Differentiation in the Elementary Grades

Strategies to Engage and Equip All Learners

ASCD In this comprehensive resource for elementary school teachers, Kristina J. Doubet and Jessica A. Hockett explore how to use differentiated instruction to help students be more successful learners--regardless of background, native language, learning preference, or motivation. They explain how to * Create a healthy classroom community in which students' unique qualities and needs are as important as the ones they have in common. * Translate curriculum into manageable and meaningful learning goals that are fit to be differentiated. * Use pre-assessment and formative assessment to uncover students' learning needs, tailor tasks accordingly, and ensure that students are "getting it." * Provide interactive learning experiences that encourage students to engage with both the content and one another. * Present students with avenues to take in, process, and produce knowledge that appeal to their varied interests and learning preferences. * Navigate potential roadblocks to differentiation. Each chapter provides a plethora of practical tools, templates, and strategies for a variety of subject areas developed by and for real teachers. Whether you're new to differentiated instruction or looking to expand your repertoire of DI strategies, Differentiation in the Elementary Grades will show you classroom-tested ways to better engage students and help them succeed every day. Building Communities of Engaged Readers

Reading for pleasure

Routledge Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

Report of the National Reading Panel : Teaching Children to Read : an Evidence-based Assessment of the Scientific Research Literature on Reading and Its Implications for Reading Instruction

Handbook of Research on Educational Communications and Technology

Springer Science & Business Media The 4th edition of the Handbook of Research on Educational Communications and Technology expands upon the previous 3 versions, providing a comprehensive update on research pertaining to new and emerging educational technologies. Chapters that are no longer pertinent have been eliminated in this edition, with most chapters being completely rewritten, expanded, and updated. Additionally, new chapters pertaining to research methodologies in educational technology have been added due to expressed reader interest. Each chapter now contains an extensive literature review, documenting and explaining the most recent, outstanding research, including major findings and methodologies employed. The Handbook authors continue to be international leaders in their respective fields; the list is cross disciplinary by design and great effort was taken to invite authors outside of the traditional instructional design and technology community.

Fewer, Clearer, Higher

How the Common Core State Standards Can Change Classroom Practice

Harvard Education Press In clear and concise language, veteran education writer Robert Rothman identifies nine instructional "shifts" encouraged by the new Common Core State Standards and provides examples of how teachers and school districts are overcoming challenges in implementation. He presents the research and rationale behind each change and provides examples of teachers making the shifts as well as sample test questions that could be used to gauge student progress in the future. Rothman also addresses major challenges that are emerging as districts and schools move to implement the standards and highlights the ways leading school districts are working to overcome them. Fewer, Clearer, Higher—the mantra adopted by the writers of the Common Core to emphasize the difference between existing state standards and the new ones needed to truly prepare all students for college or careers—is an indispensable guide for educators and anyone else seeking a better understanding of this major new development in education policy.
