America, Incorporated TRX300/Fourtrax 300, TRX300FW/Fourtrax 300 4x4 Prairie Farmer Catalog of British Motorcycles Valueguide 84 pages, 83 black & white illustrations, size 8.25 x 11 inches. Published in the USA under the same title in 1951 by Floyd Clymer, the original publication was a pocket sized landscape format book and it is often criticized as difficult to read due to its small print size. Consequently, this edition was re-formatted into a larger and more conventional portrait size which has increased the text size by almost 40%. This publication provides the reader with an insight into the country, and the manufacturers, that were ultimately destined to succumb to the dominance of the Japanese motorcycle industry. A total of 33 different British motorcycle manufacturers and their various models are included and sadly, less than a handful of those 33 manufacturers survive today. A 'must have' resource for any motorcycle enthusiast and an invaluable reference for anyone interested in British 'iron'. Many of the motorcycles featured within are highly collectible today and the predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide. Connecting Histories Decolonization and the Cold War in Southeast Asia, 1945-1962 Stanford University Press Connecting Histories: Decolonization and the Cold War in Southeast Asia draws on newly available archival documentation from both Western and Asian countries to explore decolonization, the Cold War, and the establishment of a new international order in post-World War II Southeast Asia. Major historical forces intersected here—of power, politics, economics, and culture—on trajectories East to West, North to South, across the South itself, and along less defined tracks. Especially important, democratic-communist competitions sought the loyalties of Southeast Asian nationalists, even as some colonial powers sought to resume their prewar dominance. These intersections are the focus of the contributions to this book, which use new sources and approaches to examine some of the most important historical trajectories of the twentieth century in Burma, Vietnam, Malaysia, and a number of other countries.
