Swim Speed Secrets for Swimmers and Triathletes Master the Freestyle Technique Used by the World's Fastest Swimmers [VeloPress](#) In **Swim Speed Secrets**, 4-time Olympian, gold medalist, and triathlon world champion Sheila Taormina reveals the swim technique used by the world's fastest swimmers. Over the course of 4 Olympic Games and throughout her career as a world champion triathlete, Taormina refined her exceptional technique as a student of the sport, studying the world's best swimmers using underwater photographs and video analysis. From Johnny Weissmuller to Michael Phelps, the world's fastest swimmers share two common elements: high stroke rate and a high-elbow underwater pull. Many swimmers and triathletes neglect the underwater pull, distracted by stroke count or perfecting less critical details like

body position, streamlining, and roll. Swim Speed Secrets focuses on producing power—the most crucial element of swimming—to help triathletes and swimmers overhaul their swim stroke and find the speed that’s been eluding them. With a commonsense approach that comes from decades of practice and years of hands-on coaching experience, Taormina shows swimmers how to transition to faster swimming. Swim Speed Secrets includes: The best drills to cultivate a more sensitive feel for the water Dryland and strength building exercises to develop arm position and upper body musculature Crisp photos of Olympic swimmers and variations in their high-elbow underwater pull Clear descriptions of the key moments of the underwater pull Tips that helped her perform at a world-class level for two decades Sheila Taormina’s Swim Speed Secrets brings the focus back where it belongs—to a powerful underwater stroke. With this approach, triathletes and swimmers can stop swimming for survival and break through to new levels of speed and confidence in the water. Doc Hendley never set out to be a hero. In 2004, Hendley-a small- town bartender- launched a series of wine-tasting events to raise funds for clean-water projects and to bring awareness to the world's freshwater crisis. He planned to donate the proceeds through traditional channels, but instead found himself traveling to one of the world's most dangerous hot spots: Darfur, Sudan. There, Doc witnessed a government-sponsored genocide where the number-one weapon wasn't bullets-it was water. The Janjaweed terrorists had figured out that shooting up a bladder containing 10,000 liters of water, or dumping rotting corpses into a primary water source is remarkably efficient for the purposes of mass extermination. With limited funds, Doc realized that he couldn't build new wells costing \$10,000 a pop, but he could hire local workers to restore a damaged well for a mere \$50 each. He'd found his mission. Today, Doc and Wine to Water continue to help stricken peoples repair and maintain water- containment systems in places like Darfur, Cambodia, Uganda, and Haiti. Doc is a regular, rough-and-tumble guy who loves booze, music, and his Harley- but he also wanted to help. **Wine to Water** is a gripping story about braving tribal warfare and natural disasters and encountering fascinating characters in far-flung regions of the world. It is also an authoritative account of a global crisis and an inspirational tale that proves how ordinary people can improve the world. **GRE Power Vocab** [Princeton Review](#) **THE PRINCETON REVIEW GETS RESULTS!** Ace the GRE verbal sections with 800+ words you need to know to excel. Including: Stephen Roche, whose cure for exhaustion was to go up a gear and fight harder, all the way to the ambulance. Eddy Merckx, who hurt himself so badly in breaking the Hour record that, he estimated, he shortened his career by a year. Beryl Burton, who crushed her (male) rival's morale with the offer of a piece of liquorice, before speeding past to victory. Nicole Cooke and Edwig Van Hooydonck, who rejected dope and became legends. The Hardmen tells the stories - the good bits, anyway - of the 40 most heroic Cyclists ever. Their bravery, their panache and their Perfect Amount of Dumb. It reminds us that suffering on a bike liberates us from our daily lives, and that, in the words of Lance Armstrong "pain is temporary, quitting lasts forever"; proof that even assholes can be insightful. **The Pustoy** [CreateSpace](#) Britain, in the mid 21st century. A new prime minister, Lev Solokov is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious

than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices. Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good; are the Pustoy really devoid of a soul? More importantly, how far away is this future, really? Phillippe Blenkiron's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit... *An Untamed Land (Red River of the North Book #1)* [Baker Books](#) Proud of Their Heritage and Sustained by Their Faith, They Came to Tame a New Land She had promised herself that once they left the fjords of Norway, she would not look back. After three long years of scrimping and saving to buy tickets for their passage to America, Roald and Ingeborg Bjorklund, along with their son, Thorliff, finally arrive at the docks of New York City. It was the promise of free land that fed their dream and lured them from their beloved home high above the fjords of Norway in 1880. Together with Roald's brother Carl and his family, they will build a good life in a new land that promises untold wealth and vast farmsteads for their children. As they join the throngs of countless immigrants passing through Castle Garden, they soon discover that nothing is as they had envisioned it. Appalled by the horrid stories of fellow immigrants bilked of all their money and forced to live in squalid living conditions, the Bjorklunds continue their long journey by train as far as Grand Forks. From there a covered wagon takes them into Dakota Territory, where they settle on the banks of the Red River. But there was no way for them to foresee the price they will have to pay to wrest a living from the indomitable land. The virgin prairie refuses to yield its treasure without a struggle. Will they be strong enough to overcome the hardships of that first winter? *CAN System Engineering From Theory to Practical Applications* [Springer Science & Business Media](#) This book addresses the various challenges and open questions relating to CAN communication networks. Additionally, a discussion of quality issues with a particular focus on test techniques is presented. Each chapter features a collection of illuminating insights and detailed technical information supplied by a selection of internationally-regarded experts from industry and academia.

A House to Remember 10 Rillington Place [Mereo Books, mereobook, mereobooks](#) What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In *A House To Remember*, she explains why.
