Moral Calculations Game Theory, Logic, and Human Frailty Springer Science & Business Media *What does game theory tell us about rational behavior? Is there such a thing as rational behavior, and if so, is it of any use to us? In this fascinating book, renowned Hungarian economist Laszlo Mero shows how game theory provides insight into such aspects of human psychology as altruism, competition, and politics, as well as its relevance to disparate fields such as physics and evolutionary biology. This ideal guide shows us how mathematics can illuminate the human condition.*

Transnational Evidence and Multicultural Inquiries in Europe Developments in EU Legislation and New Challenges for Human Rights-Oriented Criminal Investigations in Cross-border Cases Springer Science & Business Media *This book deals with the gathering of evidence in cross-border investigations in Europe. The issue of obtaining evidence in and from European countries has been among the most debated issues of EU cross-border cooperation in criminal matters over the last two decades, going through periods of intensive discussions and showing an extraordinary adaptability to the evolution of EU legislation for criminal matters. On the other hand, the prosecution and investigations of cross-border cases pose unprecedented challenges in the European scenario, characterized by the increasing flow and activity of citizens over the territory of more than one country and therefore by the need to lay the foundations of a transcultural criminal justice system. The book analyses this complex topic starting with the current perspectives of EU legislation, thus providing a critical analysis of the legislative initiative aimed at introducing a new tool for gathering almost any type of evidence in other Member States, i.e., the European Investigation Order. On a second level, this study deals with the solution models and human rights challenges posed by the increasingly intensive dialogues between domestic and supranational case laws, and formulates essential guidelines for setting up a fair transnational enquiry system in Europe.*

Verification Handbook An Ultimate Guideline on Digital Age Sourcing for Emergency Coverage Invisible Cities Random House *'A subtle and beautiful meditation' Sunday Times In Invisible Cities Marco Polo conjures up cities of magical times for his host, the Chinese ruler Kublai Khan, but gradually it becomes clear that he is actually describing one city: Venice. As Gore Vidal wrote 'Of all tasks, describing the contents of a book is the most difficult and in the case of a marvellous invention like Invisible Cities, perfectly irrelevant.'*

Morality and the Regulation of Social Behavior Groups as Moral Anchors Psychology Press *Morality indicates what is the 'right' and what is the 'wrong' way to behave. It is one of the most popular areas of research in contemporary social psychology, driven in part by recent political-economic crises and the behavioral patterns they exposed. In the past, work on morality tended to highlight individual concerns and moral principles, but more recently researchers have started to address the group context of moral behavior. In Morality and the Regulation of Social Behavior: Groups as Moral Anchors, Naomi Ellemers builds on her extensive research experience to draw together a wide range of insights and findings on morality. She offers an essential integrative summary of the social functions of moral phenomena, examines how social groups contribute to moral values, and explains how groups act as 'moral anchors'. Her analysis suggests that intragroup dynamics and the desire to establish a distinct group identity are highly relevant to understanding the implications of morality for the regulation of individual behavior. Yet, this group-level context has not been systematically taken into account in research on morality, nor is it used as a matter of course to inform attempts to influence moral behavior. Building on social identity and self-categorization principles, this unique book explicitly considers social groups as an important source of moral values, and examines how this impacts on individual decision making as well as collective behaviors and relations between groups in society. Throughout the book, Ellemers presents results from her own research to elucidate how social behavior is affected by moral concerns. In doing this, she highlights how such insights advance our understanding of moral behavior and moral judgments for of people who live together in communities and work together in organizations. Morality and the Regulation of Social Behavior is essential reading for academics and students in social psychology and related disciplines, and is an invaluable resource for practitioners interested in understanding moral behavior.*

Racial Theories in Fascist Italy Routledge *Racial Theories in Fascist Italy examines the role played by race and racism in the development of Italian identity during the fascist period. The book examines the struggle between Mussolini, the fascist hierarchy, scientists and others in formulating a racial persona that would gain wide acceptance in Italy. National Belongings Hybridity in Italian Colonial and Postcolonial Cultures Peter Lang *The contributors address the gap in Italian colonial/postcolonial studies by examining how different notions of hybridity can help illuminate the specific nature & circumstances of the Italian colonial & postcolonial condition. Some of the contributors view hybridity as a direct challenge to fixed categorizations.*

Punishment and Social Structure Routledge *Why are certain methods of punishment adopted or rejected in a given social situation? To what extent is the development of penal methods determined by basic social relations? The answers to these questions*

are complex, and go well beyond the thesis that institutionalized punishment is simply for the protection of society. While today's punishment of offenders often incorporates aspects of psychology, psychiatry, and sociology, at one time there was a more pronounced difference in criminal punishment based on class and economics. *Punishment and Social Structure* originated from an article written by Georg Rusche in 1933 entitled "Labor Market and Penal Sanction: Thoughts on the Sociology of Criminal Justice." Originally published in Germany by the Frankfurt Institute of Social Research, this article became the germ of a theory of criminology that laid the groundwork for all subsequent research in this area. Rusche and Kirchheimer look at crime from an historical perspective, and correlate methods of punishment with both temporal cultural values and economic conditions. The authors classify the history of crime into three primary eras: the early Middle Ages, in which penance and fines were the predominant modes of punishment; the later Middle Ages, in which harsh corporal punishment and capital punishment moved to the forefront; and the seventeenth century, in which the prison system was more fully developed. They also discuss more recent forms of penal practice, most notably under the constraints of a fascist state. The majority of the book was translated from German into English, and then reshaped by Rusche's co-author, Otto Kirchheimer, with whom Rusche actually had little discussion. While the main body of *Punishment and Social Structure* are Rusche's ideas, Kirchheimer was responsible for bringing the book more up-to-date to include the Nazi and fascist era. *Punishment and Social Structure* is a pioneering work that sets a paradigm for the study of crime and punishment. **Manual on Hate Speech Council of Europe** The right to freedom of expression entails duties and responsibilities and is subject to certain limits, provided for in Article 10.2 of the European Convention on Human Rights, which are concerned, among other things, with protecting the rights of others. Identifying what constitutes "hate speech" is especially difficult because this type of speech does not necessarily involve the expression of hatred or feelings. On the basis of all the applicable texts on freedom of expression and the case law of the European Court of Human Rights and other bodies, the author identifies certain parameters that make it possible to distinguish expressions which, although sometimes insulting, are fully protected by the right to freedom of expression from those which do not enjoy that protection. **The Location of Culture Routledge** Rethinking questions of identity, social agency and national affiliation, Bhabha provides a working, if controversial, theory of cultural hybridity - one that goes far beyond previous attempts by others. In *The Location of Culture*, he uses concepts such as mimicry, interstice, hybridity, and liminality to argue that cultural production is always most productive where it is most ambivalent. Speaking in a voice that combines intellectual ease with the belief that theory itself can contribute to practical political change, Bhabha has become one of the leading post-colonial theorists of this era. **Asylum and International Law Springer Science & Business Media** **The Suffering of the Immigrant John Wiley & Sons** This book is a major contribution to our understanding of the condition of the immigrant and it will transform the reader's understanding of the issues surrounding immigration. Sayad's book will be widely used in courses on race, ethnicity, immigration and identity in sociology, anthropology, cultural studies, politics and geography. an outstanding and original work on the experience of immigration and the kind of suffering involved in living in a society and culture which is not one's own; describes how immigrants are compelled, out of respect for themselves and the group that allowed them to leave their country of origin, to play down the suffering of emigration; Abdelmalek Sayad, was an Algerian scholar and close associate of the French sociologist Pierre Bourdieu - after Sayad's death, Bourdieu undertook to assemble these writings for publication; this book will transform the reader's understanding of the issues surrounding immigration. **On Lying (De Mendacio) Createspace Independent Publishing Platform** This book appears from its place in the *Retractations* to have been written about A.D. 395, as it is the last work named in the first book, which contains those which he wrote before he was Bishop. Some editions represent it as addressed to Consentius, but not the manuscripts. The latter are probably right, as his other work on the subject was written in answer to the inquiries of Consentius on the case of the Priscillianists many years later. - Bened. Ed. From *Retractations*, Book I, last Chapter: I have also written a Book on Lying, which though it takes some pains to understand, contains much that is useful for the exercise of the mind, and more that is profitable to morals, in inculcating the love of speaking the truth. This also I was minded to remove from my works, because it seemed to me obscure, and intricate, and altogether troublesome; for which reason I had not sent it abroad. And when I had afterwards written another book, under this title, *Against Lying*, much more had I determined and ordered that the former should cease to exist; which however was not done. Therefore in this retractation of my works, as I have found this still in being, I have ordered that it should remain; chiefly because therein are to be found some necessary things which in the other are not. Why the other has for its title, *Against Lying*, but this, *Of Lying*, the reason is this, that throughout the one is an open assault upon lying, whereas great part of this is taken up with the discussion of the question for and against. Both, however, are directed to the same object. This book begins thus: "Magna quaestio est de Mendacio." **Being Political Genealogies of Citizenship U of Minnesota Press** *Being Political* presents a powerful critique of universalistic and orientalist interpretations of the origins of citizenship and a persuasive alternative history of the present struggles over citizenship. **World Report on Violence and Health** This report is part of WHO's response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials. **Transnational Inquiries and the Protection of Fundamental Rights in Criminal Proceedings A Study in Memory of Vittorio Grevi and Giovanni Tranchina Springer Science & Business Media** The protection of fundamental rights in the field of transnational criminal inquiries is of great delicateness in the current tangled web of domestic and international legal sources. Due to this complex scenario, this research has been carried out from a four-level perspective. The first part provides a critical analysis of the multilevel systems of protecting fundamental rights from the perspective of supranational and constitutional case law, and in the field of international and organized crime. The second part focuses on EU judicial cooperation in three main fields: financial and serious organized crime, mutual recognition tools, and individual rights protection. The third part provides the perspectives of ten domestic legal systems in two fields, i.e., obtaining evidence abroad and cooperation with international criminal tribunals. The fourth part analyses cross-border inquiries in comparative law, providing a reconstruction of different models of obtaining evidence overseas. **Building the New Man Eugenics, Racial Science and Genetics in Twentieth-Century Italy Central European University Press** Based on previously unexplored archival documentation, this book offers the first general overview of the history of Italian eugenics, not limited to the decades of Fascist regime, but instead ranging from the beginning of the 1900s to the first half of the 1970s. The Author discusses several fundamental themes of the comparative history of eugenics: the importance of the Latin eugenic model; the relationship between eugenics and fascism; the influence of Catholicism on the eugenic discourse and the complex links

between genetics and eugenics. It examines the Liberal pre-fascist period and the post-WW2 transition from fascist and racial eugenics to medical and human genetics. As far as fascist eugenics is concerned, the book provides a refreshing analysis, considering Italian eugenics as the most important case-study in order to define Latin eugenics as an alternative model to its Anglo-American, German and Scandinavian counterparts. Analyses in detail the nature-nurture debate during the State racist campaign in fascist Italy (1938-1943) as a boundary tool in the contraposition between the different institutional, political and ideological currents of fascist racism. **Between Desert and City: The Coptic Orthodox Church Today** **The Coptic Orthodox Church Today** **Wipf and Stock Publishers** Explores the history, theology, and culture of the Coptic Orthodoxy, discussing key figures in the renewal of the church, and examining the role of women within church and society. **Irregular Migration And Human Rights Theoretical, European And International Perspectives** **Martinus Nijhoff Publishers** This collection of essays is the outcome of an international conference on Irregular Migration and Human Rights, which gathered together prominent scholars, policy-makers and practitioners working in the migration and human rights field. The objective of the book, in contrast to the prevailing political approach which focuses almost solely on prevention, is to discuss the human rights dimensions of irregular migration from theoretical, European and international perspectives. **International Migration Law** **Oxford University Press** International Migration Law provides a detailed and comprehensive overview of the international legal framework applicable to the movement of persons across borders. The role of international law in this field is complex, and often ambiguous: there is no single source for the international law governing migration. The current framework is scattered throughout a wide array of rules belonging to numerous fields of international law, including refugee law, human rights law, humanitarian law, labour law, trade law, maritime law, criminal law, and consular law. This textbook therefore cuts through this complexity by clearly demonstrating what the current international law is, and assessing how it operates. The book offers a unique and comprehensive mapping of this growing field of international law. It brings together and critically analyses the disparate conventional, customary, and soft law on a broad variety of issues, such as irregular migration, human trafficking, refugee protection, labour migration, non-discrimination, regional free movement schemes, and global migration governance. It also offers a particular focus on important groups of migrants, namely migrant workers, refugees, and smuggled migrants. It maps the current status of the law governing their movement, providing a thorough critical analysis of the various stands of international law which apply to them, suggesting how the law may continue to develop in the future. This book provides the perfect introduction to all aspects of migration and international law. **In the Hold A Soap Opera** **Harvill Press** **Running Through Beijing** Chinese literature published in the United States has tended to focus on politics -- think the Cultural Revolution and dissidents -- but there's a whole other world of writing out there. It's punk, dealing with the harsh realities lived by the millions of city-dwellers struggling to get by in the grey economy. Dunhuahg, recently out of prison for selling fake IDs, has just enough money for a couple of meals. He also has no place to stay and no prospects for earning more yuan. When he happens to meet a pretty woman selling pirated DVDs, he falls into both an unexpected romance and a new business venture. But when her on-and-off boyfriend steps back into the picture, Dunhuahg is forced to make some tough decisions. *Running Through Beijing* explores an underworld of constant thievery, hardcore porn, cops (both real and impostors), prison bribery, rampant drinking, and the smothering, bone-dry dust storms that blanket one of the world's largest cities. Like a literary *Run Lola Run*, it follows a hustling hero rushing at breakneck speed to stay just one step ahead. Full of well-drawn, authentic characters, *Running Through Beijing* is a masterful performance from a fresh Chinese voice. **A Tour Through Sicily and Malta** **Sagwan Press** This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. It is also a practice that has generated international dispute and continues to be at the center of debates over women's rights, the limits of cultural pluralism, the balance of power between local cultures, international human rights, and feminist activism. In our increasingly globalized world, these practices have also begun immigrating to other nations, where transnational complexities vex debates about how to resolve the issue. Bringing together thirteen essays, *Transcultural Bodies* provides an ethnographically rich exploration of FGC among African diasporas in the United Kingdom, Europe, and Australia. Contributors analyze changes in ideologies of gender and sexuality in immigrant communities, the frequent marginalization of African women's voices in debates over FGC, and controversies over legislation restricting the practice in immigrant populations. **The Prosecutor in Transnational Perspective** **Oxford University Press** In this book, Erik Luna and Marianne Wade examine the considerable powers of the American prosecutor and look abroad in order to learn valuable lessons from a transnational examination of prosecutorial authority. They explore parallels and distinctions in the processes available to and decisions made by prosecutors in the United States and Europe. Through the varied topics covered by the contributors on both sides of the Atlantic, they demonstrate how the enhanced role of the prosecutor represents a crossroads for criminal justice with weighty legal and socio-economic consequences. **The Return of Don Quixote** **Umbertina A Novel** **Feminist Press at CUNY** A quintessential immigrant narrative, now acknowledged as a contemporary classic of Italian-American women's literature. **Women Migrants From East to West Gender, Mobility and Belonging in Contemporary Europe** **Berghahn Books** Based on the oral histories of eighty migrant women and thirty additional interviews with 'native' women in the 'receiving' countries, this volume documents the contemporary phenomenon of the feminisation of migration through an exploration of the lives of women, who have moved from Bulgaria and Hungary to Italy and the Netherlands. It assumes migrants to be active

subjects, creating possibilities and taking decisions in their own lives, as well as being subject to legal and political regulation, and the book analyses the new forms of subjectivity that come about through mobility. Part I is a largely conceptual exploration of subjectivity, mobility and gender in Europe. The chapters in Part II focus on love, work, home, communication, and food, themes which emerged from the migrant women's accounts. In Part III, based on the interviews with 'native' women – employers, friends, or in associations relevant to migrant women – the chapters analyse their representations of migrants, and the book goes on to explore forms of intersubjectivity between European women of different cultural origins. A major contribution of this book is to consider how the movement of people across Europe is changing the cultural and social landscape with implications for how we think about what Europe means. Three sets of issues are being discussed. This book intends to turn the whole notion of mobility as a supposedly rupturing phenomenon on its head, emphasizing that rather through travelling connections are established and continuity is experienced. We are challenged to delve into the traveller's mind, to think and follow their multi-spatial livelihoods and to explore what it means to people if they move in a variety of spaces. **The Clothing of Books Bloomsbury Publishing** How do you clothe a book? In this deeply personal reflection, Pulitzer Prize-winning author Jhumpa Lahiri explores the art of the book jacket from the perspectives of both reader and writer. Probing the complex relationships between text and image, author and designer, and art and commerce, Lahiri delves into the role of the uniform; explains what book jackets and design have come to mean to her; and how, sometimes, "the covers become a part of me." **European Evidence Warrant Transnational Judicial Inquiries in the EU Intersentia nv** The transnational gathering and use of criminal evidence is a complex and sensitive matter that affects basic principles inherent in national criminal justice systems. Replacing the mutual assistance regime (letters rogatory) by a mutual recognition regime intends to facilitate the admissibility of evidence obtained from the territory of another Member State. How much harmonization of criminal procedure is needed to guarantee the free movement of criminal evidence in the EU? Do we have to develop common procedural safeguards in the EU, or can we build in human rights clauses or procedural public order clauses by which respect for fundamental rights can be a ground for the non-recognition, non-execution or postponement of the order from the issuing state? John Vervaele is Professor in Economic and Financial Criminal Law at the University of Utrecht and Professor in European Criminal Law at the College of Europe of Bruges. The main topics in his research field are: enforcement of Union law; standards of due law, procedural safeguards and human rights; criminal law and procedure an regional integration; comparative economic and financial criminal law. He has realized a lot of research in these areas, both for Dutch Departments and European Institutions and also worked as a consultant for them. **Thinking Antagonism Political Ontology after Laclau Edinburgh University Press** A systematic treatment of Hume's conception of imagination in all the main topics of his philosophy. **Logo Mondo The Road to Fez A Novel Counterpoint LLC** When Brit Lek, a young American woman born to Sephardic-Jewish parents, returns to Morocco and falls in love with her mother's much younger brother, her Uncle Gaby, her family tries to steer her away from him, but she and Gaby surrender to their forbidden love while on the road to Fez. **The Jewish Gauchos of the Pampas** "Reprint, with minor changes, of the 1955 translation of Gerchunoff's 1910 classic volume about Jewish immigrants in rural Argentina. This publication details the broad range of issues discussed during the seminar including: the use of pre-departure health assessments; the need to address the mental health of migrants; healthcare access for irregular migrants; and the migration of healthcare workers. It also sets out the main challenges and areas for policy reform, such as the need for programme support, local capacity building, information-sharing and communication of best practices.
