Narr Francke Attempto Verlag Der vorliegende Band dokumentiert ein Forschungsprojekt zum fach- und sprachintegrierten Lehren und Lernen an Universitäten und ermöglicht so vielfältige Einblicke in das Zusammenspiel von relevanten Inhalten, anspruchsvollen Aufgaben und dialogischen Lernprozessen im universitären Fremdsprachenunterricht. Über mehrere Jahre hinweg wurden in einem Programm für Deutschlandstudien an einer japanischen Universität Daten zu den Interaktionsprozessen im Unterricht, zur Entwicklung der Lernenden und ihrer Sicht auf das Geschehen erfasst und mit Hilfe verschiedener Forschungsansätze ausgewertet. Aus der Studie ergeben sich wichtige Impulse für die Planung fach- und sprachintegrierter Programme und deren Erforschung.

MENTAL CAPITAL AND WELLBEING

John Wiley & Sons This major new reference presents The Foresight MentalCapital and Wellbeing Project (a UK Government project in theGovernment Office for Science). It offers a comprehensiveexploration of how mental capital and wellbeing operate over thelifespan; how experiences in the family, in school, at work andfollowing retirement augment or reduce mental capital andwellbeing, and the impact that this has for the individual and forthe welfare and economic progress of the nation. Mental Capital and Wellbeingcomprises a series ofscientific reviews written by leading international scientists andsocial scientists in the field. The reviews undertake systematicanalyses of the evidence base surrounding five key themes, on whichthey propose future policies will have to be based. Aninternationally renowned team of Editors introduce each theme anddraw together conclusions in terms of both policy andpractice. Section 1 (Mental Capital and Wellbeing Through Life)- Mental capital refers to the totality of anindividual's cognitive and emotional resources, includingtheir cognitive capability, flexibility and efficiency of learning,emotional intelligence and resilience in the face of stress. Theextent of an individual's resources reflects his or her basicendowment (e.g. genes and early biological programming), motivationand experiences (e.g. education) which take place throughout thelife course. This section presents the very latest on the scienceof mental capital throughout life. Section 2 (Learning Through Life) provides a coherentoverview of a fast-moving and complex field of policy and practice.Educational attainment has a considerable impact on physical andmental wellbeing, both directly and indirectly, by enabling peoplebetter to achieve their goals. The ability to continue learningthroughout the lifespan is critical to a successful and rewardinglife in contemporary societies. Section 3 (Mental Health and Ill-Health) draws together themost recent evidence about positive mental health as well as arange of mental disorders to consider their importance to thepopulation and economy in terms of prevalence and disability andthe wider burden on society. Section 4 (Wellbeing and Work) - It is estimated that13 million working days are lost through stress each year, costingthe economy over £3.7 billion per annum. This theme exploresthose drivers that influence the nature and

structure of work and the impact this has on employee wellbeing. Section 5 (Learning Difficulties) - This theme provides a cutting-edge picture of how recent insights from genetics, cognitive and neuroscience improve our understanding of learning difficulties such as dyslexia, dyscalculia and attention-deficit-hyperactivity disorder. Reviews focus on how current research can contribute to early diagnosis and improved intervention.

FREEDOM OF EXPRESSION AND THE INTERNET

UPDATED AND REVISED 2ND EDITION

Council of Europe An invaluable resource for students of law, politics, international relations and technology as well as for diplomats and civil society actors, this publication demonstrates how the Council of Europe contributes to ensuring that everyone's voice online can be heard. This is key to sustainable, human rights oriented and people-centred digitalisation. Human rights matter on the internet. Without freedom of expression, people cannot participate in everything that the information society has to offer. Yet online free speech is in danger. Between state laws, private rules and algorithms, full participation in the online communicative space faces many challenges. This publication explores the profound impact of the internet on free expression and how it can be effectively secured online. The second, updated edition of this introduction into the protection of freedom of expression online answers essential questions regarding the extent and limits of freedom of expression online and the role of social networks, courts, states and organisations in online communication spaces. In clear language, with vivid examples spanning two decades of internet law, the authors answer questions on freedom of expression in cyberspace. Addressing issues from the protection of bloggers to the right to access online information, the publication also shows the importance of the standard-setting, monitoring and promotion activities of international and non-governmental organisations and includes a chapter on relevant national practice. It pays special attention to the role of European human rights law and the Council of Europe as this region's most important human rights organisation.

COMMON EUROPEAN FRAMEWORK OF REFERENCE FOR LANGUAGES: LEARNING, TEACHING, ASSESSMENT

COMPANION VOLUME

Council of Europe The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ► an explanation of the key aspects of the CEFR for teaching and learning; ► a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ► a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ► enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all.

POPULATION AGING AND THE GENERATIONAL ECONOMY

A GLOBAL PERSPECTIVE

Edward Elgar Publishing 'While there already exists a crowded body of publications addressing the effect of an aging population on the economy, this monograph is most outstanding in presenting a global, in-depth analysis of the implications thereby generated for 23 developed and developing countries. . . Scholars, researchers, and practitioners everywhere will benefit immensely from this comprehensive work.' - H.I. Liebling, Choice 'Ron Lee and Andrew Mason's Population Aging and the Generational Economy is a demographic and economic tour-de-force. Their collaborative, intercontinental. . . study of aging, consumption, labor supply, saving, and private and public transfers is the place to go to understand global aging and its myriad and significant economic challenges and opportunities.' - Laurence Kotlikoff, Boston University, US 'The culmination of. . . work by Lee, Mason, and their collaborators from around the world to extend Samuelson's framework to accommodate realistic demography, empirical measurement of age-specific earnings, consumption, tax payments, and benefit receipts, the studies. . . demonstrate the power of this integrated economic-demographic framework to advance our understanding of critical public policy challenges faced by countries at different stages of demographic transition and population aging.' - Robert Willis, University of Michigan, US 'Lee and Mason have done scholars and practitioners a magnificent service by undertaking this comprehensive, compelling, and supremely innovative examination of the economic consequences of changes in population age structure. The book is a bona fide crystal ball. It will be a MUST READ for the next decade!' - David Bloom, Harvard School of Public Health, US 'Population Aging and the Generational Economy provides an encompassing account of what we know about population aging and the impact that this process will have on our economies. It does not confine itself to the advanced industrial countries, where aging has already been largely studied, but adopts a truly global perspective. I am sure it will become a key reference for researchers, students and those involved in policy-making in areas that are affected by population aging.' - Giuliano Bonoli, Swiss Graduate School of Public Administration (IDHEAP), Switzerland Over coming decades, changes in population age structure will have profound implications for the macroeconomy, influencing economic growth, generational equity, human capital, saving and investment, and the sustainability of public and private transfer systems. How the future unfolds will depend on key actors in the generational economy: governments, families, financial institutions, and others. This path-breaking book provides a comprehensive analysis of the macroeconomic effects of changes in population age structure across the globe. The result of a substantial seven-year research project involving over 50 economists and demographers from Africa, Asia, Europe, Latin America, and the United States, the book draws on a new and comprehensive conceptual framework - National Transfer Accounts - to quantify the economic lifecycle and economic flows across generations. It presents comprehensive estimates of both public and private economic flows between generations, and emphasizes the global nature of changes in population age structure that are affecting rich and poor countries alike. This unique and informative book will prove an invaluable reference tool for a wide-ranging audience encompassing students, researchers, and academics in fields such as demography, aging, public finance, economic development, macroeconomics, gerontology, and national income accounting; for policy-makers and advisers focusing on areas of the public sector such as education, health, pensions, other social security programs, tax policy, and public debt; and for policy analysts at international agencies such as the World Bank, the IMF, and the UN.

DECISION-MAKING SUPPORT SYSTEMS: ACHIEVEMENTS AND CHALLENGES FOR THE NEW DECADE

ACHIEVEMENTS AND CHALLENGES FOR THE NEW DECADE

IGI Global Annotation The book presents state-of-the-art knowledge about decision-making support systems (DMSS). Its main goals are to provide a compendium of quality chapters on decision-making support systems that help diffuse scarce knowledge about effective methods and strategies for successfully designing, developing, implementing, and evaluating decision-making support systems, and to create an awareness among readers about the relevance of decision-making support systems in the current complex and dynamic management environment.

INVESTING IN CULTURAL DIVERSITY AND INTERCULTURAL DIALOGUE

UNESCO This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international

community.

NEW APPROACHES TO RESISTANCE IN BRAZIL AND MEXICO

THE BRITISH NATIONAL BIBLIOGRAPHY

ANALYTICAL CHEMISTRY FOR CULTURAL HERITAGE

[Springer](#) The series Topics in Current Chemistry Collections presents critical reviews from the journal Topics in Current Chemistry organized in topical volumes. The scope of coverage is all areas of chemical science including the interfaces with related disciplines such as biology, medicine and materials science. The goal of each thematic volume is to give the non-specialist reader, whether in academia or industry, a comprehensive insight into an area where new research is emerging which is of interest to a larger scientific audience. Each review within the volume critically surveys one aspect of that topic and places it within the context of the volume as a whole. The most significant developments of the last 5 to 10 years are presented using selected examples to illustrate the principles discussed. The coverage is not intended to be an exhaustive summary of the field or include large quantities of data, but should rather be conceptual, concentrating on the methodological thinking that will allow the non-specialist reader to understand the information presented. Contributions also offer an outlook on potential future developments in the field.

THE MEDIA AND THE RWANDA GENOCIDE

[IDRC](#) The news media played a crucial role in the 1994 Rwanda genocide. Local media fueled the killings, while international media either ignored or seriously misunderstood what was happening. This is the first book to explore both sides of the media equation. Examining how local radio was used as a tool of hate, encouraging neighbors to turn against each other, the book also presents a critique of international media coverage. Bringing together local reporters, high-profile Western journalists, and leading media theorists, this is the only book to identify the extent of the media's accountability. It also examines deliberations by the International Criminal Tribunal for Rwanda on the role of the media in the genocide. This book is a startling record of the negative influence that the media can have. The authors put forward suggestions for the future, outlining how we can avoid censorship and propaganda and they argue for a new responsibility in media reporting.

LIVING AS FORM

SOCIALLY ENGAGED ART FROM 1991-2011

[MIT Press](#) 'Living as Form' grew out of a major exhibition at Creative Time in New York City. Like the exhibition, the book is a landmark survey of more than 100 projects selected by a 30-person curatorial advisory team; each project is documented by a selection of colour images.

WOMEN AND THE MAFIA

FEMALE ROLES IN ORGANIZED CRIME STRUCTURES

[Springer Science & Business Media](#) The insightful essays in this book shine a new light on the roles of women within criminal networks, roles that in reality are often less traditional than researchers used to think. The book seeks to answer questions from a wide range of academic disciplines and traces the portrait of women tied to organized crime in Italy and around the world. The book offers up accounts of mafia women, and also tales of severe abuse and violence against women.

PARTITIVE DETERMINERS, PARTITIVE PRONOUNS AND PARTITIVE CASE

[Walter de Gruyter GmbH & Co KG](#) Die Buchreihe Linguistische Arbeiten hat mit über 500 Bänden zur linguistischen Theoriebildung der letzten Jahrzehnte in Deutschland und international wesentlich beigetragen. Die Reihe wird auch weiterhin neue Impulse für die Forschung setzen und die zentrale Einsicht der Sprachwissenschaft präsentieren, dass Fortschritt in der Erforschung der menschlichen Sprachen nur durch die enge Verbindung von empirischen und theoretischen Analysen sowohl diachron wie synchron möglich ist. Daher laden wir hochwertige linguistische Arbeiten aus allen zentralen Teilgebieten der allgemeinen und einzelsprachlichen Linguistik ein, die aktuelle Fragestellungen bearbeiten, neue Daten diskutieren und die Theorieentwicklung vorantreiben.

EATING DISORDERS AND OBESITY

THE CHALLENGE FOR OUR TIMES

MDPI Eating Disorders have traditionally been considered apart from public health concerns about increasing obesity. It is evident that these problems are, however, related in important ways. Comorbid obesity and eating disorder is increasing at a faster rate than either obesity or eating disorders alone and one in five people with obesity also presents with an Eating Disorder, commonly but not limited to Binge Eating Disorder. New disorders have emerged such as normal weight or Atypical Anorexia Nervosa. However research and practice too often occurs in parallel with a failure to understand the weight disorder spectrum and consequences of co-morbidity that then contributes to poorer outcomes for people living with a larger size and an Eating Disorder. Urgently needed are trials that will inform more effective assessment, treatment and care where body size and eating disorder symptoms are both key to the research question.

TEACHING ENGLISH AS A FOREIGN LANGUAGE

AN INTRODUCTION

Springer Diese Einführung in englischer Sprache präsentiert in 14 Kapiteln die grundlegenden Themen und Gegenstandsbereiche der Englischdidaktik. Gleichermaßen praxisnah wie theoretisch fundiert, behandelt der Band zentrale Prinzipien und Kompetenzbereiche eines modernen Fremdsprachenunterrichts. Ausgehend von den zentralen Akteur/innen (Lehrende und Lernende) und mit Blick auf die Teilbereiche der Sprach-, Literatur- und Kulturdidaktik werden zudem Vorschläge für den Einsatz unterschiedlicher Materialien und Medien diskutiert. Weitere Kapitel widmen sich den institutionellen Organisationsstrukturen und dem Bereich Assessment/Diagnose. Der Band erscheint in zweifarbiger Gestaltung, mit Definitionen und Beispielen sowie mit zahlreichen Abbildungen. This comprehensive introduction presents the fundamental topics and issues of TEFL (Teaching English as a Foreign Language) in 14 chapters. Integrating both profound theoretical and creative practical considerations, the central principles and competence domains of modern foreign language teaching are discussed. Starting with the main classroom agents (teachers and learners), the chapters outline a variety of content areas (language, literature, cultural issues) and thoroughly review materials, media and methods. Additional chapters are concerned with the historical development of English language teaching, its current institutional organisation as well as assessment and evaluation.

HOTTENTOT VENUS

A NOVEL

Anchor It is Paris, 1815. An extraordinarily shaped South African girl known as the Hottentot Venus, dressed only in feathers and beads, swings from a crystal chandelier in the duchess of Berry's ballroom. Below her, the audience shouts insults and pornographic obscenities. Among these spectators is Napoleon's physician and the most famous naturalist in Europe, the Baron George Cuvier, whose encounter with her will inspire a theory of race that will change European science forever. Evoking the grand tradition of such "monster" tales as Frankenstein and The Hunchback of Notre Dame, Barbara Chase Riboud, prize-winning author of the classic Sally Hemings, again gives voice to an "invisible" of history. In this powerful saga, Sarah Baartman, for more than 200 years known only as the mysterious lady in the glass cage, comes vividly and unforgettably to life.

VIRTUAL AND NETWORKED ORGANIZATIONS, EMERGENT TECHNOLOGIES AND TOOLS

FIRST INTERNATIONAL CONFERENCE, VINORG 2011, OFIR, PORTUGAL, JULY 6-8, 2011. REVISED SELECTED PAPERS

Springer This book constitutes the thoroughly refereed post-conference proceedings of the First International Conference on Virtual and Networked Organizations, Emergent Technologies, and Tools, ViNOrg 2011, held in Ofir, Portugal, in July 2011. The 35 revised full papers presented were carefully reviewed and selected from over 60 initial submissions. The papers cover a wide range of topics, such as ubiquitous computing and organizations, cloud computing and architectures, grid computing, human-computer interfaces, serious games, data mining, Web services, cognitive systems, social networks and other emergent IT/IS approaches in various function domains, such as decision support systems, planning, design, control, negotiation, marketing, management and many other, in the context of virtual and networked enterprises and organizations.

VIRTUAL ART

FROM ILLUSION TO IMMERSION

MIT Press An overview of the art historical antecedents to virtual reality and the impact of virtual reality on contemporary conceptions of art. Although many people view virtual reality as a totally new phenomenon, it has its foundations in an unrecognized history of immersive images. Indeed, the search for illusionary visual space can be traced back to antiquity. In this book, Oliver Grau shows how virtual art fits into the art history of illusion and immersion. He describes the metamorphosis of the concepts of art and the image and relates those concepts to interactive art, interface design, agents, telepresence, and image evolution. Grau retells art history as media history, helping us to understand the phenomenon of virtual reality beyond the hype. Grau shows how each epoch used the technical means available to produce maximum illusion. He discusses frescoes such as those in the Villa dei Misteri in Pompeii and the gardens of the Villa Livia near Prima Porta, Renaissance and Baroque illusion spaces, and panoramas, which were the most developed form of illusion achieved through traditional methods of painting and the mass image medium before film. Through a detailed analysis of perhaps the most important German panorama, Anton von Werner's 1883 The Battle of Sedan, Grau shows how immersion produced emotional responses. He traces immersive cinema through Cinerama, Sensorama, Expanded Cinema, 3-D, Omnimax and IMAX, and the head mounted display with its military origins. He also examines those characteristics of virtual reality that distinguish it from earlier forms of illusionary art. His analysis draws on the work of contemporary artists and groups ART+COM, Maurice Benayoun,

Charlotte Davies, Monika Fleischmann, Ken Goldberg, Agnes Hegedues, Eduardo Kac, Knowbotic Research, Laurent Mignonneau, Michael Naimark, Simon Penny, Daniela Plewe, Paul Sermon, Jeffrey Shaw, Karl Sims, Christa Sommerer, and Wolfgang Strauss. Grau offers not just a history of illusionary space but also a theoretical framework for analyzing its phenomenologies, functions, and strategies throughout history and into the future.

Authors include scientists, journalists and communication professionals.**

SUSTAINABILITY OF IRRIGATED AGRICULTURE

Springer Science & Business Media **Irrigated agriculture and the use of water resources in agriculture face the challenges of sustainable development. Research has advanced our knowledge of water use by crops, soil-water-solutes interactions, and the engineering and managerial tools needed to mobilize, convey, distribute, control and apply water for agricultural production. However, the achievements booked in user practice have revealed the need for new developments in the areas of resource conservation, control of environmental and health impacts, modernisation of technologies and management, economic viability and the social acceptance of changes. The contributions to Sustainability of Irrigated Agriculture cover most of the relevant disciplines. Besides its multidisciplinaryity, the different origins, experience, backgrounds and practices of the authors provide a wide, in-depth analysis of the various aspects of water resource utilization in agriculture. The papers review scientific, technical and managerial aspects, highlighting the main problems, issues and future developments. The book covers the different aspects of sustainability, including environmental, technical, economic, institutional and social ones. Advances in irrigation science and engineering are dealt with, both on- and off-farm. Special attention is paid to the different components of water quality management, to the transfer of technology, and to capacity building.**
