The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today

Motorbooks The ultimate reference for Triumph lovers and fans of British motorcycles. The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019. Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today also features important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan should be without!

Triumph Motorcycles in America

Motorbooks International This is a comprehensive, visual history of the motorcycles from Britain that were bred in the US and Canada. Tuck in with *Triumph Motorcycles in America* and get ready for the ride of a lifetime. Triumphs have been part of North America's motorcycling soul since long before World War II. Born in Britain but bred in the US and Canada, Triumph's iconic models—Bonneville, Trophy, Thunderbird, Daytona, Tiger, Speed Twin, Speed Triple, and Rocket III—resonate deeply with enthusiasts who love their style, sound, performance, and undeniable coolness. It's not coincidental that Triumph was Steve McQueen's favorite ride. *Triumph Motorcycles in America* is packed with thorough, entertaining text, plus hundreds of historical images, most of them in color and never before published. This incredible volume of history and culture was written by award-winning professional journalist and lifelong Triumph fanatic Lindsay Brooke, with a foreword by America's favorite "Triumph guy," Peter Egan. Don't think twice about it, *Triumph Motorcycles in America* is a must-have for every fan of Britain's most legendary bike brand.

Foundations of Trusted Autonomy

Springer This book establishes the foundations needed to realize the ultimate goals for artificial intelligence, such as autonomy and trustworthiness. Aimed at scientists, researchers, technologists, practitioners, and students, it brings together contributions offering the basics, the challenges and the state-of-the-art on trusted autonomous systems in a single volume. The book is structured in three parts, with chapters written by eminent researchers and outstanding practitioners and users in the field. The first part covers foundational artificial intelligence technologies, while the second part covers philosophical, practical and technological perspectives on trust. Lastly, the third part presents advanced topics necessary to create future trusted autonomous systems. The book augments theory with real-world applications including cyber security, defence and space.

MiG Alley

The US Air Force in Korea, 1950–53

Bloomsbury Publishing Titled after the wartime nickname for the part of North Korea that was the epicentre of a bitter struggle for air superiority over the Korean Peninsula, *MiG Alley* offers an in-depth analysis of the US Air Force's war in Korea, packed with interesting and exciting personal stories based on first-person testimony from both American and Soviet sources. Following the end of the Korean War, the prevailing myth in the West was that of the absolute supremacy of US Air Force pilots and aircraft over their Soviet-supplied opponents. The claims of the 10:1 victory-loss ratio achieved by the US Air Force fighter pilots flying the North American F-86 Sabre against their communist adversaries, among other such fabrications, went unchallenged until the end of the Cold War, when Soviet records of the conflict were finally opened. Packed with first-hand accounts and covering the full range of US Air Force activities over Korea, *MiG Alley* brings the war vividly to life and the record is finally set straight on a number of popular fabrications. Thomas McKelvey Cleaver expertly threads together US and Russian sources to reveal the complete story of this bitter struggle in the Eastern skies.

Feel

My Story

Random House *Feel* is the story of how a small-time boy from humble beginnings in Louisiana rose to the pantheon of greats, to win the 500cc and 250cc GP Championship in the same year - an historic achievement over three decades ago which has never been repeated. Growing up at the time of the assassination of Malcolm X and Martin Luther King, Freddie judged by feel, not by colour. Blind to prejudice and discrimination, he formed dynamic connections with people and events, but only years later during his racing afterlife could Freddie come to understand the true power of the things he learned. Spencer is an articulate and compassionate guide as he describes the thrill and horror of racing in an era when death was a perennial threat. He recalls in pin-sharp detail the frenetic high-octane racing duels with the 'King' Kenny Roberts, but also describes a parallel internal journey as he struggled to make sense of it all. Driven by a search for the personal fulfilment that comes through finding your purpose, Freddie's story is a universal one. In its message of hope, *Feel* transcends its genre to offer a story for everyone. Part thriller, part philosophical self-exploration, it is a remarkably insightful account of what it is like to have it all, but wonder why. "For the first time I will talk about the traumas of my childhood, the contrast between the leaf fire burns, the mistrust and discomfort and the peace and purpose I felt when riding my bike. I didn't tell my parents about something that happened to me. Why? I felt ashamed, but when I rode I felt connected to everything and the pain in my hand and heart would go away. It gave me the feeling of hope".
