PERSPECTIVES ON LANGUAGE ASSESSMENT LITERACY

CHALLENGES FOR IMPROVED STUDENT LEARNING

Routledge **Perspectives on Language Assessment Literacy** describes how the elements of language assessment literacy can help teachers gather information about when and how to assess learners, and about using the appropriate assessment tools to interpret results in a fair way. It provides highlights from past and current research, descriptions of assessment processes that enhance LAL, case studies from classrooms, and suggestions for professional dialogue and collaboration. This book will help to foster continuous learning, empower learners and teachers and make them more confident in their assessment tasks, and reassure decision makers that what is going on in assessment meets international benchmarks and standards. It addresses issues like concepts and challenges of assessment, the impacts of reflective feedback on assessment, the ontogenetic nature of assessment literacy, the reliability of classroom-based assessment, and interfaces between teaching and assessment. It fills this gap in the literature by addressing the current status and future challenges of language assessment literacy. This book will be of great interest for academics, researchers, and post-graduate students in the fields of language assessment literacy and English language teaching.

HANDBOOK OF RESEARCH ON SOCIAL JUSTICE AND EQUITY IN EDUCATION

IGI Global There is growing pressure on teachers and other educators to understand and adopt the best ways to work with the various races, cultures, and languages that diverse learners represent in the ever-increasing culturally-diverse learning environments. Establishing sound cross-cultural pedagogy is also critical given that racial, cultural, and linguistic integration has the potential to increase academic success for all learners. To that end, there is also a need for educators to prepare graduates who will better meet the needs of culturally diverse learners as well as support their students to become successful global citizens. The **Handbook of Research on Social Justice and Equity in Education** highlights cross-cultural perspectives, challenges, and opportunities pertaining to promoting cultural competence, equity, and social justice in education. It also explores multiple concepts of building a bridge from a monocultural pedagogical framework to cross-cultural knowledge. Covering topics such as diversity education and global citizenship, this major reference work is ideal for academicians, researchers, practitioners, policymakers, instructors, and students.

TESOL GUIDE FOR CRITICAL PRAXIS IN TEACHING, INQUIRY, AND ADVOCACY

IGI Global The field of TESOL encompasses English teachers who teach English as an additional language in English-dominant countries and those teachers who teach English as a foreign language in countries where a language other than English is the official language. This range of educators teaches English to children, adolescents, and adults in primary, secondary, post-secondary, popular education, and language academies or tutoring centers. The diversity of learners and contexts within the TESOL field presents a unique opportunity for educators to address varied educational and societal needs. This opportunity calls for TESOL educators who can support the whole learner in a range of contexts for the greater social good. There is an urgent need for readily reproducible and step-by-step research-based practices and current standards in TESOL that bridge the gap between critical scholarship and equitable teaching practices. This book would serve as a critical addition to current literature in TESOL. **TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy** is an essential reference that provides practical and equitable step-by-step guides for TESOL educators through the current best practices and methods for effective and equity-minded teaching, critical inquiry, and transformative advocacy. This book is of particular value as it bridges theories to practices with a critical look at racial and social justice in English language teaching, which will lead to the integration of social justice-focused practice across the new curriculum. Covering topics such as integrated language instruction, equity and inclusivity, critical consciousness, and online learning, this text is essential for in-service and pre-service TESOL educators, education students, researchers, administrators, teacher educators, and academicians.

CREATING THE SCHOOLS OUR CHILDREN NEED

WHY WHAT WE ARE DOING NOW WON'T HELP MUCH (AND WHAT WE CAN DO INSTEAD)

Learning Sciences International Research shows school improvement initiatives are most effective when they come from the district level, rather than the state. While there is no one solution to school improvement that holds true in every classroom every time, there are two clearly identified aspects that improve the odds of school success: implementing a curriculum focused on developing knowledge, and supporting a culture where every teacher improves. In *Creating the Schools Our Children Need*, Dr. Dylan William outlines a framework for evaluating new district initiatives, and guides school boards, administrators, and district leaders through a breakdown of why what we're doing right now isn't working, and what we need to be doing instead.

ENGLISH AS A FOREIGN LANGUAGE FOR DEAF AND HARD-OF-HEARING PERSONS

CHALLENGES AND STRATEGIES

Cambridge Scholars Publishing Deaf and hard-of-hearing students form a specific group of foreign language learners. They need to use foreign languages just like their hearing peers if they want to enjoy the same benefits of globalization and technical advancements of today, yet they cannot take part in the same foreign language education. As sign language users, lip-readers or persons relying on hearing aids or cochlear implants in their everyday communication, they need special support in learning a foreign language. This book has been written by teachers and researchers involved in teaching English as a foreign language (EFL) to deaf and hard-of-hearing students in various different European countries, including the Czech Republic, France, Hungary, Norway, Poland, and Serbia. The chapters mirror both the authors' personal journeys through this field and give insight into various aspects of empirical research into the foreign language acquisition of hearing-impaired learners. They discuss mainly the issue of specific methodology for teaching EFL vocabulary, grammar, reading, writing and speaking to deaf and hard-of-hearing persons and the challenge of effective communication during the classes via sign language, cued speech or the oral approach. Special chapters are also devoted to EFL teachers' experience in special schools for the deaf. Educators interested in practical advice, responses to challenges and worked-out solutions to problems will particularly welcome this book as a useful source of ideas. It will also help novice teachers embarking on their careers in English language education for deaf and hard-of-hearing children and adults.
