KEY=INDUCTIVE - DEANNA JAYLIN

Global Crisis Reporting McGraw-Hill Education (UK) *From climate change to the global war on terror, from forced migration to humanitarian disasters - these are just some of the global crises addressed in this accessible, ground-breaking book. For the first time, the author examines how, why and to what extent these are diverse threats to humanity conveyed in today's news media.* **Media Strategies for Marketing Places in Crisis Routledge** *Growing competition between countries and cities over attracting infrastructure, investment, tourists, capital and national and international status mean that today, a negative image is more harmful than ever. Whatever the cause of the negative image, places perceived as dangerous, frightening, or boring are at a distinct disadvantage. Many decision makers and marketers stand by helplessly, frustrated by their knowledge that in most cases, their city's negative image is not based on well-grounded facts. Given that stereotypes are not easily changed or dismissed, the challenge facing these decision makers is great. Analyses of many case studies show interesting examples of places that tried to change a negative image into a positive one, in order to bringing back tourists, investors and residents. Although a great deal of knowledge about crisis communications has accumulated in recent years, very little has been written about strategies to improve places' negative images. The aim of "Media Strategies for Marketing Places in Crisis" is to discuss the various dimensions of an image crisis and different strategies to overcome it, both in practice and theory. "Media Strategies for Marketing Places in Crisis" is based on the careful analysis of dozens of case studies, advertisements, public relations campaigns, press releases, academic articles, news articles, and the websites of cities, countries and tourist destinations.* **Using Software in Qualitative Research A Step-by-Step Guide SAGE** *Using Software in Qualitative Research is an essential introduction to the practice and principles of Computer Assisted Qualitative Data Analysis (CAQDAS), helping the reader choose the most appropriate package for their needs and to get the most out of the software once they are using it. This step-by-step book considers a wide range of tasks and processes, bringing them together to demystify qualitative software and encourage flexible and critical choices and uses of software in supporting analysis. The book can be read as a whole or by chapters, building on one another to provide a holistic sense of the analytic journey without advocating a particular sequential process. Accessible and comprehensive, Using Software in Qualitative Research provides a practical but analytically-grounded guide to thinking about and using software and will be an essential companion for any qualitative researcher.*
