## **THE UNITED NATIONS, SECURITY, AND GOVERNANCE**

---

*Unu Millennium Series New Millennium, New Perspectives: The United Nations, Security, and Governance analyzes a number of pressing international challenges relating to security and governance in a policy oriented, forward looking manner. The authors address a number of overarching questions - such as the impact of globalization, key challenges in the short and medium terms, the manner in which national governments and the international community might more broadly address the challenges; the comparative advantage enjoyed by the United Nations in working with the international community in addressing the challenges - and find points of commonality in problem solving ethos and methodology. The bases and modalities of security and governance, both within and between societies, are evolving. In parallel, the interconnectedness, and sometimes interdependencies, between security and governance are increasingly understood. It follows, as we consider collective responses to the challenges of security and governance at the international level, that these two subjects should be considered together, in an integrated manner. New Millennium, New Perspectives takes stock of key international trends for security and governance, and considers their implications for the United Nations in the twenty-first century. It embraces a range of issues relating to traditional and non-traditional security, and changing pressures and expectations of governance within and across international borders. Ideas shape and change the world. The authors of this volume tie together the worlds of ideas and policy. They are united in the conviction that academic and policy debates must be integrated if they are to be translated into feasible and relevant options.*

## **REGIONAL SECURITY AND GLOBAL GOVERNANCE**

---

---

## **A STUDY OF INTERACTION BETWEEN REGIONAL AGENCIES AND THE UN SECURITY COUNCIL WITH A PROPOSAL FOR A REGIONAL-GLOBAL SECURITY MECHANISM**

---

*ASP / VUBPRESS / UPA A compelling study of the interaction between regional agencies and the UN Security Council that includes a proposal for a regional-global security mechanism, which should be of interest to policy makers worldwide. This ground-breaking exploration into how peace and security might best be attained in the 21st century, its central message is the importance of realizing UN Secretary-General Kofi Annan's vision of a "regional-global security mechanism" within the next decade. The book reviews the historical tussle between universalism and regionalism as the cornerstone of international security over the past century, culminating in the "new regionalism" that has characterised international relations in recent decades. The complexities of contemporary regional, sub-regional and other organizations, blessed and burdened with overlapping membership, evolving mandates, and even shifting "focal areas" are analysed. The "multidimensional phenomenon" of regional security is explored--cultural, political and legal--with a view to understanding how regional organizations work today. This book is one of those rare offerings--a policy-oriented prescription for peace and security that is based on factual analysis and creative reasoning. It is a must for national diplomats, regional officials, and international civil servants. Springer Nature*

---

## **INTERNATIONAL RELATIONS**

---

### **A CONCISE INTRODUCTION**

---

*NYU Press A primer to the study of international relations, this book outlines key theories, traditional approaches, and long-time controversies, focusing on the legacies of imperialism and the accelerating pace of globalization.*

---

### **HUMAN SECURITY IN SOUTHEAST ASIA**

---

*Routledge There is a growing interest in human security in Southeast Asia. This book firstly explores the theoretical and conceptual basis of human security, before focusing on the region itself. It shows how human security has been taken up as a central part of security policy in individual states in Southeast Asia, as well as in the regional security policy within the Association of Southeast Asian Nations (ASEAN). The book discusses domestic challenges for human security including the insurgencies in southern Thailand, the Philippines and Indonesia. Transnational security issues such as terrorism, drugs, human trafficking and the situation in Burma are explored by the author, and the 'ASEAN' way of contrasting the values and approaches of Southeast Asian countries with those in the West is assessed. By focusing on the ongoing changes and efforts to achieve human security in Southeast Asia, this book contributes to theoretical debates on human security as well as regional studies on Southeast Asia.*

---

### **RECOVERING FROM CIVIL CONFLICT**

---

### **RECONCILIATION, PEACE AND DEVELOPMENT**

---

*Routledge A number of international contributors emphasize the conceptual and practical challenges facing post-conflict societies and the international community in the management of the transition from civil conflict to peaceful coexistence.*

### **UNU PUBLICATIONS**

---

### **THE PREVENTION AND INTERVENTION OF GENOCIDE**

---

### **AN ANNOTATED BIBLIOGRAPHY**

---

*Routledge This volume is comprised of over 2,300 annotations on a wide array of issues and topics germane to the subject of preventing the atrocities of genocide and managing these conflicts when they do arise. Samuel Totten brings together in one comprehensive collection the research and findings in various fields, such as political science, sociology, history, and psychology, to enable specialists in genocide studies, peace studies, and conflict resolution to benefit from the insights of a diverse range of scholars and foster an understanding of how the various components of genocide studies connect. Among the topics included are: key conventions, international treaties, and covenants genocide early warning signals and forecasting risk data bases sanctions peacekeeping missions conflict resolution the International Criminal Court realpolitik vis-à-vis the issue of genocide prevention and intervention key non-governmental agencies key governmental and UN bodies working on these important issues. In addition to the annotations, Totten frames the bibliography with a major essay that introduces the reader to the subject of prevention and intervention of genocide, raising a host of critical issues regarding the strengths, weaknesses, and limitations of various approaches germane to issues of managing these conflicts.*

### **FAULT LINES OF INTERNATIONAL LEGITIMACY**

---

*Cambridge University Press Fault Lines of International Legitimacy deals with the following questions: What are the features and functions of legitimacy in the international realm? How does international legitimacy, as exemplified in particular by multilateral norms, organizations, and policies, change over time? What role does the international distribution of power and its evolution have in the establishment and transformation of legitimacy paradigms? To what extent do democratic values account for the growing importance of legitimacy and the increasing difficulty of achieving it at the international and the national level? One of the central messages of the book is that, although the search for international legitimacy is an elusive endeavor, there is no alternative to it if we want to respond to the intertwined demands of justice and security and make them an integral and strategic part of international relations.*

---

### **ARMS CONTROL AFTER IRAQ: NORMATIVE AND OPERATIONAL CHALLENGES**

---

*Pearson Education India*

### **HUMAN SECURITY IN SOUTH ASIA**

---

### **ENERGY, GENDER, MIGRATION, AND GLOBALISATION**

---

*Berghahn Books The word security has a military connotation and refers to the activities involved in protecting or defending a country, in which the State has a central role. This book argues that the State provides as well as threatens security, and that by broadening the concept of security to include both military and non-military threats such as those related to ecological, social, economic and political causes, a system of checks and balances can be introduced to regulate the State.*

### **THE FEEDING OF NATIONS**

---

### **REDEFINING FOOD SECURITY FOR THE 21ST CENTURY**

---

*CRC Press In the last decade, the world has grown richer and produced more food than ever before. Yet in that same period, hunger has increased and 925 million remain underfed and malnourished.*

Exploring this troubling paradox, *The Feeding of Nations: Re-Defining Food Security for the 21st Century* offers a glimpse into how the simple aspiration of global food

---

## **TOWARD A PEACEABLE FUTURE**

---

### **REDEFINING PEACE, SECURITY, AND KYOSEI FROM A MULTIDISCIPLINARY PERSPECTIVE**

---

*Washington State University Press* Using concise terms, peace can be defined as freedom from hostility; security as immunity from danger; and kyosei as social responsibility. Can a new comprehensive and multidisciplinary approach to peace studies be developed? Why is a new direction essential, and what kind of impact might it have? How can educational institutions reach across disciplines to educate students about these globally important concepts? In a pioneering cross-cultural, transnational, and multifaceted endeavor, Japanese and American scholars from various disciplines jointly explore these challenging questions by redefining the three key concepts of "peace, security and kyosei." Based on academic analyses in Japan and the United States, the book offers new perspectives for interdisciplinary peace studies and stimulates a public dialogue on how to shape a safer and more peaceful future for individuals, communities, and nations.

---

### **DICTIONARY AND INTRODUCTION TO GLOBAL ENVIRONMENTAL GOVERNANCE**

---

*Routledge* This unique dictionary and introduction to *Global Environmental Governance (GEG)*, written and compiled by two veterans of the international stage, provides a compilation of over 5500 terms, organizations and acronyms, drawn from hundreds of official sources. An introductory essay frames the major issues in GEG and outlines the pitfalls of talking past one another when discussing the most critical of issues facing the planet. It challenges those who are concerned with the management of our planet and its inhabitants to understand and accept a vocabulary common to the often-opposing objectives sought in the many GEG instruments. The result is a practical tool that should find a central place on the desk of anyone involved in environmental management, development or sustainability issues anywhere in the world, including the United Nations, government policy makers, NGOs and other stakeholder groups, the business community, and students and professionals. This fully revised and updated edition contains over 500 new entries and acronyms on global environmental governance as well a new introductory section on global water governance, one of the most pressing environmental issues in our era of climate change, growing populations and food shortages. Praise for the first edition:

---

### **ENVIRONMENTAL SECURITY IN THE ARCTIC OCEAN**

---

### **PROMOTING CO-OPERATION AND PREVENTING CONFLICT**

---

*Routledge* The North Pole is being transformed from a sea-ice cap to a seasonally ice-free sea within the next few decades. This fundamental shift in the boundary conditions of the Arctic Ocean will create a new natural system with different dynamics than anything previously experienced by humans in the region. With the diminishing ice cover, interests are awakening globally to take advantage of extensive energy, shipping, fishing and tourism prospects in the Arctic Ocean. A range of states, including the major Arctic powers, are increasingly asserting their sovereignty seawards. National security policies are being declared and nuclear-capable states are adjusting their strategic deployments in the Arctic Ocean. There are forums for international cooperation in the Arctic, most notably the Arctic Council, but peace in the Arctic Ocean has yet to be explicitly established as a common interest because of the long-standing military presence. Risks of political, economic and cultural instabilities are inherent consequences. This volume proposes environmental security as providing a holistic framework to assess these security risks and then identify the appropriate adaptation and mitigation responses. Only after shared risk assessment and understanding of the appropriate responses, will there be sufficient clarity about the governance paths to pursue within the international legal framework of the law of the sea.

### **A COUNTRY I DO NOT RECOGNIZE**

---

### **THE LEGAL ASSAULT ON AMERICAN VALUES**

---

*Hoover Press During the past forty years, activists have repeatedly used the court system to accomplish substantive policy results that could not otherwise be obtained through the ordinary political processes of government, both in the United States and abroad. In five insightful essays, the contributors to this volume show how these legal decisions have undermined America's sovereignty and values. They reveal how international law challenges American beliefs and interests and exposes U.S. citizens to legal and economic risks, how the "right to privacy" poses a serious threat to constitutional self-government, how the Supreme Court's religion decisions have done serious damage to our religious freedom, and more.*

### **CURRENT PUBLICATIONS IN LEGAL AND RELATED FIELDS**

---

### **AFRICA: FACING HUMAN SECURITY CHALLENGES IN THE 21ST CENTURY**

---

*Langaa RPCIG Africa's dynamic security environment is characterized by great diversity-from conventional challenges such as insurgencies, resource and identity conflicts, and post-conflict stabilization to growing threats from piracy, narcotics trafficking, violent extremism, and organized crime taking root in urban slums, among others. This precarious environment jeopardizes security at the societal, community and individual levels. In a globalized and interconnected world, millions of people worldwide are affected by some form of human insecurity. Infectious and parasitic diseases annually kill millions. Internally displaced persons number millions, including 5 million in Sudan alone. In Zambia 1 million people in a population of 11 million are reported to be HIV-positive, a situation much worse in other countries. Potable water crisis looms almost everywhere. In this book Tatah Mentan points out the need to shift the focus away from a state-centric and military-strategic emphasis on security to an interdisciplinary and people-centric approach that embraces notions like global citizenship, empowerment and participation. The primary elements of economic, food, health, environment, personal, community and political security all comprise the broader understanding of human security in an intricately interconnected world.*

### **MAKING DEMOCRATIC GOVERNANCE WORK**

---

---

## **HOW REGIMES SHAPE PROSPERITY, WELFARE, AND PEACE**

---

Cambridge University Press "Is democratic governance good for economic prosperity? Does it accelerate progress towards social welfare and human development? Does it generate a peace-dividend and reduce conflict at home? Within the international community, democracy and governance are widely advocated as intrinsically desirable goals. Nevertheless, alternative schools of thought dispute their consequences and the most effective strategy for achieving critical developmental objectives. This book argues that both liberal democracy and state capacity need to be strengthened to ensure effective development, within the constraints posed by structural conditions. Liberal democracy allows citizens to express their demands, hold public officials to account and rid themselves of ineffective leaders. Yet rising public demands that cannot be met by the state generate disillusionment with incumbent officeholders, the regime, or ultimately the promise of liberal democracy ideals. Thus governance capacity also plays a vital role in advancing human security, enabling states to respond effectively to citizen's demands"--

---

## **GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY - VOLUME IV**

---

EOLSS Publications Global Security and International Political Economy is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty one Encyclopedias. ## **INTERNATIONAL SECURITY, PEACE, DEVELOPMENT AND ENVIRONMENT - VOLUME II**

---

EOLSS Publications International Security, Peace, Development, and Environment is a component of Encyclopedia of Institutional and Infrastructural Resources in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty one Encyclopedias. The Theme on International Security, Peace, Development, and Environment deals, in seven parts and two volumes , with a myriad of issues of great relevance to our world such as: human, social, gender and environmental security; the transition in earth history from the holocene to the anthropocene potentially causing disasters and increasing resource scarcity; limits to growth, use of natural resources, sustainable livelihood and productive system through technology; rise of conflicts due to scarce and polluted resources and the concentration of humans in limited spaces of big cities; the gender violence; peace education and peace teaching as mechanisms to strengthen citizenship and to improve the understanding of cultural diversity; mechanisms to strengthen the resistance against monopolist interests in the present global world and whistle blowing as a phenomenon to protect social peace and civil resistance. The presentation culminates with a discussion on the means of active nonviolence to reinforce democratic behavior and to reduce tensions and violent outcomes in a complex world. These two volumes are aimed at the following five major target audiences: University and College students Educators, Professional practitioners, Research personnel and Policy analysts, managers, and decision makers and NGOs.

---

## **TRANSNATIONAL COMPANIES AND SECURITY GOVERNANCE**

---

---

## **HYBRID PRACTICES IN A POSTCOLONIAL WORLD**

---

Routledge This book investigates governance practiced by non-state actors. It analyses how multinational mining companies protect their sites in fragile contexts and what that tells us about political

ordering 'beyond' the state. Based on extensive primary research in the Democratic Republic of Congo, South Africa, Europe and North America, the book compares companies' political role in the 19th and 21st centuries. It demonstrates that despite a number of disturbing parallels, many contemporary practices are not a reversion to the past but unique to the present. The book discloses hybrid security practices with highly ambiguous effects around the sites of contemporary companies that have committed to norms of corporate social and security responsibility. Companies invest in local communities, and offer human rights training to security forces alongside coercive techniques of fortress protection, and stability-oriented clientele practice and arrangements of indirect rule. The book traces this hybridity back to contradictory collective meaning systems that cross borders and structure the perceptions and choices of company managers, private security officers, NGO collaborators and others practitioners. The book argues that hybrid security practices are not the result of an encounter between a supposed 'local' with the liberal 'global'. Instead, this hybridity is inherent in the transnational and part and parcel of liberal transnational governance. Therefore, more critical reflection of global governance in practice is required. These issues are sharply pertinent to liberal peacebuilding as well as global governance more broadly. The book will be of interest to anyone interested in business, politics and human rights; critical security studies; peacebuilding and statebuilding; African politics; and ethnographic and sociological approaches to global governance and international relations more generally.

## **SOCIAL SCIENCE REVIEW**

---

### **THE UNITED NATIONS, PEACE AND SECURITY**

---

#### **FROM COLLECTIVE SECURITY TO THE RESPONSIBILITY TO PROTECT**

---

Cambridge University Press Preventing humanitarian atrocities is becoming as important for the United Nations as dealing with inter-state war. In this book, Ramesh Thakur examines the transformation in UN operations, analysing its changing role and structure. He asks why, when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community. He considers the tension between the US, with its capacity to use force and project power, and the UN, as the centre of the international law enforcement system. He asserts the central importance of the rule of law and of a rules-based order focused on the UN as the foundation of a civilised system of international relations. This book will be of interest to students of the UN and international organisations in politics, law and international relations departments, as well as policymakers in the UN and other NGOs.

---

### **REGIONALISM AND REGIONAL SECURITY IN SOUTH ASIA**

---

#### **THE ROLE OF SAARC**

---

Routledge Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation (SAARC). This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation, environmental security, human welfare, and cooperation in security matters. According to the author, SAARC is making progress in addressing the myriad of issues on its agenda. The transition from agreements to actions and frequent interactions among the member states has boosted confidence. The progress of SAARC is more evident in the less controversial areas of human security, such as poverty alleviation, health and safety, human resources development, and higher education. Notwithstanding enthusiastic commitments reflected in agreements and action plans, there is a gulf between rhetoric and implementation most notably in sensitive areas relating to traditional security. In the light of the findings of this study, the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a 'contentious' nature, particularly terrorism.

### **NON-TRADITIONAL SECURITY ISSUES IN NORTH KOREA**

---

University of Hawaii Press The concept of security has undergone significant change in the past few decades. Traditionally thought of in terms of the state-centric, militarily focused, realist discourse, the concept of security has been broadened to include a greater number of potential threats and an increased number of relevant actors. Yet, despite the great changes in security scholarship, the vast majority of studies on North Korea continue to focus primarily on the country's nuclear weapons program, its military, and other traditional security issues surrounding Pyongyang. While North Korea captures headlines with its aggressive behavior and growing nuclear arsenal, the ground-level threats to average, everyday North Koreans go largely unnoticed. This groundbreaking volume seeks to

*refocus research on North Korean security from the traditional to largely unexplored non-traditional security (NTS) issues. In the wake of political succession to Kim Jung Un, the issue of non-traditional security is increasingly important. From the lasting effects of the famine of the 1990s to continued food shortages and the growing marketization of North Korean society, the Pyongyang regime is facing diverse and unprecedented challenges. This book offers cutting-edge analyses of emerging North Korean NTS issues by the world's leading specialists in the field. It looks at these issues and their effects at the local, regional, and international level, as well as examining the international community's efforts to promote an NTS approach to North Korea. More specifically, the volume addresses the traditional and non-traditional security paradigms, energy security, gender security, transnational organized crime, the internal and external dimensions of North Korea's food security, the "Responsibility to Protect," refugee issues and international law, and the role of NGOs in promoting NTS in North Korea. As the global community begins to move toward a more people-centered approach to security and foreign policy, work such as that presented in this thought-provoking volume will be increasingly vital to scholars, policymakers, and interested citizens. Contributors: Tsuneo Akaha, Peter Hayes, Brendan Howe, W. Randall Ireson, David C. Kang, Shin-wha Lee, Mark Manyin, Kyung-Ae Park, Scott Snyder, Jae-Jung Suh, David von Hippel.*
