The Latin Sexual Vocabulary JHU Press **Catullus Student Text About Translation** Multilingual Matters Peter Newmark's third book is an attempt to deepen and extend his views on translation. He goes easy on theories and models and diagrams and offers a few correlative statements to assist translators in finding a variety of options and in making their decisions. **Latin for the New Millennium: Level 2: student text** Bolchazy-Carducci Publishers **Before Religion A History of a Modern Concept** Yale University Press Examining a wide array of ancient writings, Brent Nongbri dispels the commonly held idea that there is such a thing as ancient religion. Nongbri shows how misleading it is to speak as though religion was a concept native to pre-modern cultures. **EPZ Thousand Plateaus** A&C Black 'A rare and remarkable book.' Times Literary Supplement Gilles Deleuze (1925-1995) was Professor of Philosophy at the University of Paris VIII. He is a key figure in poststructuralism, and one of the most influential philosophers of the twentieth century. Félix Guattari (1930-1992) was a psychoanalyst at the la Borde Clinic, as well as being a major social theorist and radical activist. A Thousand Plateaus is part of Deleuze and Guattari's landmark philosophical project, Capitalism and Schizophrenia - a project that still sets the terms of contemporary philosophical debate. A Thousand Plateaus provides a compelling analysis of social phenomena and offers fresh alternatives for thinking about philosophy and culture. Its radical perspective provides a toolbox for 'nomadic thought' and has had a galvanizing influence on today's anti-capitalist movement. Translated by Brian Massumi> **Education at a Glance 2021 OECD Indicators** OECD Publishing Education at a Glance is the authoritative source for information on the state of education around the world. The 2021 edition includes a focus on equity, investigating how progress through education and the associated learning and labour market outcomes are impacted by dimensions such as gender, socio-economic status, country of birth and regional location. **Latin for the New Millennium** Bolchazy-Carducci Publishers **The Art of Love Bimillennial Essays on Ovid's Ars Amatoria and Remedia Amoris** QUP Oxford The Art of Love celebrates the bi-millennium of Ovid's cycle of sophisticated and subversive didactic poems on love, traditionally assumed to have been brought to completion around AD 2. Ars Amatoria (The Art of Love) and Remedia Amoris (Cures for Love), which purport to teach young Roman men and women how to be good lovers, were partly responsible for the poet's exile from Rome under the emperor Augustus. None the less they exerted great influence over ancient and later love poetry. This is the first collection in English devoted to the poems, and brings together many of the leading figures in the field of Latin literature and Ovidian studies from the British Isles, Germany, Italy, and the United States. It offers a range of perspectives on the poetics, politics, and erotics of the poems, beginning with a critical survey of recent research, and concluding with papers on the ancient, medieval, and modern reception of the poems. **Kafka Toward a Minor Literature** U of Minnesota Press In Kafka Deleuze and Guattari free their subject from his (mis)interpreters. In contrast to traditional readings that see in Kafka's work a case of Oedipalized neurosis or a flight into transcendence, guilt, and subjectivity, Deleuze and Guattari make a case for Kafka as a man of joy, a promoter of radical politics who resisted at every turn submission to frozen hierarchies. **Cicero, Philippic 2, 44-50, 78-92, 100-119 Latin Text, Study Aids with Vocabulary, and Commentary** Open Book Publishers Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence. **Scientific Babel How Science Was Done Before and After Global English** University of Chicago Press English is the language of science today. No matter which languages you know, if you want your work seen, studied, and cited, you need to publish in English. But that hasn't always been the case. Though there was a time when Latin dominated the field, for centuries science has been a polyglot enterprise, conducted in a number of languages whose importance waxed and waned over time—until the rise of English in the twentieth century. So how did we get from there to here? How did French, German, Latin, Russian, and even Esperanto give way to English? And what can we reconstruct of the experience of doing science in the polyglot past? With Scientific Babel, Michael D. Gordin resurrects that lost world, in part through an ingenious mechanism: the pages of his highly readable narrative account teem with footnotes—not offering background information, but presenting quoted material in its original language. The result is stunning: as we read about the rise and fall of languages, driven by politics, war, economics, and institutions, we actually see it happen in the ever-changing web of multilingual examples. The history of science, and of English as its dominant language, comes to life, and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices, but also of the possibilities of the polyglot, and the losses that the dominance of English entails. Few historians of science write as well as Gordin, and Scientific Babel reveals his incredible command of the literature, language, and intellectual essence of science past and present. No reader who takes this linguistic journey with him will be disappointed. **The Book of the Secrets of Enoch** Health Research Books 1896 Translated from the Slavonic by W.R. Morfill. Reader in Russian and the other Slavonic languages. Edited, with introductory notes & indices by R. H. Charles, M.A., Trinity college, Dublin & Exeter college, Oxford. (1896). the Secrets of Enoch is. **Civil War** OUP Oxford This new translation in free verse conveys the full force of Lucan's writing and his grimly realistic view of the subject. The Introduction sets the scene for the reader unfamiliar with Lucan and explores his relationship with earlier writers of Latin epic, and his interest in the sensational. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. The Romans!" The books in the series will present the Romans to you as you learn the Latin language that they spoke. At first you will meet the members of a Roman family; Latin is the language they use to communicate among themselves. As you continue reading you will meet mythological and historical characters that meant much to the Romans and remain part of our cultural heritage today. You will be introduced to a vast and colorful world of ancient Mediterranean and European civilizations that included peoples who spoke many different languages, and you will meet people of many different cultures and social levels, ranging from slaves to emperors. You will read passages from many ancient Roman writers and thus come into direct communication with the ancient Romans themselves. - Introduction. **Latin for Beginners - The Original Classic Edition** Tebbo What is Latin? If you will look at the map of Italy on the opposite page, you will find near the middle of the peninsula and facing the west coast a district called Latium,1 and Rome its capital. The Latin language, meaning the language of Latium, was spoken by the ancient Romans and other inhabitants of Latium, and Latin was the name applied to it after the armies of Rome had carried the knowledge of her language far beyond its original boundaries. As the English of to-day is not quite the same as that spoken two or three hundred years ago, so Latin was not always the same at all times, but changed more or less in the course of centuries. The sort of Latin you are going to learn was in use about two thousand years ago. And that period has been selected because the language was then at its best and the greatest works of Roman literature were being produced. This period, because of its supreme excellence, is called the Golden Age of Roman letters. This is a high quality book of the original classic edition. It was previously published by other bona fide publishers, and is now, finally, back in print. This is a freshly published edition of this culturally important work, which is now, at last, again available to you. Enjoy this classic work. These few paragraphs distill the contents and give you a quick look inside: Part II carries the work through the first sixty lessons, and is devoted to the study of forms and vocabulary, together with some elementary constructions, a knowledge of which is necessary for the translation of the exercises and reading matter. ...The Latin language, meaning the language of Latium, was spoken by the ancient Romans and other inhabitants of Latium, and Latin was the name applied to it after the armies of Rome had carried the knowledge of her language far beyond its original boundaries. As the English of to-day is not quite the same as that spoken two or three hundred years ago, so Latin was not always the same at all times, but changed more or less in the course of centuries. ...The Normans spoke French-which, you remember, is descended from Latin-and spread their language to a considerable extent over England, and so Norman-French played an important part in the formation of English and forms a large proportion of our vocabulary. ...In English we have three cases, -nominative, possessive, and objective; but, in nouns, the nominative and objective have the same form, and only the possessive case shows a change of ending, by adding 's or the apostrophe. **Global Education Monitoring Report 2020 Inclusion and Education - All Means All United Nations** This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality. **The Oxford Guide to the Romance Languages** Oxford University Press The Oxford Guide to the Romance Languages is the most exhaustive treatment of the Romance languages available today. Leading international scholars adopt a variety of theoretical frameworks and approaches to offer a detailed structural examination of all the individual Romance varieties and Romance-speaking areas, including standard, non-standard, dialectal, and regional varieties of the Old and New Worlds. The book also offers a comprehensive comparative account of major topics, issues, and case studies across different areas of the grammar of the Romance languages. The volume is organized into 10 thematic parts: Parts 1 and 2 deal with the making of the Romance languages and their typology and classification, respectively; Part 3 is devoted to individual structural overviews of Romance languages, dialects, and linguistic areas, while Part 4 provides comparative overviews of Romance phonology, morphology, syntax, semantics and pragmatics, and sociolinguistics. Chapters in Parts 5-9 examine issues in Romance phonology, morphology, syntax, semantics, and pragmatics and discourse, respectively, while the final part contains case studies of topics in the nominal group, verbal group, and the clause. The book will be an essential resource for both Romance specialists and everyone with an interest in Indo-European and comparative linguistics. **Modelling and Control of Switched Reluctance Machines** BoD - Books on Demand Today, switched reluctance machines (SRMs) play an increasingly important role in various sectors due to advantages such as robustness, simplicity of construction, low cost, insensitivity to high temperatures, and high fault tolerance. They are frequently used in fields such as aeronautics, electric and hybrid vehicles, and wind power generation. This book is a comprehensive resource on the design, modeling, and control of SRMs with methods that demonstrate their good performance as motors and generators. **New Perspectives on People and Forests** Springer Science & Business Media The aim of this book is to elucidate the role of forests as part of a landscape in the life of people. Most landscapes today are cultural landscapes that are influenced by human activity and that in turn have a profound effect on our understanding of and identification with a place. The book proposes that a better understanding of the bond between people and forests as integrated part of a landscape may be helpful in landscape planning, and may contribute to the discussion of changes in forest cover which has been motivated by land use changes, rural development and the global climate debate. To this end, people's perception of forest landscapes, the reasons for different perceptions, and future perspectives are discussed. Given the wide range of forest landscapes, and cultural perspectives which exist across the world, the book focuses on Europe as a test case to explore the various relationships between society, culture, forests and landscapes. It looks at historical evidence of the impacts of people on forests and vice versa, explores the current factors affecting people's physical and emotional comfort in forest landscapes, and looks ahead to how changes in forest cover may alter the present relationships of people to forests. Drawing together a diverse literature and combining the expertise of natural and social scientists, this book will form a valuable reference for students and researchers working in the fields of landscape ecology and landscape architecture, geography, social science, environmental psychology or environmental history. It will also be of interest to researchers, government agencies and practitioners with an interest in issues such as sustainable forest management, sustainable tourism, reserve management, urban planning and environmental interpretation. **Ars Amatoria Book I** Oxford University Press Ovid's Ars Amatoria has met with astonishingly varied fortunes down the centuries. Ten

years after publication the book became a reason, or more probably a pretext, for the author's banishment from Rome. It was removed from public libraries, and more recently the poem suffered a virtual embargo in schools and universities. This is the first detailed English commentary on any part of the poem. Examined afresh, it emerges as the wittiest of Ovid's love poems, turning upside down the attitudes and conventions of orthodox love elegy. The work is full of psychological insight and is richly embroidered with details of contemporary Roman social and political life. This new paperback edition intends to bring out the spirit of provocative frivolity which was undeniably meant to irritate Roman traditionalists. The text of Kenney's Oxford Classical Text is reproduced and supplemented with a full introduction to the style and historical background the poem, as well as with a full commentary and appendices. **"The" Satires of Juvenal, Imperium Book 1 Graeculus** CreateSpace Imperium is a Latin course, unique, highly resourced and written to make fullest use of modern technology. Imperium Book 1 is subtitled Graeculus, which means 'little Greek'. This nickname was given to the Emperor Hadrian, who eventually became the most powerful man in the Roman world. The book follows him through childhood, as he grew up Spain. His early interests in horses, hunting and the amphitheatre are all explored, as he becomes the ward of Trajan and eventually makes his way to live in Rome. The historical material is close to accurate throughout, though some characters have been invented to make life challenging, such as the rather nasty little donkey who bullies Hadrian's first horse. The linguistic content of Book I includes nouns and adjectives in declensions 1 to 3, with verbs in the present active indicative, from conjugations 1 to 4. In addition to the books, the Imperium Latin Course is richly supported by a range of electronic materials, including the Imperium Word Tools App. See our website for further details, at www.imperiumlatin.com **The Old French Johannes Translation of the Pseudo-Turpin Chronicle A Critical Edition** Univ of California Press **Latin Vocabulary for Key Stage 3 and Common Entrance** Iseb Publications This vocabulary book is an invaluable guide for pupils preparing for Common Entrance and other entrance exams at 13+ and lists all the Latin words required at this level (from Autumn 2014 onward, there are three additional pieces of vocabulary required for Level 2 and 3 exams, which can be downloaded from www.galorepark.co.uk). Written somewhere between 197-202, the work looks at the moral legitimacy and consequences of Christians attending the circus, theatre, or amphitheatre. **Care Work and Care Jobs for the Future of Decent Work** The report analyses the ways in which unpaid care work is recognised and organised, the extent and quality of care jobs and their impact on the well-being of individuals and society. A key focus of this report is the persistent gender inequalities in households and the labour market, which are inextricably linked with care work. These gender inequalities must be overcome to make care work decent and to ensure a future of decent work for both women and men. The report contains a wealth of original data drawn from over 90 countries and details transformative policy measures in five main areas: care, macroeconomics, labour, social protection and migration. It also presents projections on the potential for decent care job creation offered by remedying current care work deficits and meeting the related targets of the Sustainable Development Goals. **The Hibernensis Volume 2: Translation, Commentary, and Indexes Permanent Magnet Synchronous Machines** MDPI Interest in permanent magnet synchronous machines (PMSMs) is continuously increasing worldwide, especially with the increased use of renewable energy and the electrification of transports. This book contains the successful submissions of fifteen papers to a Special Issue of Energies on the subject area of "Permanent Magnet Synchronous Machines". The focus is on permanent magnet synchronous machines and the electrical systems they are connected to. The presented work represents a wide range of areas. Studies of control systems, both for permanent magnet synchronous machines and for brushless DC motors, are presented and experimentally verified. Design studies of generators for wind power, wave power and hydro power are presented. Finite element method simulations and analytical design methods are used. The presented studies represent several of the different research fields on permanent magnet machines and electric drives. **Post-imperial Literature Translatio Imperii in Kafka and Coetzee** Walter de Gruyter GmbH & Co KG This book proposes a new departure point for the investigation of transnational literary alliances: the traumatic constellation of translatio imperii, which followed the dissolution of the East-Central European empires in the 1920s and the crumbling of the West European colonial empires in the 1950s. To prevent their breakdown, the former transitioned from a 'sovereign' to a 'disciplinary' mode of administration of their peripheries, the latter from the merciless assimilation of their colonial constituencies to their affirmative regeneration. This book treats Franz Kafka as the writer of the first transition, prefiguring J. M. Coetzee as the writer of the second. In a series of close readings, it investigates the particular ways in which the restructuring of power relations between the agencies in their fictions is a response to the delineated post-imperial reconfiguration of the new countries' governmental techniques. By displacing their narrative authority beyond the reach of their readers, they laid bare the sudden withdrawal of transcendental guarantees from the world of human commonality. This entailed an unstable and elusive configuration of their fictional worlds as a key feature of post-imperial literature. **Cicero and Roman Education The Reception of the Speeches and Ancient Scholarship** Cambridge University Press Presents the first full-length, systematic study of the reception of Cicero's speeches in the Roman educational system. **Catullus in English Models from the Past in Roman Culture A World of Exempla** Cambridge University Press Presents a coherent model for understanding historical examples in Ancient Rome and their rhetorical, moral and historiographical functions. **The Travels of Sir John Mandeville** Wyatt North Publishing, LLC The Travels of Sir John Mandeville is the chronicle of the alleged Sir John Mandeville, an explorer. His travels were first published in the late 14th century, and influenced many subsequent explorers such as Christopher Columbus. **Critical Issues in South African Education Illumination from international comparative perspectives from the BRICS countries** AOSIS The main thesis of this book is that, given that South African education faces major challenges, the BRICS (Brazil, Russia, India, China and South Africa) constellation of states offers — thus far overlooked — a valuable tertium comparationis, a source of international comparative perspectives, to inform the domestic scholarly discourse on education. This book first investigates the national contexts and development of education in the BRICS countries, arguing that this grouping represents a valuable but yet overlooked field for illuminating South African education issues with international perspectives. The book consists of chapters arguing for and illustrating this thesis from a variety of angles. Common to all chapters is that authors used the comparative method in education, that is comparing the national education system, in their education societal context interrelationships, of the BRICS countries. The chapters focus on a number of critical issues in South African education, including the language of learning and teaching issue, the alignment of the world of education with the world of work, early childhood education, and the development of world-class universities. Regarding the last, for example, China has been the terrain of the most intensive national projects of establishing world-class universities, with Project 985, Project 211, and the "Double First Class University" project. The chapters demonstrate what South Africa, in approaching her education issues, can learn from the experience of the BRICS countries. **The Oxford Latin Syntax The Simple Clause** Oxford University Press, USA The goal of this work is to present an up-to-date successor to Keuhner-Stegmann's *Ausführliche Grammatik der lateinischen Sprache*, taking into account new editions of Latin texts with better knowledge of the manuscripts, the publication and study of texts unknown in Keuhner-Stegmann's time, recent linguistic studies, and new methods and models in linguistics. **OECD Handbook for Internationally Comparative Education Statistics 2018 Concepts, Standards, Definitions and Classifications** OECD Publishing For well over two decades, the OECD has developed and published a broad range of comparative indicators published yearly in the flagship publication *Education at a Glance*. These provide insights into the functioning of education systems, such as the participation and progress through education ... **The Politics of Culture in Quattrocento Europe René of Anjou in Italy** Oxford University Press The Politics of Culture in Quattrocento Europe: René of Anjou in Italy is about the politics of culture and the culture of politics in early Renaissance Europe, especially the role of Italian humanism and art. It challenges conventional interpretations of the politics of humanism (generally concerned with political thought or 'propaganda') but also poses provocative questions about Renaissance artistic developments. Meanwhile, by moving easily across state and national borders (France and Italy, but also between Italian states), it challenges historiographical boundaries. As a case study, it presents an approach to the politics of culture that may be widely applicable; but its central chapters are focused in such a way as to make profound comment on some of the biggest questions in Renaissance studies. **The Cambridge Companion to Roman Comedy** Cambridge University Press The Cambridge Companion to Roman Comedy provides a comprehensive critical introduction to Roman comedy and its reception through more than twenty accessible and up-to-date chapters by leading international scholars. This book defines the fundamentals of Roman comedy by examining its literary and comic technique as well as its stagecraft and music, and then traces the genre's influence through the centuries. Roman comedy has served as a model for writers as well as artists ranging from Shakespeare to Molière and from Martin Luther to Cole Porter. Just as the Middle Ages spawned Christianised versions of Terence's comedies, in which harlots find God rather than a husband and young men become martyrs rather than never-do-well lovers, the twentieth century has also given us its take on Roman comedy with Stephen Sondheim's *A Funny Thing Happened on the Way to the Forum* and numerous modern versions of Plautus' Amphitryon.
