Guide to Standard Floras of the World

An Annotated, Geographically Arranged Systematic Bibliography of the Principal Floras,

Enumerations, Checklists and Chorological Atlases of Different Areas

Cambridge University Press This 2001 book provides a selective annotated bibliography of the principal floras and related works of inventory for vascular plants. The second edition was completely updated and expanded to take into account the substantial literature of the late twentieth century, and features a more fully developed review of the history of floristic documentation. The works covered are principally specialist publications such as floras, checklists, distribution atlases, systematic iconographies and enumerations or catalogues, although a relatively few more popularly oriented books are also included. The Guide is organised in ten geographical divisions, with these successively divided into regions and units, each of which is prefaced with a historical review of floristic studies. In addition to the bibliography, the book includes general chapters on botanical bibliography, the history of floras, and general principles and current trends, plus an appendix on bibliographic searching, a lexicon of serial abbreviations, and author and geographical indexes.

Phantom Wolf

Sia is a Phantom Wolf. Neither dead nor alive-and rotting from the inside-she is on the edge of her curse. Once a Phantom Wolf has been created, they hunt their blood pack and slaughter all their loved ones. Except for Sia, who woke years after her death to find herself rampaging through the land on a lonely path. She continues to run from the rival pack that hunts her because she is a Phantom Wolf. Attracted to a scent, Sia finds her old best friend, who is now a grown woman. Having once saved Keeley, Sia takes the role of protector yet again, despite Keeley's involvement with the mysterious Alpha, Kiba, and his kin brother, Saith. An ambush separates the pack and the four of them blindly fight the new warriors that attack them:

desperately needing to find out where the attacks are coming from, as Sia has vowed to protect Keeley. But at what cost? Now being chased, Sia finds herself conflicted by the mortal and spirit world while trying to protect her kin. Sia must confront her fears, as well as the human lover who killed her many years before. It is not only survival Sia contends with, but her own facade that must be broken so that she may find peace within herself once more.

Green Butterfly

A Book of Poetry

AuthorHouse "Green Butterfly" is a collection of poetry paralleling a young woman's life as she embraces self-identity, undergoes lessons of love, remembers life, reflects on issues, and welcomes change. Written between June 1999 (the author's entrance into her senior year in high school) to June 2003 (the author's entrance into her senior year in college), "Green Butterfly" is the culmination of the beautiful discovery of a woman's voice translated into poetry. King's poetry is masterful and allows her readers to follow her in flight. Long after the last poem is read, her words will transform into lasting memory.
