Accounting

Text and Cases

Irwin/McGraw-Hill **Accounting: Text & Cases**, by Anthony, Hawkins, and Merchant covers both financial and managerial accounting as well as broader managerial issues. Chapters 1-14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that make up most of the end of chapter material are a combination of classic Harvard style cases and extended problems, with 10 completely new cases added to the 13th edition. **Accounting: Text and Cases** is a product of lifelong dedication to the discipline of accounting, and users of the book benefit from a breadth of experience that is sure to enrich your course and your students.

Economic Development Finance

SAGE Publications **Economic Development Finance** is a comprehensive and in-depth presentation of private, public, and community financial institutions, policies and methods for financing local and regional economic development projects. The treatment of policies and program models emphasizes their applications and impact, key design and management issues, and best practices. A separate section addresses critical management issues for development finance programs: program and product design, the lending and investment process, and capital management. Case studies are included throughout the book to help readers develop their skills and apply policies and tools to real practice issues. A glossary of finance terms is also included.

Harvard Business Review Press

The Effect of Supply Chain Management on Business Performance

Business Expert Press **Supply chain management (SCM)** is the process of managing the operations of a system of organizations, people, activities, information, and resources involved in efficiently moving products or services from suppliers to customers. SCM can effectively conduct the movements of physical items, knowledge, and information from the original supplier to the final end-user. In this book, we explore the systemic analysis of SCM and its effect on business development performance. We identify the structural problems in the supply chain, clarify how they influence the functioning of business development, and suggest elaboration of strategic approaches to address those problems. The author includes professional perspectives and insights from experts including various SCM sources.

When Scotland Was Jewish

DNA Evidence, Archeology, Analysis of Migrations, and Public and Family Records Show Twelfth Century Semitic Roots

McFarland The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Beyond Legal Reasoning: a Critique of Pure Lawyering

Routledge The concept of learning to 'think like a lawyer' is one of the cornerstones of legal education in the United States and beyond. In this book, Jeffrey Lipshaw provides a critique of the traditional views of 'thinking like a lawyer' or 'pure lawyering' aimed at lawyers, law professors, and students who want to understand lawyering beyond the traditional warrior metaphor. Drawing on his extensive experience at the intersection of real world law and business issues, Professor Lipshaw presents a sophisticated philosophical argument that the "pure lawyering" of traditional legal education is agnostic to either truth or moral value of outcomes. He demonstrates pure lawyering's potential both for illusions of certainty and cynical instrumentalism, and the consequences of both when lawyers are called on as dealmakers, policymakers, and counsellors. This book offers an avenue for getting beyond (or unlearning) merely how to think like a lawyer. It combines legal theory, philosophy of knowledge, and doctrine with an appreciation of real-life judgment calls that multi-disciplinary lawyers are called upon to make. The book will be of great interest to scholars of legal education, legal language and reasoning as well as professors who teach both doctrine and thinking and writing skills in the first year law school curriculum; and for anyone who is interested in seeking a perspective on 'thinking like a lawyer' beyond the litigation arena.

Penal Populism

Routledge Expertly drawing on international examples and existing literature, Penal Populism closes a gap in the field of criminology. In this fascinating expose of current crime policy John Pratt examines the role played by penal populism on trends in contemporary penal policy. Penal populism is associated with the public's decline of deference to the criminal justice establishment amidst alarm that crime is out of control. Pratt argues that new media technology is helping to spread national insecurities and politicians are not only encouraging such sentiments but are also being led on by them. Pratt explains it is having most influence in the development of policy on sex offenders, youth crime, persistent criminals and anti-social behaviour. This topical resource also covers new dimensions of the phenomenon, including: the changing nature and structure of the mass media less reliance on the more orthodox expertise of civil servants and academics limitations to the impact of populism, bureaucratic resistance from judges, lawyers and academics and the restorative justice movement. This is essential reading for students, researchers and professionals working in criminology and crime policy.

Slavery and the British Country House

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

The Popes, the Catholic Church and the Transatlantic Enslavement of Black Africans 1418-1839

Georg Olms Verlag Mehr als 400 Jahre lang erlitten schwarzafrikanische Männer, Frauen und Kinder während des transatlantischen Sklavenhandels schlimmste Formen der Versklavung und Erniedrigung durch Katholiken und das westliche Christentum. Damals wie heute glaubte niemand an die tiefe Verwicklung der Kirche und des Papsttums in den schwarzafrikanischen Holocaust. Trotz jüngster Behauptungen des päpstlichen Officiums in Rom, wonach die Päpste jegliche Form von Sklaverei verurteilten, so auch im Falle der Versklavung von Schwarzafrikanern, verweisen neuere Studien innerhalb dieses Forschungsfeldes auf das Gegenteil. Die Kirche und die Päpste nahmen vielmehr zentrale Rollen in diesem schlimmsten Verbrechen gegen die Schwarzafrikaner seit Beginn der schriftlichen Dokumentation ein. Mithilfe zahlreicher päpstlicher Bullen aus den Geheimarchiven des Vatikans und einer Vielzahl an königlichen Dokumenten aus dem portugiesischen Nationalarchiv in Lissabon, strebt der vorliegende Band eine kritische und analytische Untersuchung dieses Aspekts des transatlantischen Sklavenhandels an, der über so viele Jahre von den westlichen Historikern und Gelehrten verschleiert wurde. For over 400 years, Black African men, women and children suffered the worst type of enslavement and humiliation from the hands of Catholics and other Western Christians during the transatlantic slave trade. Before now, no one could ever believe that the Popes of the Church were deeply involved in this Holocaust against Black African people. Despite the claims made by the hallowed papal office in Rome in recent years that the Popes condemned the enslavement of peoples wherever it existed including that of Black Africans, recent researches in these fields of study have proved the contrary to be true. The Church and her Popes were rather among the major "role players" in this worst crime against Black Africans in recorded history. With the help of a considerable number of papal Bulls from the Vatican Secret Archives and a great amount of Royal documents from the Portuguese National Archives in Lisbon, the present book is aiming to undertake a critical and analytical inquiry of this aspect of the transatlantic slavery that has been kept in the dark for so many years by the Western historians and scholars. The results of this studious but fruitful academic inquiry are laid bare in this notable work of the 21st century. Pius Onyemechi Adiele is a Catholic priest of Ahiara Diocese Mbaise and an alumnus of Seat of Wisdom Seminary Owerri and Bigard Memorial Seminary Enugu in Nigeria. He obtained his licentiate in Theology from the famous University of Münster and his doctoral degree in Church History from the renowned University of Tübingen in Germany. At present, he is a research fellow in the areas of African Church History and Enslavement of peoples as well as the pastor in charge of the merged parishes of Lauchheim, Westhausen, Lippach, Röttingen and Hülen in Germany.

Folk Devils and Moral Panics

The Creation of the Mods and Rockers

Taylor & Francis US 'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, Folk Devils and Moral Panics is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

Creativity in the Classroom

Schools of Curious Delight

Taylor & Francis The fourth edition of this well-known text continues the mission of its predecessors "to help teachers link creativity research and theory to the everyday activities of classroom teaching. Part I (chs 1-5) includes information on models and theories of creativity, characteristics of creative people, and talent development. Part II (chapters 6-10) includes strategies explicitly designed to teach creative thinking, to weave creative thinking into content area instruction, and to organize basic classroom activities (grouping, lesson planning, assessment, motivation and classroom organization) in ways that support students' creativity. Changes in this Edition: Improved Organization -- This edition has been reorganized from 8 to 10 chapters allowing the presentation of theoretical material in clearer, more manageable chunks. New Material " In addition to general updating, there are more examples involving middle and secondary school teaching, more examples linking creativity to technology, new information on the misdiagnosis of creative students as ADHD, and more material on cross-cultural concepts of creativity, collaborative creativity, and linking creativity to state standards. Pedagogy & Design " Chapter-opening vignettes, within-chapter reflection questions and activities, sample lesson ideas from real teachers, and end-of-chapter journaling activities help readers adapt content to their own teaching situations. Also, a larger trim makes the layout more open and appealing and a single end-of-book reference section makes referencing easier. Targeted specifically to educators (but useful to others), this book is suitable for any course that deals wholly or partly with creativity in teaching, teaching the gifted and talented, or teaching thinking and problem solving. Such courses are variously found in departments of special education, early childhood education, curriculum and instruction, or educational psychology.

Digital Literacies

Concepts, Policies and Practices

Peter Lang This book brings together a group of internationally-reputed authors in the field of digital literacy. Their essays explore a diverse range of the concepts, policies and practices of digital literacy, and discuss how digital literacy is related to similar ideas: information literacy, computer literacy, media literacy, functional literacy and digital competence. It is argued that in light of this diversity and complexity, it is useful to think of digital literacies - the plural as well the singular. The first part of the book presents a rich mix of conceptual and policy perspectives; in the second part contributors explore social practices of digital remixing, blogging, online trading and social networking, and consider some legal issues associated with digital media.

How Europe Underdeveloped Africa

Verso Books The classic work of political, economic, and historical analysis, powerfully introduced by Angela Davis In his short life, the Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution, leading movements in North America, South America, the African continent, and the Caribbean. In each locale, Rodney found himself a lightning rod for working class Black Power. His deportation catalyzed 20th century Jamaica's most significant rebellion, the 1968 Rodney riots, and his scholarship trained a generation how to think politics at an international scale. In 1980, shortly after founding of the Working People's Alliance in Guyana, the 38-year-old Rodney would be assassinated. In his magnum opus, How Europe Underdeveloped Africa, Rodney incisively argues that grasping "the great divergence" between the west and the

rest can only be explained as the exploitation of the latter by the former. This meticulously researched analysis of the abiding repercussions of European colonialism on the continent of Africa has not only informed decades of scholarship and activism, it remains an indispensable study for grasping global inequality today.

Nationalism and Ethnosymbolism

History, Culture and Ethnicity in the Formation of Nations

Edinburgh University Press Ethnosymbolism offers a distinct and innovative approach to the study of nations and nationalism. It focuses on the role of ethnic myths, historical memories, symbols and traditions in the creation and maintenance of the collective identity of modern nations. This book explores the different aspects of the ethnosymbolic approach to the study of ethnicity, nationality and nationalism. Nationalism and Ethnosymbolism first introduces the main theoretical considerations that have arisen in nationalism studies in the past two decades. It then presents a collection of case studies covering music and poetry, ethnosymbolism in antiquity, and a wide variety of nations and regions. Areas discussed include Eastern Europe and Russia, the Middle East, the Far East and India, Africa, and the Americas. Overall the book offers a defence of the methodology of ethnosymbolism and a demonstration of its explanatory power.

Business to Business Marketing Management

A Global Perspective

Routledge Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships - except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

Digital Dividends

World Bank Publications Digital technologies are spreading rapidly, but digital dividends--the broader benefits of faster growth, more jobs, and better services--are not. If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone, why can't others around the world do the same? If 8 million entrepreneurs in China--one third of them

women--can use an e-commerce platform to export goods to 120 countries, why can't entrepreneurs elsewhere achieve the same global reach? And if India can provide unique digital identification to 1 billion people in five years, and thereby reduce corruption by billions of dollars, why can't other countries replicate its success? Indeed, what's holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver? Two main reasons. First, nearly 60 percent of the world's population are still offline and can't participate in the digital economy in any meaningful way. Second, and more important, the benefits of digital technologies can be offset by growing risks. Startups can disrupt incumbents, but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms. Employment opportunities may be greater, but not when the labor market is polarized. The internet can be a platform for universal empowerment, but not when it becomes a tool for state control and elite capture. The World Development Report 2016 shows that while the digital revolution has forged ahead, its 'analog complements'--the regulations that promote entry and competition, the skills that enable workers to access and then leverage the new economy, and the institutions that are accountable to citizens--have not kept pace. And when these analog complements to digital investments are absent, the development impact can be disappointing. What, then, should countries do? They should formulate digital development strategies that are much broader than current information and communication technology (ICT) strategies. They should create a policy and institutional environment for technology that fosters the greatest benefits. In short, they need to build a strong analog foundation to deliver digital dividends to everyone, everywhere.

The Effects of Noise on Aquatic Life II

Springer The meeting of Aquatic Noise 2013 will introduce participants to the most recent research data, regulatory issues and thinking about effects of man-made noise and will foster critical cross-disciplinary discussion between the participants. Emphasis will be on the cross-fertilization of ideas and findings across species and noise sources. As with its predecessor, The Effects of Noise on Aquatic Life: 3rd International Conference will encourage discussion of the impact of underwater sound, its regulation and mitigation of its effects. With over 100 contributions from leading researchers, a wide range of sources of underwater sound will be considered.

The New Public Diplomacy

Soft Power in International Relations

Springer After 9/11, which triggered a global debate on public diplomacy, 'PD' has become an issue in most countries. This book joins the debate. Experts from different countries and from a variety of fields analyze the theory and practice of public diplomacy. They also evaluate how public diplomacy can be successfully used to support foreign policy.

Liverpool and the Slave Trade

During the course of more than four centuries, merchants in Liverpool were responsible for forcibly transporting over a million and a half Africans across the Atlantic to work as enslaved labourers on the plantations of the Caribbean as their ships carried a larger number of Africans than those of any other European port. White colonial owners used the enslaved Africans to produce sugar and other valuable tropical goods which were consumed at home in Britain. Liverpool and the slave trade is the first comprehensive account of the city's participation in the trade. It tells the story of the merchants and ships' captains who organised the trade and shows how they bought and sold Africans, how they treated the enslaved during the Atlantic voyage and how they and the wider community benefitted from the slave trade. It concludes with the efforts to end the trade and the legacy it has left in Liverpool and beyond. Drawing on the most recent research as well as extensive use of contemporary documents and personal testimonies and experiences to explore this history, Liverpool and the slave trade highlights an important part of the city's history which has for too long been rejected, forgotten or ignored.
