MASTER TECHNIQUES IN BLEPHAROPLASTY AND PERIORBITAL REJUVENATION

Springer Science & Business Media Master Techniques in Blepharoplasty and Eyelid Reconstruction is a comprehensive, multi-specialty textbook and surgical atlas on blepharoplasty and eyelid reconstruction, presenting multiple competing and complementary techniques by the leading experts in the field of plastic surgery, facial plastic surgery, and oculoplastic surgery. Only the most pioneering and time-tested surgical procedures are presented in step-by-step, illustrative detail. All areas of eyelid surgery are covered in a balanced and systematic approach. An accompanying on-line surgical atlas shows digitally videotaped procedures by the leading authors, extremely useful to any surgeon interested in blepharoplasty. Master Techniques in Blepharoplasty and Eyelid Reconstruction is the definitive textbook and atlas for any surgeon who interested in this topic.

MASTER TECHNIQUES IN BLEPHAROPLASTY AND PERIORBITAL REJUVENATION

MASTER TECHNIQUES IN FACIAL REJUVENATION E-BOOK

Elsevier Health Sciences Comprehensive coverage, multidisciplinary guidance, and step-by-step instruction help you choose the best approach and get the best results for any facial rejuvenation challenge. Master Techniques in Facial Rejuvenation, 2nd Edition, by Drs. Babak Azizzadeh, Mark Murphy, Calvin Johnson, Guy Massry, and Rebecca Fitzgerald, presents multiple facial rejuvenation techniques by experts in the fields of plastic surgery, facial plastic surgery, otolaryngology, oculoplastic surgery and dermatology. Competing and complementary techniques focus on all

areas of the face, providing a balanced and systematic approach to this fast-growing field. Presents step-by-step, full-color depictions of the authors' surgical techniques, with emphasis on minimally invasive surgery, recent trends, and adjunctive procedures. Addresses facial shape and proportions with injectable agents in youth and age. Provides multiple viewpoints on advanced and time-tested techniques. Features expanded coverage of non-invasive procedures such as Botulinum toxin and fillers, neuromodulators, tightening devices, and panfacial nonsurgical rejuvenation, plus newly updated information on face lifts. Includes all-new chapters on non-surgical brow and eyelid rejuvenation, ptosis repair and blepharoplasty, deep plane rhytidectomy modifications, and orthognathic aesthetic facial surgery.

MIDFACE AND PERIOCCULAR REJUVENATION, AN ISSUE OF FACIAL PLASTIC SURGERY CLINICS OF NORTH AMERICA, E-BOOK

Elsevier Health Sciences For "Aging Face" procedure, rejuvenation of the midface and periocular region is important and in this issue, Editor Anthony Sclafani leads a talented and expert author team who span facial plastic surgery, oculoplasty, and plastic surgery. This publication presents topics such as: Brow and Upper Lid Anatomy, Aging and Aesthetic Analysis; Midface Anatomy, Aging and Aesthetic Analysis; Minimally Invasive Options for the Brow and Upper Lid; Surgical Adjuncts to Upper Lid Blepharoplasty; Surgical Treatment of the Brow and Upper Lid; Midfacial Skeletal Enhancement; Management of the Midface during Rhytidectomy; Endoscopic Midfacial Rejuvenation; Transpalpebral Midface Lifting; Midfacial Sculpting with Autologous Fat; Midfacial Volumization with Injectable Fillers; Role of Neurotoxins in the Periorbital and Midfacial Areas; Avoiding and Managing Complications in the Periorbital Area and Midface.

SATALOFF'S COMPREHENSIVE TEXTBOOK OF OTOLARYNGOLOGY: HEAD & NECK SURGERY

FACIAL PLASTIC AND RECONSTRUCTIVE SURGERY

JP Medical Ltd Sataloff's Comprehensive Textbook of Otolaryngology: Head & Neck Surgery - Facial Plastic and Reconstructive Surgery is part of a multi-volume textbook covering basic and clinical science across the entire field of otolaryngology. Volumes in the set include; otology, neurotology and skull-based surgery; rhinology, allergy and immunology; laryngology; head and neck surgery; and paediatric otolaryngology. The full set is enhanced by over 5000 full colour images and illustrations, spanning nearly 6000 pages, complete with a comprehensive index on DVD. Edited by Robert T Sataloff from Drexel University College of Medicine, Philadelphia, this volume includes contributions from internationally recognised experts in otolaryngology, ensuring authoritative content throughout. Sataloff's Comprehensive Textbook of Otolaryngology: Head & Neck Surgery - Facial Plastic and Reconstructive Surgery is an indispensable, in-depth guide to the field for all otolaryngology practitioners. Key Points Textbook of facial plastic and reconstructive surgery, part of six-volume set covering the entire field of otolaryngology Volumes include otology/neurotology, rhinology, laryngology, head and neck surgery, and

paediatric otolaryngology Over 5000 full colour images and illustrations across six volumes Edited by Robert T Sataloff, with contributions from internationally recognised otolaryngology experts

REVISION FACIAL PLASTIC SURGERY: CORRECTING BAD RESULTS, AN ISSUE OF FACIAL PLASTIC SURGERY CLINICS OF NORTH AMERICA

Elsevier Health Sciences This issue of Facial Plastic Surgery Clinics, guest edited by Drs. Paul S. Nassif and Julia L. Kerolus, is devoted to Revision Facial Plastic Surgery: Correcting Bad Results. Articles in this outstanding issue include: Correction of Ectropion and Lower Eyelid Retraction Following Blepharoplasty; Complications Associated with Fat Grafting to the Lower Eyelid; Approach to Correction of Septal Perforation; Correction of the Over-reduced Nose; Management of Post-Surgical Empty Nose Syndrome; Correction of Nasal Pinching; Approach to Alar Notching; Treatment Protocol for Compromised Nasal Skin; Management of Surgical Scars; Common Complications in Rhytidectomy; Neck Deformities in Plastic Surgery; Filler Associated Vision Loss; Management of Lip Complications; Tips to Avoid Complications Following Mohs Reconstruction; and Miscellaneous Botched Nasal Procedures.

FUNCTIONAL AND COSMETIC EYELID SURGERY, AN ISSUE OF FACIAL PLASTIC SURGERY CLINICS, E-BOOK

Elsevier Health Sciences This issue of Facial Plastic Surgery Clinics, edited by Dr. Gregory Branham, is devoted to Functional and Cosmetic Eyelid Surgery. Articles in this issue include: Surgical Anatomy of the Eyelid; Assessment of Eyelid Function and Esthetics; Periorbital Surgery: Forehead, Brow and Midface; Upper Lid Blepharoplasty; Lower Lid Blepharoplasty; Injectable Adjunctive Procedures for Cosmesis and Function; Peels, Lasers, and Topical Treatments for Periorbital Rejuvenation; Correction of Lid Crease Asymmetries and Ptosis; Lower Lid Malposition: Causes and Corrections; Upper Eyelid Reconstruction; Lower Eyelid Reconstruction; and Complications of Eyelid Surgery.

PERIORBITAL REJUVENATION

A PRACTICAL MANUAL

Springer Nature This title represents a comprehensive manual of periorbital rejuvenation and includes an in-depth review of the anatomy of the orbit and periorbital region. Physiological changes associated with the aging of the periorbital region and potential rejuvenation options are also covered, while readers are given a series of step-by-step illustrative guides to procedural techniques. The book provides a valuable selection of clinical pearls on how to avoid potential pitfalls using a number of cases in which a range of potential invasive and non-invasive treatment options, including neuromodulators and cosmeceuticals, are used. Periorbital Rejuvenation: A Practical Manual provides a comprehensive and concise overview of periorbital anatomy and the potential effects of aging. Cutting-edge laser treatment options including laser assisted and neuromodulator techniques are ideal for the

trainee to develop their knowledge and as a reference guide for the experienced practitioner.

PEARLS AND PITFALLS IN COSMETIC OCULOPLASTIC SURGERY

Springer Pearls and Pitfalls in Oculoplastic Cosmetic Surgery, Second Edition addresses the need among physicians for cleanly distilled and clinically relevant information. The second edition of this popular text highlights the changes and updates to the ever expanding field of facial cosmetic surgery. There are updates to cases such as advances in blepharoplasty techniques, advances in fillers and filler techniques, advances in periorbital fat grafting, advances in brow lifting techniques, and advances in midface rejuvenation. Additionally, nearly every case has full color illustrations to bring each one to life and there are additional surgical video procedures available on Springer Images to enhance the reader's understanding of various topics. This concise and practical "how to" book is written and edited by experts in their fields and offers "here's how I do it" advice on the most commonly performed procedures. Each chapter becomes the voice of an expert and experienced colleague, reminding readers of the pearls and pitfalls of each procedure. These pearls will lead to quicker cases, fewer complications, and more satisfactory outcomes for physicians and their patients.

OCULOPLASTIC SURGERY, AN ISSUE OF FACIAL PLASTIC SURGERY CLINICS OF NORTH AMERICA

Elsevier Health Sciences This issue of Facial Plastic Surgery Clinics, guest edited by Drs. John B. Holds and Guy Massry, is dedicated to Oculoplastic Surgery. This series is one of four selected each year by the series consulting editor, Dr. J. Reagan Thomas. Topics will include—but are not limited to—Brow lift: open approaches, Brow lift: endoscopic approach, Upper blepharoplasty, Blepharoptosis repair: external aponeurotic repair, Blepharoptosis repair: internal approach, Lower blepharoplasty: external approach, Canthoplasty techniques, Lower blepharoplasty: transconjunctival approach, Treatment of lower eyelid festoons, Dermal fillers as an alternative to lower blepharoplasty surgery, Misuse and complications of periocular dermal fillers, Autogenous fat transfer in revision periocular surgery, Surgical treatment of post-blepharoplasty lower eyelid retraction, and the prominent eye: what to watch-out for.

FAT GRAFTING FOR AESTHETIC FACIAL SURGERY, AN ISSUE OF ATLAS OF THE ORAL & MAXILLOFACIAL SURGERY CLINICS

Elsevier Health Sciences This issue of the Atlas of the Oral and Maxillofacial Surgery Clinics of North America focuses on Fat Grafting for Aesthetic Facial Surgery, and is edited by Drs. Shahrokh C. Bagheri, Husain Ali Khan, and Behnam Bohluli. Articles will include: Current techniques in fat grafting; Fat grafting in different facial aesthetic units; Fat grafts with stem cells; Fat grafts with growth factors; Fat grafts for facial augmentation; Fat grafts as an adjunct to other facial aesthetic surgeries; Fat grafts in maxillofacial reconstruction; Fat grafts in orthognathic surgery; Fat grafts for periorbital rejuvenation; Complications of fat grafting; Fat grafting:

Challenges and debates; The past, present, and future of facial fat grafting; and more!

FACELIFT SURGICAL TECHNIQUES , AN ISSUE OF FACIAL PLASTIC SURGERY CLINICS OF NORTH AMERICA

Elsevier Health Sciences This issue of *Facial Plastic Surgery Clinics*, guest edited by Dr. Andrew A. Jacono, is devoted to *Facelift Surgical Techniques*. This issue is one of four selected each year by the series Consulting Editor, Dr. J. Regan Thomas. Articles in this issue include: *Extended Deep Plane Facelifting, Extended SMAS Flap Rhytidectomy, Vertical Platysma Advancement Deep Plane Facelifting, Incorporating Midline Platysmaplasty with Lateral SMAS Facelifting, Subunit, Approach to Facelifting and Facial Rejuvenation, Superficial and Deep Facial Anatomy and Its Implication for Rhytidectomy Surgery, Laser Assisted Facelifting and Energy-Based Rejuvenation Techniques During Rhytidectomy, Incorporating Fat Grafting with Facelift Surgery, Approaches to Reducing Risk in, Rhytidectomy Surgery, Nuances in SMAS Rhytidectomy, Less Invasive SMAS Approaches in Rhytidectomy, and Local Anesthesia Facelifting.*

NONSURGICAL PERI-ORBITAL REJUVENATION

Springer Science & Business Media This book offers surgeons the most up-to-date information related to non-surgical techniques specific to periorbital rejuvenation. This easy-to-use reference guide is for ophthalmologists, oculoplastic surgeons, dermatologists, plastic surgeons, maxillofacial and plastic surgery residents, as well as ENT facial plastic fellows. Complete with videos of specific techniques to better inform surgeons about these evolving procedures, *Nonsurgical Peri-orbital Rejuvenation* teaches the reader how to measure predictable outcomes when deciding to approach the periorbital area. Topics covered include neurotoxins, peels, lasers, fillers, and skinceuticals.

STATE OF THE ART IN BLEPHAROPLASTY

FROM SURGERY TO THE AVOIDANCE OF COMPLICATIONS

Springer This book focuses on the surgical procedure for aesthetically correcting ageing defects of the eyelids. After a brief introduction and a section on the anatomy of the periorbital area, the latest innovative techniques are described in detail with the aid of high-quality images. The author also presents his laser-assisted blepharoplasty technique. The second part of the book provides an overview of the most common complications in blepharoplasty, and how to avoid them. In addition it guides readers through the treatment of complications. The application of the Single Suture Traction Technique (SSTT) popularised by the author, a useful tool to avoid and correct complications, is also presented in details. The inclusion of results, advantages, disadvantages, potential complications, tips and tricks make this book a valuable resource for plastic surgeons performing blepharoplasty.

MASTER TECHNIQUES IN FACIAL REJUVENATION

Elsevier Comprehensive coverage, multidisciplinary guidance, and step-by-step instruction both in print and on video help you choose the best approach and get the best results for any facial rejuvenation challenge. Master Techniques in Facial Rejuvenation, 2nd Edition, by Drs. Babak Azizzadeh, Mark Murphy, Calvin Johnson, Guy Massry, and Rebecca Fitzgerald, presents multiple facial rejuvenation techniques by experts in the fields of plastic surgery, facial plastic surgery, otolaryngology, oculoplastic surgery and dermatology. Competing and complementary techniques focus on all areas of the face, providing a balanced and systematic approach to this fast-growing field. Presents step-by-step, full-color depictions of the authors' surgical techniques, with emphasis on minimally invasive surgery, recent trends, and adjunctive procedures. Addresses facial shape and proportions with injectable agents in youth and age. Provides multiple viewpoints on advanced and time-tested techniques. Features video instruction on ptosis repair blepharoplasty, mentoplasty, non-surgical brow and eyelid rejuvenation, and more. Features expanded coverage of non-invasive procedures such as Botulinum toxin and fillers, neromodulators, tightening devices, and panfacial nonsurgical rejuvenation, plus newly updated information on face lifts. Includes all-new chapters on non-surgical brow and eyelid rejuvenation, ptosis repair and blepharoplasty, deep plane rhytidectomy modifications, and orthognathic aesthetic facial surgery. Expert ConsultT eBook version included with purchase. This enhanced eBook experience allows you to search all of the text, figures, Q&As, and references from the book on a variety of devices.

OCULOFACIAL, ORBITAL, AND LACRIMAL SURGERY

A COMPENDIUM

Springer Nature This comprehensive text covers both core and advanced principles within oculofacial, orbital, and lacrimal surgery with extensive detail not found in any other current book on the subject. Richly illustrated with hundreds of images, Oculofacial, Orbital, and Lacrimal Surgery: A Compendium is written and edited by international leaders in fields spanning ophthalmology, otolaryngology, oral and maxillofacial surgery, and plastic surgery. Covering topics such as embryology, anatomy, and physiology of the lacrimal system, imaging for orbital diseases and thyroid-related ophthalmology, and flap geometry and planning, this book is an excellent resource for those in training, as well as seasoned clinicians looking to stay current. This book is divided into five sections: Eyelid, Oculofacial, Lacrimal, Orbit, and Socket, with each section containing detailed chapters addressing evaluation, imaging, and various surgical approaches and management. Designed to not only provide an anatomical and surgical guide for all three types of surgeries, but to help physicians avoid mistakes and correct complications of patients referred to them, Oculofacial, Orbital, and Lacrimal Surgery: A Compendium is the definitive, authoritative reference on this complex field.

COSMETIC FACIAL SURGERY - E-BOOK

Elsevier Health Sciences As the demand for cosmetic procedures continues to rise, Cosmetic Facial Surgery, 3rd Edition, is your reference of choice for up-to-date, authoritative coverage of today's most effective, innovative, and sought-after techniques. Internationally recognized editor Dr. Joe Niamtu brings together a team of cosmetic surgery experts in plastic surgery, facial plastic surgery, oral and maxillofacial surgery, oculoplastic surgery, and dermatology who provide step-by-step guidance and personal tips and tricks for optimal outcomes and fewer complications. Accessible, easy-to-grasp descriptions, written in an engaging, first-person narrative, explain concepts based on real cases and on Dr. Niamtu's experience. Covers everything from new implants, lasers, blepharoplasty, and liposuction technologies to innovative new procedures that will greatly benefit your patients. Utilizes a highly visual, atlas-style format and templated chapters for quick access to key information. Includes new contributors, new content on rhinoplasty procedures, new coverage of male cosmetic surgery, new case photographs, and much more. Presents more than 3,000 full-color photos that show surgical techniques and before-and-after shots of actual cases. Features more than 50 videos that bring procedures to life, as Dr. Niamtu walks you through Botox and fillers, facial liposuction and fat transfer to face, and much more.

OXFORD TEXTBOOK OF PLASTIC AND RECONSTRUCTIVE SURGERY

Oxford University Press The Oxford Textbook of Plastic and Reconstructive Surgery is a comprehensive reference text detailing all aspects of plastic surgery pertinent to a surgeon in training for specialisation and suitable to use in preparation for the Intercollegiate Examination as all aspects of the curriculum are covered. It is part of the Oxford Textbooks in Surgery series, edited by Professor Sir Peter Morris. This volume is also the perfect resource for practicing plastic surgeons; summarising contemporary trial knowledge as well as discussing anatomy, examination and techniques. Chapters are divided into those that detail basic principles and technique, and those that, on a regional basis, describe the conditions and their treatments that form the wide spectrum of reconstructive and aesthetic plastic surgery. The book is split into 13 comprehensive sections; these include General Principles, Burns, Nerve, Limbs, Facial Trauma, Cosmetic surgery, and Ethics among other key areas in the field. This highly illustrated full colour textbook has an innovative and user-friendly style, including over 1000 photographs, clinical images, and line drawings. Bringing together the expertise of almost 200 specialist contributors in the field, the Oxford Textbook of Plastic and Reconstructive Surgery is a highly valuable source of information.

BROW AND UPPER EYELID SURGERY: MULTISPECIALTY APPROACH - E-BOOK

Elsevier Health Sciences Traditionally, professional medical and surgical society meetings, journals, and texts are single-specialty driven to accommodate specific specialists with information most important to them. A consequence of this structure

is that it can create an unintentional and artificial barrier to sharing knowledge that can benefit patient outcomes. Cosmetic and reconstructive surgeons, more than ever, are seeking to know what other specialists are doing. This publication, the first of a series, focuses on the brow and upper eyelid rejuvenation and presents varied and complementary techniques from the core specialties of Plastic surgery, Oculoplastic surgery, Facial plastic surgery, and Dermatology to address all aspects of rejuvenation procedures of the upper face. Surgical and non-invasive techniques are presented concisely, focusing on time-tested as well as novel procedures. The most talented and accomplished subspecialists in their respective fields provide insights into such topics as Preoperative Evaluation for the Upper Eyelid and Brow; Aesthetic Enhancements in Upper Blepharoplasty; Asian Upper Lid Blepharoplasty; Prevention and Intraoperative Management of Blepharoplasty Complications; Ptosis Repair in Aesthetic Blepharoplasty; Adjunctive Fat Grafting of the Brow/Upper Lid; The Open Brow Lift; Adjunctive Skin Care of the Brow and Upper Lid; among many others. Specific techniques, Patient perspective and goals, and clear anatomic descriptions are presented with each procedure, with several offering technique videos. Guest editors Babak Azizzadeh and Guy Massry strongly believe that, with more and varied practitioners with different training taking on cosmetic and reconstructive surgeries or procedures, transparency of information is essential in order to expose the best information to all practitioners of this art and science.

PROBLEMS IN PERIORBITAL SURGERY

A REPAIR MANUAL

Thieme Medical Publishers *Problems in Periorbital Surgery: A Repair Manual* The field of periorbital surgery has expanded exponentially in recent decades. With its rise in popularity, however, comes a rise in complications. Finally there is a comprehensive guide to repairing the problems encountered in periorbital surgery, compiled by masters in the art of periorbital surgery! This unique resource for plastic, facial plastic and oculoplastic surgeons offers several key features: A thorough discussion on the history and examination for the evaluation of the eyelid Stepwise guidance for correcting a range of complications in periorbital surgery, including infection and bleeding, blindness and motility disorders, specific upper and lower eyelid problems including lid retraction, chemosis, and adverse results from fillers and resurfacing Several chapters, presenting different approaches, devoted to the challenging problem of lid retraction and its multifactorial etiology A case-report format that provides detailed discussions of all possible complications Expert techniques from renowned surgeons providing multiple perspectives on the same problems More than 300 color photographs and beautifully detailed surgical illustrations Multiple video clips showing details of eyelid evaluation and corrective techniques Both print and electronic formats for easy access everywhere To meet the ever-increasing patient demand for these youth-restoring procedures, all surgeons undertaking eyelid surgery and committed to prevent and treat complications of periorbital surgery should have this resource in their collection!

MIDFACIAL REJUVENATION

Springer Science & Business Media Midfacial Rejuvenation is a comprehensive review of the majority of procedures and options for midfacial aesthetic and corrective surgery. Each contributor offers a unique approach to the midfacial area, with detailed specifics for every technique. Chapters on midfacial anatomy, complications and their management complete the comprehensive coverage of the subject matter, resulting in a reference text that will benefit every practitioner dealing with the midfacial region. Features:

- One of the first books to focus exclusively on the midfacial area
- Highly illustrated and with clear, step-by-step instructions on performing a variety of midface lifts, implants, sutures, grafts, and fillers
- Over 300 full color images
- Includes in-depth chapters on midfacial anatomy and the anatomic basis of aging
- Multiple approaches to midfacial rejuvenation by well-known surgeons in fields such as oculoplastics, facial plastics, general plastics, and dermatologists

EXPERT TECHNIQUES IN OPHTHALMIC SURGERY

JP Medical Ltd Expert Techniques in Ophthalmic Surgery is a comprehensive textbook with a highly visual format, including nearly 1000 illustrations and images, and features that align with current ophthalmology training. This book includes contributions from renowned international experts, on a broad range of topics. This book covers the full range of surgical topics, including cornea, retina, oculoplastic and glaucoma with operative techniques. In all sections, operative techniques and surgical strategies are explained step-by-step to increase surgical and anatomical knowledge. A section on ethics and medicolegal aspects of surgical practice is an additional highlight of the book. The content of the book has been organised to facilitate quick access of information; each section is colour coded for easy cross-referencing and includes bullet point lists and text boxes. Expert Techniques in Ophthalmic Surgery provides comprehensive coverage of eye surgery for ophthalmologists in training and in practice. Key Features Extensive, accessible text over 1100 pages Nearly 1000 full colour images Edited by team of ophthalmic experts from USA and India

PUTTERMAN'S COSMETIC OCULOPLASTIC SURGERY E-BOOK

Elsevier Health Sciences Through three bestselling editions, Dr. Allen M. Putterman's masterful work has helped thousands of practitioners expand their repertoire of aesthetic periorbital and facial surgery techniques. Now, Steven Fagien, MD, FACS - hand picked by Dr. Putterman to serve as Editor for the 4th Edition - brings you a wealth of new procedures ... fresh approaches from new leading authorities representing the various aesthetic specialties, including from plastic surgery, oculoplastic surgery, and dermatology, and new illustrations to help you update and enhance your operative skills and let you see exactly how to perform a variety of key techniques, step by step. Discusses how to select and perform appropriate procedures for a multitude of cosmetic problems and includes elaborate illustrations Provides information on issues related to cosmetic surgery such as psychology,

anatomy, and anaesthesia Master state-of-the-art techniques with new chapters on · Upper Blepharoplasty: Volume Enhancement via Skin Approach: Lowering the Upper Lid Crease · Lower Blepharoplasty: Blending the Lid/Cheek Junction · Brow Lift Techniques · Injectable Agents for Dermal Soft-Tissue Augmentation of the Face: Options and Decision Making · Expanded uses of BTX-A for Facial Aesthetic Enhancement. Obtain fresh insights from 50% new authors, all luminaries on their respective subjects. Know what to look for and how to proceed thanks to abundant new artwork.

A TEXTBOOK OF ADVANCED ORAL AND MAXILLOFACIAL SURGERY

VOLUME 3

BoD – Books on Demand Advanced oral and maxillofacial surgery encompasses a vast array of diseases, disorders, defects, and deformities as well as injuries of the mouth, head, face, and jaws. It relates not only to treatment of impacted teeth, facial pain, misaligned jaws, facial trauma, oral cancers, jaw cysts, and tumors but also to facial cosmetic surgery and placement of dental and facial implants. This specialty is evolving alongside advancements in technology and instrumentation. Volume 1 has topped 132,000 chapter downloads so far, and Volume 2 is being downloaded at the same pace! Volume 3 is basically the sequel to Volumes 1 and 2; 93 specialists from nine countries contributed to 32 chapters providing comprehensive coverage of advanced topics in OMF surgery.

MANUAL OF OCULOPLASTIC SURGERY

Springer For the last two decades, this best-selling, step-by-step guide to oculoplastic surgery has been highly respected and widely used by ophthalmologists, oculo-facial plastic fellows, residents, ENT-facial plastic surgeons, and general plastic surgeons. The revised and updated fifth edition of Manual of Oculoplastic Surgery is designed to guide the physician in exploring and completing a variety of ocular plastic procedures in a comprehensive and logical step-by-step sequence. It features new authors. Sections include: Trauma, Lacrimal Surgery, Cosmetic, Congenital Ptosis, Acquired Ptosis, Eyelid Malposition, Facial Nerve Dysfunction, Eyelid Flaps, Orbital Surgery, and Therapeutic Considerations. Each procedure in this must-have resource includes a review of the surgical anatomy, step-by-step instructions, plus the book is complete with more than one hundred color illustrations and dozens of surgical videos for further education.

ANESTHESIOLOGIST'S MANUAL OF SURGICAL PROCEDURES

Lippincott Williams & Wilkins Anesthesiologists Manual of Surgical Procedures, 5e is your top-to-bottom guide to anesthetic technique, containing everything you need to know for effective perioperative management of patients. With so many moving variables before, during, and after surgery, it's crucial to understand the best practices for successful anesthetic care. This instructive text accounts for each variable immaculately, presenting all anesthetic considerations in a clear, templated format, detailing each treatment option then refining and summarizing all courses of

action in easy-to-read tables. If you're an anesthesiologist, anesthesia resident, or CRNA, this new Fifth Edition will guide you through all operative scenarios and ensure the highest standards of anesthetic practice. Features: Full color illustrations and photographs Each procedure covered from both the surgeon and anesthesiologist's perspectives Summary tables distill each procedure for easy review Electronic version includes links to procedures Now with the print edition, enjoy the bundled interactive eBook edition, offering tablet, smartphone, or online access to: Complete content with enhanced navigation A powerful search that pulls results from content in the book, your notes, and even the web Cross-linked pages, references, and more for easy navigation Highlighting tool for easier reference of key content throughout the text Ability to take and share notes with friends and colleagues Quick reference tabbing to save your favorite content for future use

INJECTABLES AND NONSURGICAL REJUVENATION, VOLUME 30, ISSUE 3, AN ISSUE OF FACIAL PLASTIC SURGERY CLINICS OF NORTH AMERICA, E-BOOK

Elsevier Health Sciences In this issue of *Facial Plastic Surgery Clinics*, guest editor Dr. Jessyka G. Lighthall brings her considerable expertise to the topic of *Injectables and Nonsurgical Rejuvenation*. Many patients seek facial rejuvenation without having to undergo a surgical procedure, and optimal rejuvenation often requires a multi-faceted approach to their concerns about aging. In this issue, top experts in the field provide up-to-date information on available treatments for aesthetic physicians as primary or adjunctive procedures for facial and neck rejuvenation. Contains relevant, practice-oriented topics including patient evaluation and treatment planning for the aging face patient; medical grade skin care for optimal facial rejuvenation; injectables in facial plastic surgery; treatment of periocular vascularity, erythema and hyperpigmentation; advances in non-surgical periocular rejuvenation; and more. Provides in-depth clinical reviews on injectables and nonsurgical rejuvenation, offering actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews.

AVOIDING AND MANAGING COMPLICATIONS IN COSMETIC OCULOFACIAL SURGERY

Springer Nature This unique book focuses solely on educating aesthetic practitioners on how to best avoid complications. Should complications occur, the text, alongside high quality images and supplementary video, details how best to deal with them in terms of the patient's findings, individual anatomy, and emotional state. *Avoiding and Managing Complications in Cosmetic Oculofacial Surgery* is divided into four sections for ease of use: meticulous preoperative planning, including proper patient selection; potential intraoperative complications and their management; postoperative complication-specific management such as lower eyelid retraction; and special topics including scar management, crease asymmetry, and complications of other periocular surgery and non-surgical procedures. Drawing on

the vast experiences of the volume editors as oculofacial surgeons as well as the varied experiences of the contributors from facial plastics and dermatology this book provides a useful and vital tool for aesthetic practitioners in any specialty.

INJECTABLE FILLERS

FACIAL SHAPING AND CONTOURING

John Wiley & Sons In the innovative field of cosmetic dermatology, the range of products and methods available to patients is expanding all the time. Prominent among these are facial fillers, which, when injected into and beneath the skin, help alleviate wrinkles and improve smoothness. However, the many fillers on offer have varying characteristics and effects, and practitioners must be properly trained in order to administer them safely and successfully. Injectable Fillers offers those performing these popular procedures an in-depth and far-reaching survey of current best practices, with a strong emphasis on safety. Covering everything from the science behind facial fillers to their appropriate means of application, the book places each product in context, demonstrating the pros and cons of the expanding range of hyaluronic acids and calcium hydroxylapatite microspheres, and exploring injectable submental fat reduction with sodium deoxycholate. This second edition broadens the scope of discussion to also include chin, mandible, temple, nose, brow, and forehead injections, as well as the use of cannulas as an alternative to needles.

ADVANCES IN OPHTHALMOLOGY AND OPTOMETRY,

Elsevier Health Sciences Advances in Ophthalmology and Optometry reviews the most current practices in both ophthalmology and optometry. A distinguished editorial board, headed by Dr. Myron Yanoff, identifies key areas of major progress and controversy and invites expert ophthalmologists and Optometrists to contribute original articles devoted to these topics. These insightful overviews bring concepts to a clinical level and explore their everyday impact on patient care. Topics will cover all specialty areas, highlighting the most current and relevant information in the field.

EYELID & PERIORBITAL SURGERY

CRC Press Benefit from the keen insights and expert knowledge of Clinton McCord Jr., MD, and Mark Codner, MD, as they share their vast experience in treating aesthetic and reconstructive problems of the eyelids and periorbital area in this master work. No other book provides this depth of experience with an oculoplastic surgeon and a plastic surgeon pooling their talents and their unique insights to offer readers the advantage of their combined expertise. The result is a remarkable two-volume clinical work that provides comprehensive guidance for solving both common and rare problems encountered in treating eyelid and periorbital conditions. It is destined to find a valued place in the libraries of young and experienced surgeons alike. Comprehensive Coverage This two-volume, four-DVD combination covers it all—from basic anatomy to the latest refinements and advances in technique. Divided into three parts, the book begins with fundamentals and includes four

significant chapters: anatomy; eyelid function, innervation, and biomechanics; basic principles; and tissue grafts. These initial chapters provide an important foundation for planning aesthetic and reconstructive surgical interventions and include essential information on eyelid physiology, acquiring donor tissues for use in eyelid surgery, and basic suturing and flap techniques. Part II focuses on aesthetic surgery of the eyelid and periorbital area. It includes the range of procedures needed for an aesthetic practice, including brow lift, upper and lower blepharoplasty, midface lift, Asian blepharoplasty, and treatment of aesthetic complications. The final two chapters in this section discuss the adjunctive use of tissue fillers, botox, and fat grafting for enhancing the results of aesthetic procedures in this anatomic area. The authors are assisted in this section by select contributions by Dr. William Chen (Asian Blepharoplasty), Dr. Foad Nahai (Transpalpebral Blepharoplasty), Drs. Roderick Hester and Kristin Boehm (Fat Grafting) and Mary Popp, RN (Botox and Injectable Fillers). The final part is devoted to reconstructive surgery and includes a comprehensive approach to ptosis surgery, upper and lower eyelid reconstruction, entropion and ectropion reconstruction; it also covers special topics such as surgery for facial paralysis, malignant eyelid tumors, eyelid trauma, Graves' disease, and treating pediatric patients. Other important topics include variations in canthal anchoring and the use of spacer materials. An Invaluable Resource Beautiful four-color artwork and photographs provide step-by-step descriptions of each surgical procedure. These volumes are filled with tips and tricks, clinical nuances, and personal insights for improving your results and addressing surgical challenges. The Ideal Print/Video Combination This book is a virtual gold mine of information, supplemented by more than 45 video clips offering more than five hours of descriptive surgical video for standard aesthetic and reconstructive procedures along with alternative approaches. This video footage is contained on multiple DVDs that accompany these volumes. To aid the reader, the video segments are keyed into the text and are also included in the table of contents. Therefore, when reading about different surgical techniques, the reader is able to supplement the written word by viewing a dynamic demonstration of the procedure. This duality is enormously helpful in explaining the subtle nuances of different operations. This invaluable book will become a treasured part of your library and a trusted resource that you will refer to time and again.

AESTHETIC REJUVENATION OF THE FACE AND NECK

Thieme Aesthetic Rejuvenation of the Face and Neck presents the latest surgical and non-surgical techniques used in facial aesthetic rejuvenation. In the current environment of "lunchtime facelifts" and "light lifts" that often produce poor results, this book fulfills the need for a text that takes a careful, detailed approach to describing high-quality aesthetic facial rejuvenation procedures. Dr. Connell, the senior editor, is a recognized world expert on facial rejuvenation surgery, and his co-authors offer a wide range of perspectives and expertise in the specialty. Key Features: Written by experts from around the world, most fellowship trained by Dr. Connell Presents techniques that provide long-lasting results and are proven to be safe Enhanced with more than 650 full-color illustrations and photographs During his

over 50 years in practice Dr. Bruce Connell has trained about 50 fellows and given international annual teaching programs. MASTER TECHNIQUES IN OTOLARYNGOLOGY - HEAD AND NECK SURGERY: FACIAL PLASTIC SURGERY

Lippincott Williams & Wilkins Clear and concise, with detailed surgical instructions, *Master Techniques in Otolaryngology—Head and Neck Surgery: Facial Plastic Surgery* is the latest addition to the highly regarded *Master Series in Otolaryngology*. Chapters cover the most critical and relevant topics in facial plastics & reconstructive surgery, including trauma, oculoplastic, rhinoplasty, and cosmetic procedures. Each follows an identical organizational structure to make it easier to review and digest important information across multiple surgical procedures.

COMPLEMENTARY FAT GRAFTING

Lippincott Williams & Wilkins This book/DVD set is a thoroughly illustrated "how-to" guide to facial fat transfer, a new facial rejuvenation procedure that allows the surgeon to sculpt the face and restore it to its natural beauty. Fat is harvested from fattier areas of the body through a suction technique and injected into the face with a small cannula. The fat transferred becomes incorporated as living tissue and the results are extremely long lasting. The book guides readers through this procedure with easy-to-follow instructions and more than 200 full-color step-by-step illustrations. Two DVDs accompanying the book contain videos demonstrating the procedure and pitfalls.

AESTHETIC SURGERY TECHNIQUES E-BOOK

A CASE-BASED APPROACH

Elsevier Health Sciences Changing trends, ethnic and regional preferences, and a hands-on teaching method make cosmetic surgery uniquely challenging for novice and experienced surgeons alike. Aesthetic Surgery Techniques: A Case-Based Approach offers expert, real-world instruction by presenting chapters and patients in a classical fashion, providing a clinical perspective as you work through case after case, honing your knowledge and skills. A diverse, international group of highly reputable faculty takes you step by step through each case. Covers a wide range of the most common cosmetic procedures in a templated, atlas-style format, highlighting case presentations with superb illustrations and clinical photographs. Presents each case using easy-to-understand text that highlights potential risks and tips and tricks to avoid them. Conveys the real-world knowledge and expertise of a multidisciplinary team of editors including oral and maxillofacial surgeons and plastic surgeons. Uses a chapter format based on the 14 Cosmetic Surgery Competencies used to train Consultant Plastic Surgeons at the Anglia Ruskin University, UK. Offers global coverage of specific techniques to help you refine your skills and expand your surgical repertoire: Abdominoplasty (Modified Brazilian Technique in the UK and Middle East) Open Rhinoplasty (European approach) Surgical correction of the Neck (New Zealand and U.S.) Advanced Medical Aesthetics (UK and Dubai) Facelift Made Easy (U.S.) Asian Blepharoplasty Ethics in Aesthetic Surgery (UK and U.S.) Breasts, Buttocks, and Thighs (Brazil)

MASTER TECHNIQUES IN RHINOPLASTY

Saunders Master Techniques in Rhinoplasty is a concise yet comprehensive, multi-authored, multi-specialty surgical text and video atlas that provides all the guidance you need to get the best outcomes in rhinoplasty. Babak Azizzadeh, MD, FACS and other leading experts guide you through both open and endonasal primary and secondary rhinoplasty techniques with the use of step-by-step procedures, color line drawings, intraoperative photographs, and narrated videos on DVD. Expertly perform the latest open and endonasal techniques for both primary and revision rhinoplasty and give your patients the outstanding results they demand. Choose the most promising approach based on multiple expert viewpoints on the advantages and disadvantages of each approach. Review history, personal philosophy, anatomy, preoperative analysis, technique, and postoperative care, and complication avoidance for each procedure - all the information you need to get the best outcomes. Master the nuances of each new technique through step-by-step instructions and beautiful, detailed line drawings and intraoperative photographs.

Watch master surgeons perform techniques in narrated videos on the included DVD. Tap into the experience and expertise of leading reconstructive and cosmetic plastic surgeons.

MIDFACE AND NECK AESTHETIC PLASTIC SURGERY
