication studies.
