## Seurat's Circus Sideshow

**Metropolitan Museum of Art** Georges Seurat (1859–1891) created just six major figure paintings during his lifetime, one of which, the alluring *Circus Sideshow* (Parade de cirque), has remained the most challenging to interpret since it first intrigued viewers at the 1888 Salon des Indépendants in Paris. Unlike Seurat's earlier sunlit scenes, *Circus Sideshow* presents a nighttime tableau depicting a parade—a street show enticing passersby to purchase tickets. With its geometrically precise composition, muted colors, and elements of abstraction, the painting stands apart as a masterpiece of Neo-Impressionism and heralds Seurat's subsequent depictions of popular entertainments. This book, the first comprehensive study of *Circus Sideshow*, situates the painting in the context of nineteenth-century Paris and of the many social changes France was undergoing. Renowned art historian Richard Thomson illuminates the roles of caricature, naturalist and avant-garde painting, and circus advertising; examines Seurat's use of contemporary aesthetic theory; and discusses how artists ranging from Rouault to Picasso mined the sideshow theme into the twentieth century. Illustrated with Seurat's related drawings, works by other artists, and period posters and broadsides, *Seurat's Circus Sideshow* delves into the history of traveling circuses and seasonal fairs in France, exploring the ongoing appeal of this traditional form of popular entertainment through the fin de siècle. Two additional essays describe the painting's enthusiastic reception in New York upon its 1929 debut and present the results of a fresh technical examination of the canvas, making this volume the definitive resource on one of Seurat's most captivating works.

## Goat Days

**Penguin UK** Najeeb's dearest wish is to work in the Gulf and earn enough money to send back home. He achieves his dream only to be propelled by a series of incidents, grim and absurd, into a slave-like existence herding goats in the middle of the Saudi desert. Memories of the lush, verdant landscape of his village and of his loving family haunt Najeeb whose only solace is the companionship of goats. In the end, the lonely young man contrives a hazardous scheme to escape his desert prison. *Goat Days* was published to acclaim in Malayalam and became a bestseller. One of the brilliant new talents of Malayalam literature, Benjamin's wry and tender telling transforms this strange and bitter comedy of Najeeb's life in the desert into a universal tale of loneliness and alienation.

## Not Your Mother's Meatloaf

## A Sex Education Comic Book

**Soft Skull** As teenagers today navigate increasingly fluid identities and choices, there is a demand for an accessible, interactive tool to help share knowledge about sex and sexual health; one that demystifies the facts and speaks frankly about experiences whose lessons often fall into the grey areas. Since 2008, Miller and Bley have held an open call for young people to create comics that address a variety of topics involved with sex education. We have since produced several issues of a sex-ed comic called *Not Your Mother's Meatloaf*. The work is chosen from a vastly varied group of submissions and attempts to challenge hetero and gender normative practices in sex education. The comics address topics like body image, safer sex, consent, and relationships, from positions that have historically been left out of sex education. These graphically illustrated personal narratives address different themes, such as "Firsts," "Bodies," "Health," "Age," and "Endings." The book will bring together the best of the material from the *Not Your Mother's Meatloaf* comics, along with new graphic stories and writing by the editors providing personal and sociological background.

## Two Oxen

**Amar Chitra Katha Pvt Ltd** Munshi Premchand was an iconic writer, best known for his short stories. Through his tales, he managed to depict social conditions in a manner so emotional and direct, that they are relevant even today. ## Gift In Green

**Harper Collins** An eco-spiritual search for light and life in a world inching towards dystopia Gift in Green, written originally in Malayalam, is a tantalizingly unconventional narrative that explores, on multiple levels, the pain and poetry that eventuate from the disruption of the intimate relationship between a people and their life-world, using water (the 'water-life' of the people of Aathi) as the overarching metaphor that mirrors the degradation of the society. Between the polarities of attachment and abandonment, darkness and light, predatory progress and the sheer will to survive, unfolds the saga of a people confronted by the behemoth of progress driven by Kumaran, who seeks to abandon water-life, threatening its very existence. But such is the author's faith in the resilience of life and nature and her belief in the futility of trying to control something as fluid and eternal as water-life that what promises to be the end is also the hope of a new beginning. This is the first instance in Indian literary history of a novel in a regional language being translated and published concurrently in English.

## The Kama Sutra

## The Standard Work on Human Sexual Behavior

**CreateSpace** The Kama Sutra The Standard Work on Human Sexual Behavior By Vatsyayana Translated from the Sanscrit In Seven Parts, with Preface, Introduction and Concluding Remarks. New Edition The Kama Sutra is an ancient Indian Hindu text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vaatsyayana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual. Contrary to popular perception, especially in the western world, Kama sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life and other aspects pertaining to pleasure oriented faculties of human life. The Kama Sutra is the oldest and most notable of a group of texts known generically as Kama Shastra (Sanskrit: Kama Sastra). Historians attribute Kamasutra to be composed between 400 BCE and 200 CE. John Keay says that the Kama Sutra is a compendium that was collected into its present form in the 2nd century CE.

## XXXXX

**xxxxx** xxxxx proposes a radical, new space for artistic exploration, with essential contributions from a diverse range of artists, theorists, and scientists. Combining intense background material, code listings, screenshots, new translation, [the] xxxxx [reader] functions as both guide and manifesto for a thought movement which is radically opposed to entropic contemporary economies. xxxxx traces a clear line across eccentric and wide ranging texts under the rubric of life coding which can well be contrasted with the death drive of cynical economy with roots in rationalism and enlightenment thought. Such philosophy, world as machine, informs its own deadly flipside embedded within language and technology. xxxxx totally unpicks this hiroshimic engraving, offering an dandyish alternative by way of deep examination of software and substance. Life coding is primarily active, subsuming deprecated psychogeography in favour of acute wonderland technology, wary of any assumed transparency. Texts such as Endonomadology, a text from celebrated biochemist and chaos theory pioneer Otto E. Rössler, who features heavily throughout this intense volume, make plain the sadistic nature and active legacy of rationalist thought. At the same time, through the science of endophysics, a physics from the inside elaborated here, a delicate theory of the world as interface is proposed. xxxxx is very much concerned with the joyful elaboration of a new real; software-led propositions which are active and constructive in eviscerating contemporary economic culture. xxxxx embeds Perl Routines to Manipulate London, by way of software artist and Mongrel Graham Harwood, a Universal Dovetailer in the Lisp language from AI researcher Bruno Marchal rewriting the universe as code, and self explanatory

Pornographic Coding from plagiarist and author Stewart Home and code art guru Florian Cramer. Software is treated as magical, electromystical, contrasting with the tedious GUI desktop applications and user-led drudgery expressed within a vast ghost-authored literature which merely serves to rehearse again and again the demands of industry and economy. Key texts, which well explain the magic and sheer art of programming for the absolute beginner are published here. Software subjugation is made plain within the very title of media theorist Friedrich Kittler's essay Protected Mode, published in this volume. Media, technology and destruction are further elaborated across this work in texts such as War.pl, Media and Drugs in Pynchon's Second World War, again from Kittler, and Simon Ford's elegant take on J.G Ballard's crashed cars exhibition of 1970, A Psychopathic Hymn. Software and its expansion stand in obvious relation to language. Attacking transparency means examining the prison cell or virus of language; life coding as William Burrough's cutup. And perhaps the most substantial and thorough-going examination is put forward by daring Vienna actionist Oswald Wiener in his Notes on the Concept of the Bio-adapter which has been thankfully unearthed here. Equally, Olga Goriunova's extensive examination of a new Russian literary trend, the online male literature of udaff.com provides both a reexamination of culture and language, and an example of the diversity of xxxxx; a diversity well reflected in background texts ranging across subjects such as Leibniz' monadology, the ur-crash of supreme flaneur Thomas de Quincey and several rewritings of the forensic model of Jack the Ripper thanks to Stewart Home and Martin Howse. xxxxx liberates software from the machinic, and questions the transparency of language, proposing a new world view, a sheer electromysticism which is well explained with reference to the works of Thomas Pynchon in Friedrich Kittler's essay, translated for the first time into English, which closes xxxxx. Further contributors include Hal Abelson, Leif Elggren, Jonathan Kemp, Aymeric Mansoux, and socialfiction.org.

## Cartoon Animation

**Walter Foster Publishing** In Cartoon Animation, acclaimed cartoon animator Preston Blair shares his vast practical knowledge to explain and demonstrate the many techniques of cartoon animation. By following his lessons, you can make any character—person, animal, or object—come to life through animated movement! Animation is the process of drawing and photographing a character in successive positions to create lifelike movement. Animators bring life to their drawings, making the viewer believe that the drawings actually think and have feelings. Cartoon Animation was written by an animator to help you learn how to animate. The pioneers of the art of animation learned many lessons, most through trial and error, and it is this body of knowledge that has established the fundamentals of animation. Chapter three discusses the finer points of animating a character, including creating key character poses and in-betweens. Chapter four is all about dialogue, how to create realistic mouth and body movements, and facial expressions while the character is speaking. There are helpful diagrams in this chapter that show mouth positions, along with a thorough explanation of how sounds are made using the throat, tongue, teeth, and lips. Finally, the fifth chapter has clear explanations of a variety of technical topics, including tinting and spacing patterns, background layout drawings, the cartoon storyboard, and the synchronization of camera, background, characters, sound, and music. ### Cartoon Quotes from Inspirational Folks

**Andrews McMeel Publishing** NEW YORK TIMES BESTSELLER! Gavin Aung Than, an Australian graphic designer turned cartoonist, started the weekly *Zen Pencils* blog in February 2012. He describes his motivation for launching *Zen Pencils*: "I was working in the boring corporate graphic design industry for eight years before finally quitting at the end of 2011 to pursue my passion for illustration and cartooning. At my old job, when my boss wasn't looking, I would waste time reading Wikipedia pages, mainly biographies about people whose lives were a lot more interesting than mine. Their stories and quotes eventually inspired me to leave my job to focus on what I really wanted to do. The idea of taking these inspiring quotes, combining them with my love of drawing and sharing them with others led to the creation of *Zen Pencils*." "*Zen Pencils* deftly blends the inspired thoughts of our great creative and moral thinkers with its own fresh visual wit. ## Indulekha

**Oxford University Press, USA** Perhaps the only novel to have been reprinted nearly every year for over a hundred years, Indulekha (1889) is widely held to be the first Malayalam novel. Often called an 'accidental' and 'flawed' work, at its core lies a love story. The setting of the novel is the Nair community of Kerala, which had for centuries practised polyandrous matriliney, a most unusual form of inheritance through the woman whom both property and authority flavoured. It gives us glimpses of prevalent social practices much debated amongst a people already under colonial pressure to change their ways of life. Written by a Nair, Indulekha is not a grandiose outpouring but the author's effort to achieve certain social goals: firstly, to create a novel much like those of the English authors he had read, and secondly, to illustrate Nair society at that time, both of which met with success. The novel influenced the deliberations of the Malabar Marriage Commission which it predated, and of which Chandum enon was a member. This novel will appeal to general readers interested in Indian writings in translation. Students of literature, history and culture, political and legal theory, and gender studies, will also find it useful.
