---

### THE WHITE PEOPLE

---

Graphic Arts Books **The White People (1904)** is a short story by Arthur Machen. Originally published in *Horlick's Magazine*, the story was later printed in *The House of Souls (1906)*, a short story collection. Condemned as decadent and obscene upon publication, Machen's writing earned praise from Oscar Wilde and H. P. Lovecraft. Throughout the years, Machen's work has been referenced and adapted by such figures as Stephen King, Guillermo del Toro, and Josh Malerman for its masterfully unsettling blend of science, myth, and magic. As the sun sets over the lush countryside, Cotgrave and his friend Ambrose discuss the thin boundary that separates sorcery and the sacred. Unable to agree about the nature of good and evil, on what defines a sinner as opposed to a saint, Ambrose offers his comrade a book to borrow. Surprisingly well-kept for its age, the green book accompanies Cotgrave on his journey home, where he opens it to discover a strange, mysterious tale. Its pages contain the diary of a young girl who, encouraged by her nurse, immerses herself in the world of magic. As she grows adept in the ways of witchcraft, the girl begins referring to strange beings and unknown places, all while doing her best to conceal her secret life from friends and family. When he reaches the diary's end, Cotgrave will wish he had never looked past its binding. With a beautifully designed cover and professionally typeset manuscript, this edition of Arthur Machen's **The White People** is a classic of British horror fiction reimaged for modern readers.

## WHITE FRAGILITY

---

---

### WHY IT'S SO HARD FOR WHITE PEOPLE TO TALK ABOUT RACISM

---

[Penguin UK](#) **The International Bestseller 'With clarity and compassion, DiAngelo allows us to understand racism as a practice not restricted to "bad people." In doing so, she moves our national discussions forward. This is a necessary book for all people invested in societal change' Claudia Rankine** **Anger. Fear. Guilt. Denial. Silence. These are the ways in which ordinary white people react when it is pointed out to them that they have done or said something that has - unintentionally - caused racial offence or hurt. After, all, a racist is the worst thing a person can be, right? But these reactions only serve to silence people of colour, who cannot give honest feedback to 'liberal' white people lest they provoke a dangerous emotional reaction. Robin DiAngelo coined the term 'White Fragility' in 2011 to describe this process and is here to show us how it serves to uphold the system of white supremacy. Using knowledge and insight gained over decades of running racial awareness workshops and working on this idea as a Professor of Whiteness Studies, she shows us how we can start having more honest conversations, listen to each other better and react to feedback with grace and humility. It is not enough to simply hold abstract progressive views and condemn the obvious racists on social media - change starts with us all at a practical, granular level, and it is time for all white people to take responsibility for relinquishing their own racial supremacy. 'By turns mordant and then inspirational, an argument that powerful forces and tragic histories stack the deck fully against racial justice alongside one that we need only to be clearer, try harder, and do better' David Roediger, Los Angeles Review of Books 'The value in White Fragility lies in its methodical, irrefutable exposure of racism in thought and action, and its call for humility and vigilance' Katy Waldman, New Yorker 'A vital, necessary, and beautiful book' Michael Eric Dyson**

### HOW THE WEST BECAME PSYCHOLOGICALLY PECULIAR AND PARTICULARLY PROSPEROUS

---

[Penguin UK](#) **'A landmark in social thought. Henrich may go down as the most influential social scientist of the first half of the twenty-first century'** **MATTHEW SYED** **Do you identify yourself by your profession or achievements, rather than your family network? Do you cultivate your unique attributes and goals? If so, perhaps you are WEIRD: raised in a society that is Western, Educated, Industrialized, Rich and Democratic.**

Unlike most who have ever lived, WEIRD people are highly individualistic, nonconformist, analytical and control-oriented. How did WEIRD populations become so psychologically peculiar? What part did these differences play in our history, and what do they mean for our collective identity? Joseph Henrich, who developed the game-changing concept of WEIRD, uses leading-edge research in anthropology, psychology, economics and evolutionary biology to explore how changing family structures, marriage practices and religious beliefs in the Middle Ages shaped the Western mind, laying the foundations for the world we know today. Brilliant, provocative, engaging and surprising, this landmark study will revolutionize your understanding of who - and how - we are now.

'Phenomenal ... The only theory I am aware of that attempts to explain broad patterns of human psychology on a global scale' Washington Post  
 'You will never look again in the same way at your own seemingly universal values' Uta Frith, Professor of Cognitive Development, University College London

## **AMERICAN SUPERNATURAL TALES**

---

[Penguin](#) Part of a new six-volume series of the best in classic horror, selected by Academy Award-winning director of The Shape of Water Guillermo del Toro American Supernatural Tales is the ultimate collection

of weird and frightening American short fiction. As Stephen King will attest, the popularity of the occult in American literature has only grown since the days of Edgar Allan Poe. The book celebrates the richness of this tradition with chilling contributions from some of the nation's brightest literary lights, including Poe himself, H. P. Lovecraft, Shirley Jackson, Ray Bradbury, Nathaniel Hawthorne, and—of course—Stephen King. This volume also includes "The Yellow Sign," the most horrific story from *The King in Yellow*, the classic horror collection by Robert W. Chambers featured on HBO's hit TV series *True Detective*. By turns phantasmagoric, spectral, and demonic, this is a frighteningly good collection of stories. Filmmaker and longtime horror literature fan Guillermo del Toro serves as the curator for the Penguin Horror series, a new collection of classic tales and poems by masters of the genre. Included here are some of del Toro's favorites, from Mary Shelley's *Frankenstein* and Ray Russell's short story "Sardonicus," considered by Stephen King to be "perhaps the finest example of the modern Gothic ever written," to Shirley Jackson's *The Haunting of Hill House* and stories by Ray Bradbury, Joyce Carol Oates, Ted Klein, and Robert E. Howard. Featuring original cover art by Penguin Art Director Paul Buckley, these stunningly creepy deluxe hardcovers will be perfect additions to the shelves of horror, sci-fi, fantasy, and paranormal aficionados everywhere.

---

## **THE KING IN YELLOW**

---

Library of Alexandria Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had

risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

## **THE EAGLE AND THE DRAGON**

---

---

## **GLOBALIZATION AND EUROPEAN DREAMS OF CONQUEST IN CHINA AND AMERICA IN THE SIXTEENTH CENTURY**

---

[John Wiley & Sons](#) In this important new book the renowned historian Serge

Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

## **STRANGER IN A STRANGE LAND**

---

Hachette UK The original uncut edition of **STRANGER IN A STRANGE LAND** by Hugo Award winner Robert A Heinlein - one of the most beloved, celebrated science-fiction novels of all time. Epic, ambitious and entertaining, **STRANGER IN A STRANGE LAND** caused controversy and uproar when it was first published and is still topical and challenging today. Twenty-five years ago, the first manned mission to Mars was lost, and all hands presumed dead. But someone survived... Born on the doomed spaceship and raised by the Martians who saved his life, Valentine Michael Smith has never seen a human being until the day a second expedition to Mars discovers him. Upon his return to Earth, a young nurse named Jill Boardman sneaks into Smith's hospital room and shares a glass of water with him, a simple act for her but a sacred ritual on Mars. Now, connected by an incredible bond, Smith, Jill and a writer named Jubal must fight to protect a right we all take for granted: the right to love.

## **PANDEMIC DREAMS**

---

Oneiroi Press "This fascinating little volume explores the stuff that dreams are made of and the role the pandemic is playing in them. The dreams from

Barrett's survey are riveting vignettes--from terrifying to touching to hilarious. Her decades of scientific research and clinical practice inform incisive commentary on what these dreams reveal about society's response. She offers simple exercises for managing anxieties over COVID-19 and for inspiring adaption in this unique period of history. A great read!" -Amy Tan, author of *The Joy Luck Club*

**DREAM: I looked down at my stomach and saw dark blue stripes. I "remembered" these were the first sign of being infected with COVID-19.**

**DREAM: My home was a Covid-19 test center. People weren't wearing masks. I'm taken aback because I wasn't asked to be a test site. I'm worried that my husband and son (who actually lives out of state) will catch it because of my job as a healthcare worker.**

**DREAM: I was a giant antibody. I was so angry about COVID-19 that it gave me superpowers, and I rampaged around attacking all the virus I could find. I woke so energized!**

Since the COVID-19 pandemic swept around the world, people have reported unusually a vivid and bizarre dream lives. The virus itself is the star of many--literally or in one of its metaphoric guises. As a dream researcher at Harvard Medical School, Deirdre Barrett was immediately curious to see what our dream lives would tell us about our deepest reactions to this unprecedented disaster. *Pandemic Dreams* draws on her survey of over 9,000 dreams about the COVID-19 crisis. It describes how dreaming has reflected each aspect of the pandemic: fear of catching the virus, reactions to sheltering at home, work changes, homeschooling, and an individual's increased isolation or crowding. Some patterns are quite similar to other crises Dr. Barrett has studied such as 9/11, Kuwaitis during the Iraqi Occupation, POWs in WWII Nazi prison camps, and Middle Easterners during the Arab Spring. There are some very distinctive metaphors for COVID-19, however: bug-attack dreams and ones of invisible monsters. These reflect that this crisis is less visible or concrete than others we have faced. Over the past three months, dreams have progressed from fearful depictions of the mysterious new threat . . . to impatience with restrictions . . . to more fear again as the world begins to reopen. And dreams have just begun to consider the big picture: how society may change. The book offers guidance on how we can best utilize our newly supercharged dream lives to aid us through the crisis and beyond. It explains practical exercises for dream interpretation, reduction of nightmares, and incubation of helpful, problem-solving dreams. It also examines the larger arena of what these collective dreams tell us about our instinctive, unconscious responses to the threat and how we might integrate them for more livable policies through these times.

Deirdre Barrett, PhD is a dream researcher at Harvard Medical School. She has written five books including *Pandemic Dreams* and *The Committee of Sleep*, and edited four including *Trauma and Dreams*. She is Past President of The International Association for the Study of Dreams and editor of its journal, *DREAMING*.

## REVEALING EDEN

---

### A NOVEL

---

[Sand Dollar PressInc](#) In a post-apocalyptic world where class and beauty are defined by resistance to an overheated environment, Eden, a lowly Pearl cursed with white skin, is facing death if she does not mate with a dark-skinned Coal soon.

---

## THE FIRE NEXT TIME

---

### THE NARRATIVE OF ARTHUR GORDON PYM OF NANTUCKET

---

[DigiCat](#) "The Narrative of Arthur Gordon Pym of Nantucket" is the only complete novel written by American writer Edgar Allan Poe. The story was inspired by a newspaper account of the shipwreck and subsequent rescue of the two men on board. Poe developed the story into a tale of the young Arthur Gordon Pym, who stows away aboard a whaling ship called the Grampus. Yet, it's not the mere adventures that make this book a literary masterpiece. Poe imbued his tale with allegorical richness, biblical imagery, and psychological insights. This novel has influenced numerous writers, including Melville, James, Verne, and Nabokov.

---

## ECONOMY AND STATE

---

[John Wiley & Sons](#) **Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .**

---

## STATEBUILDING

---

[John Wiley & Sons](#) **After civil wars end, what can sustain peace in the long-term? In particular, how can outsiders facilitate durable conflict-managing institutions through statebuilding - a process that historically has been the outcome of bloody struggles to establish the state's authority over**

warlords, traditional authorities, and lawless territories? In this book, Timothy Sisk explores international efforts to help the world's most fragile post-civil war countries today build viable states that can provide for security and deliver the basic services essential for development. Tracing the historical roots of statebuilding to the present day, he demonstrates how the United Nations, leading powers, and well-meaning donors have engaged in statebuilding as a strategic approach to peacebuilding after war. Their efforts are informed by three key objectives: to enhance security by preventing war recurrence and fostering community and human security; to promote development through state provision of essential services such as water, sanitation, and education; to enhance human rights and democracy, reflecting the liberal international order that reaffirms the principles of democracy and human rights, . Improving governance, alongside the state's ability to integrate social differences and manage conflicts over resources, identity, and national priorities, is essential for long-term peace. Whether the global statebuilding enterprise can succeed in creating a world of peaceful, well-governed, development-focused states is unclear. But the book concludes with a road map toward a better global regime to enable peacebuilding and development-oriented statebuilding into the 21st century.

---

## **THE STRANGE CASE OF DR. JEKYLL AND MR. HYDE**

---

**BookRix** The Strange Case of Dr. Jekyll and Mr. Hyde is about a London lawyer named Gabriel John Utterson who investigates strange occurrences between his old friend, Dr. Henry Jekyll, and the evil Edward Hyde. There are two personalities within Dr. Jekyll, one apparently good and the other evil; completely opposite levels of morality. The novel's impact is such that it has become a part of the language, with the very phrase "Jekyll and Hyde" coming to mean a person who is vastly different in moral character from one situation to the next. 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a thrilling Gothic horror novel. John Utterson, a prosecutor, is on his weekly walk with his relative, who proceeds to tell him of an encounter with a man he had seen some months ago while coming home late at night from Cavendish Place. The tale describes a sinister figure named Edward Hyde who tramples a young girl, disappears into a door on the street, and re-emerges to pay off her relatives with 10 pounds in gold and a cheque signed by respectable gentleman Dr. Henry Jekyll (a client and friend of Utterson's) for 90 pounds. Jekyll had recently and suddenly changed his will to make Hyde the sole beneficiary. This development concerns and disturbs Utterson, who makes an effort to seek out Hyde. Utterson fears that Hyde is blackmailing Jekyll for his money. Upon finally managing to encounter Hyde, Hyde's ugliness, as if deformed, amazes Utterson. Although Utterson cannot say exactly how or why, Hyde provokes an instinctive feeling of revulsion in him. Much to Utterson's surprise, Hyde willingly offers Utterson his address. After one of Jekyll's dinner parties,

Utterson stays behind to discuss the matter of Hyde with Jekyll. Utterson notices Jekyll turning pale, yet he assures Utterson that everything involving Hyde is in order and that he is to be left alone.

## **AS IF SILENT AND ABSENT**

---

---

## **BONDS OF ENSLAVEMENT IN THE ISLAMIC MIDDLE EAST**

---

Yale University Press This groundbreaking book reconceptualizes slavery through the voices of enslaved persons themselves, voices that have remained silent in the narratives of conventional history. Focusing in particular on the Islamic Middle East from the late eighteenth to the early twentieth century, Ehud R. Toledano examines how bonded persons experienced enslavement in Ottoman societies. He draws on court records and a variety of other unexamined primary sources to uncover important new information about the Africans and Circassians who were forcibly removed from their own societies and transplanted to Middle East cultures that were alien to them. Toledano also considers the experiences of these enslaved people within the context of the global history of slavery. The book looks at the bonds of slavery from an original perspective, moving away from the traditional master/slave domination paradigm toward the point of view of the enslaved and their responses to their plight. With keen and original insights, Toledano suggests new ways of thinking about enslavement.

---

## **THE CONSEQUENCES OF MODERNITY**

---

John Wiley & Sons In this major theoretical statement, the author offers a new and provocative interpretation of the institutional transformations associated with modernity. We do not as yet, he argues, live in a post-modern world. Rather the distinctive characteristics of our major social institutions in the closing period of the twentieth century express the emergence of a period of 'high modernity,' in which prior trends are radicalised rather than undermined. A post-modern social universe may eventually come into being, but this as yet lies 'on the other side' of the forms of social and cultural organization which currently dominate world history. In developing an account of the nature of modernity, Giddens concentrates upon analyzing the intersections between trust and risk, and security and danger, in the modern world. Both the trust mechanisms associated with modernity and the distinctive 'risk profile' it produces, he argues, are distinctively different from those characteristic of pre-modern social orders. This book build upon the author's previous theoretical writings, and will be of fundamental interest to anyone concerned with Giddens's overall project. However, the work covers issues which the author has not previously analyzed and extends the scope of his work into areas of pressing practical concern. This book will be essential reading for second year undergraduates and above in sociology, politics, philosophy,

and cultural studies.

---

## TEACHING WHITE SUPREMACY

---

### AMERICA'S DEMOCRATIC ORDEAL AND THE FORGING OF OUR NATIONAL IDENTITY

---

Pantheon A powerful exploration of the past and present arc of America's white supremacy—from the country's inception and Revolutionary years to its 19th century flashpoint of civil war; to the Civil Rights movement of the 1960s and today's Black Lives Matter. "The most profoundly original cultural history in recent memory." —Henry Louis Gates, Jr., Harvard University "Stunning, timely ... an achievement in writing public history ... Teaching White Supremacy should be read widely in our roiling debate over how to teach about race and slavery in classrooms." —David W. Blight, Sterling Professor of American History, Yale University; author of the Pulitzer-prize-winning *Frederick Douglass: Prophet of Freedom* In *Teaching White Supremacy*, Donald Yacovone shows us the clear and damning evidence of white supremacy's deep-seated roots in our nation's education system in a fascinating, in-depth examination of America's wide assortment of texts, from primary readers to college textbooks and other higher-ed course materials. Sifting through a wealth of materials, from the colonial era to today, Yacovone reveals the systematic ways in which white supremacist ideology has infiltrated American culture and how it has been at the heart of our collective national identity. And, the author argues that it is the North, not the South, that bears the greater responsibility for creating the dominant strain of race theory, inculcated throughout the culture and in school textbooks, that restricted and repressed African Americans and other minorities, even as Northerners blamed the South for its legacy of slavery, segregation and racial injustice.

---

## THE COMFORT OF THINGS

---

John Wiley & Sons What do we know about ordinary people in our towns and cities, about what really matters to them and how they organize their lives today? This book visits an ordinary street and looks into thirty households. It reveals the aspirations and frustrations, the tragedies and accomplishments that are played out behind the doors. It focuses on the things that matter to these people, which quite often turn out to be material things - their house, the dog, their music, the Christmas decorations. These are the means by which they express who they have become, and relationships to objects turn out to be central to their relationships with other people - children, lovers, brothers and friends. If this is a typical street in a modern city like London, then what kind of society is this? It's not a community, nor a neighbourhood, nor is it a collection of isolated individuals. It isn't dominated by the family. We assume that social life is corrupted by materialism, made superficial and

individualistic by a surfeit of consumer goods, but this is misleading. If the street isn't any of these things, then what is it? This brilliant and revealing portrayal of a street in modern London, written by one of the most prominent anthropologists, shows how much is to be gained when we stop lamenting what we think we used to be and focus instead on what we are now becoming. It reveals the forms by which ordinary people make sense of their lives, and the ways in which objects become our companions in the daily struggle to make life meaningful.

---

## **THE STRANGE DEATH OF EUROPE**

---

### **IMMIGRATION, IDENTITY, ISLAM**

---

**Bloomsbury Publishing** **The Sunday Times** number one bestseller Chosen as a **Waterstones Politics Paperback of the Year, 2018** **The Strange Death of Europe** is a highly personal account of a continent and culture caught in the act of suicide. Declining birth-rates, mass immigration and cultivated self-distrust and self-hatred have come together to make Europeans unable to argue for themselves and incapable of resisting their own comprehensive change as a society. This book is not only an analysis of demographic and political realities, but also an eyewitness account of a continent in self-destruct mode. It includes reporting from across the entire continent, from the places where migrants land to the places they end up, from the people who appear to welcome them in to the places which cannot accept them. Told from this first-hand perspective, and backed with impressive research and evidence, the book addresses the disappointing failure of multiculturalism, Angela Merkel's U-turn on migration, the lack of repatriation and the Western fixation on guilt. Murray travels to Berlin, Paris, Scandinavia, Lampedusa and Greece to uncover the malaise at the very heart of the European culture, and to hear the stories of those who have arrived in Europe from far away. In each chapter he also takes a step back to look at the bigger issues which lie behind a continent's death-wish, answering the question of why anyone, let alone an entire civilisation, would do this to themselves? He ends with two visions of Europe - one hopeful, one pessimistic - which paint a picture of Europe in crisis and offer a choice as to what, if anything, we can do next.

---

## **WORKING TOWARD WHITENESS**

---

### **HOW AMERICA'S IMMIGRANTS BECAME WHITE: THE STRANGE JOURNEY FROM ELLIS ISLAND TO THE SUBURBS**

---

**Hachette UK** How did immigrants to the United States come to see themselves as white? David R. Roediger has been in the vanguard of the study of race and labor in American history for decades. He first came to prominence as the author of *The Wages of Whiteness*, a classic study of racism in the development of a white working class in nineteenth-century

America. In *Working Toward Whiteness*, Roediger continues that history into the twentieth century. He recounts how ethnic groups considered white today—including Jewish-, Italian-, and Polish-Americans—were once viewed as undesirables by the WASP establishment in the United States. They eventually became part of white America, through the nascent labor movement, New Deal reforms, and a rise in home-buying. Once assimilated as fully white, many of them adopted the racism of those whites who formerly looked down on them as inferior. From ethnic slurs to racially restrictive covenants—the real estate agreements that ensured all-white neighborhoods—Roediger explores the mechanisms by which immigrants came to enjoy the privileges of being white in America. A disturbing, necessary, masterful history, *Working Toward Whiteness* uses the past to illuminate the present. In an Introduction to the 2018 edition, Roediger considers the resonance of the book in the age of Trump, showing how *Working Toward Whiteness* remains as relevant as ever even though most migrants today are not from Europe.

---

### **THE BOOK OF STRANGE NEW THINGS**

---

Canongate Books 'I am with you always, even unto the end of the world . . .'  
**Peter Leigh** is a missionary called to go on the journey of a lifetime. Leaving behind his beloved wife, Bea, he boards a flight for a remote and unfamiliar land, a place where the locals are hungry for the teachings of the Bible - his 'book of strange new things'. It is a quest that will challenge Peter's beliefs, his understanding of the limits of the human body and, most of all, his love for Bea. *The Book of Strange New Things* is a wildly original tale of adventure, faith and the ties that might hold two people together when they are worlds apart. This momentous novel, Faber's first since *The Crimson Petal and the White*, sees him at his expectation-defying best. **WINNER OF THE SALTIRE BOOK OF THE YEAR AWARD SHORTLISTED FOR THE ARTHUR C. CLARKE AWARD AS HEARD ON BBC RADIO 4**

---

### **DRACULA'S GUEST AND OTHER WEIRD STORIES**

---

Horror stories written in times before the morrow, sophisticated in a way modern horror stories lack. *Dracula's Guest and Other Weird Stories* by Bram Stoker is a book of bizarre tales first published in 1914 London. A true book of worth, a classic that lives in an era of timeless distinction. Early books emit an excellence unlike any from modern times. You will not be dissatisfied with this works, a timeless classic at its finest. Sneak Peak "He suddenly looked up, his problem was still unsolved, and there was in the air that sense of the hour before the dawn, which is so dread to doubtful life. The noise of the rats had ceased. Indeed it seemed to him that it must have ceased but lately and that it was the sudden cessation which had disturbed him. The fire had fallen low, but still it threw out a deep red glow. As he looked he started in spite of his sang froid." "For answer Considine held up his hand, as if taking a stage oath, and whistled

the air of the old song, "The Gipsy Countess." Gerald joined in the strain, and then, breaking into merry laughter, the two men passed along the laneway to the common, turning now and then to wave their hands to Mary, who leaned over the gate, in the twilight, looking after them."

**Synopsis** Bram Stoker's third collection of short stories, *Dracula's Guest And Other Weird Stories*, was published in 1914. It is a collection of nine stories released by Stoker's wife Florence Stoker two years after his death. Among the weird and disturbing incidents in these pages are *The Judge's House's* devilishly hazardous haunted room, *The Burial of the Rats'* fatalistic tragedy, *The Secret of Growing Gold's* horror of revenge from beyond the grave, and *The Gypsy's Prophecy's* startling twist in the tail. This one-of-a-kind compilation of Stoker's short stories is a feast for people who enjoy being both delighted and disturbed. "A stunning reprint" At Firster Publishing, we take every step possible to ensure the original integrity of this book has been upheld to its highest standard. This means that the texts in this story are unedited and unchanged from the original authors publication, preserving its earliest form for your indulgence. ## **THE FAR RIGHT TODAY**

---

John Wiley & Sons **The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies - Brazil, India, and the United States - now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.**

## **WINTERHAWK'S LAND**

---

BearManor Media **Michael Dante played the title role in *Winterhawk* (1975), a Western about a legendary Blackfoot Chief's character and his principles.**

In this novella sequel, he pens an ageless saga about ruthless railroad executives trying to assassinate him in order to build their railroad directly through his territory, taking the Blackfoot land without provocation. Winterhawk and his tribe remain strong as long as they can, to protect the land of their people, the land they call home, before the invasion of progress imposes itself on America. This inspiring story of a brave man, who stands up to and fight against those who have their own agenda for his land, evokes the nostalgic atmosphere of Western series that Dante frequently appeared in during American television's Golden Era, such as Death Valley Days, The Big Valley, Daniel Boone, Custer, The Texan, Bonanza, Maverick, and Cheyenne.

---

## **AXEL HONNETH**

---

John Wiley & Sons With his insightful and wide-ranging theory of recognition, Axel Honneth has decisively reshaped the Frankfurt School tradition of critical social theory. Combining insights from philosophy, sociology, psychology, history, political economy, and cultural critique, Honneth's work proposes nothing less than an account of the moral infrastructure of human sociality and its relation to the perils and promise of contemporary social life. This book provides an accessible overview of Honneth's main contributions across a variety of fields, assessing the strengths and weaknesses of his thought. Christopher Zurn clearly explains Honneth's multi-faceted theory of recognition and its relation to diverse topics: individual identity, morality, activist movements, progress, social pathologies, capitalism, justice, freedom, and critique. In so doing, he places Honneth's theory in a broad intellectual context, encompassing classic social theorists such as Kant, Hegel, Marx, Freud, Dewey, Adorno and Habermas, as well as contemporary trends in social theory and political philosophy. Treating the full range of Honneth's corpus, including his major new work on social freedom and democratic ethical life, this book is the most up-to-date guide available. Axel Honneth will be invaluable to students and scholars working across the humanities and social sciences, as well as anyone seeking a clear guide to the work of one of the most influential theorists writing today.

## **AMERICAN DIRT**

---

OPRAH'S BOOK CLUB PICK "Extraordinary." --Stephen King "This book is not simply the great American novel; it's the great novel of a Americas. It's

the great world novel! This is the international story of our times. Masterful." --Sandra Cisneros También de este lado hay sueños. On this side, too, there are dreams. Lydia Quixano Pérez lives in the Mexican city of Acapulco. She runs a bookstore. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with a few books he would like to buy--two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride the bestia--trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reachel norte, Lydia soon sees that everyone is running from something. But what exactly are they running to? American Dirt will leave readers utterly changed. It is a literary achievement filled with poignancy, drama, and humanity on every page. It is one of the most important books for our times. Already being hailed as "a Grapes of Wrath for our times" and "a new American classic," Jeanine Cummins's American Dirt is a rare exploration into the inner hearts of people willing to sacrifice everything for a glimmer of hope.

## **SOCIAL CAPITAL**

---

John Wiley & Sons Social capital is a principal concept across the social sciences and has readily entered into mainstream discourse. In short, it is popular. However, this popularity has taken its toll. Social capital suffers from a lack of consensus because of the varied ways it is measured, defined, and deployed by different researchers. It has been put to work in ways that stretch and confuse its conceptual value, blurring the lines between networks, trust, civic engagement, and any type of collaborative action. This clear and concise volume presents the diverse theoretical approaches of scholars from Marx, Coleman, and Bourdieu to Putnam, Fukuyama, and Lin, carefully analyzing their commonalities and differences. Joonmo Son categorizes this wealth of work according to whether its focus is on the necessary preconditions for social capital, its structural basis, or its production. He distinguishes between individual and collective social capital (from shared resources of a personal network to pooled assets of a whole society), and interrogates the practical impact social capital has had in various policy areas (from health to economic development). Social Capital will be of immense value to readers across

the social sciences and practitioners in relevant fields seeking to understand this mercurial concept.

## **RECLAIMING OUR HEALTH**

---

### **A GUIDE TO AFRICAN AMERICAN WELLNESS**

---

Yale University Press “An interactive and empowering book” to help African American men and women create a new vision of better health and navigate the health care system (BET.com). According to the federal Office of Minority Health, African Americans “are affected by serious diseases and health conditions at far greater rates than other Americans.” In fact, African Americans suffer an estimated 85,000 excess deaths every year from diseases we know how to prevent: heart disease, stroke, cancer, high blood pressure, and diabetes. In this important and accessible book, Dr. Michelle Gourdine provides African Americans with the knowledge and guidance they need to take charge of their wellbeing. *Reclaiming Our Health* begins with an overview of the primary health concerns facing African Americans and explains who is at greatest risk of illness. Expanding on her career and life experiences as an African American physician, Dr. Gourdine presents key insights into the ways African American culture shapes health choices—how beliefs, traditions, and values can influence eating choices, exercise habits, and even the decision to seek medical attention. She translates extensive research into practical information and presents readers with concrete steps for achieving a healthier lifestyle, as well as strategies for navigating the health-care system. This interactive guide with illustrations is a vital resource for every African American on how to live a healthier and more empowered life, and an indispensable handbook for health-care providers, policy makers, and others working to close the health gap among people of color. Says Gourdine, “I wrote this book to empower our community to solve our own health problems and save our own lives.”

## **BLOOD AT THE ROOT: A RACIAL CLEANSING IN AMERICA**

---

W. W. Norton & Company “Gripping and meticulously documented.”—Don Schanche Jr., *Washington Post* Forsyth County, Georgia, at the turn of the twentieth century, was home to a large African American community that included ministers and teachers, farmers and field hands, tradesmen, servants, and children. But then in September of 1912, three young black laborers were accused of raping and murdering a white girl. One man was dragged from a jail cell and lynched on the town square, two teenagers were hung after a one-day trial, and soon bands of white “night riders” launched a coordinated campaign of arson and terror, driving all 1,098 black citizens out of the county. The charred ruins of homes and churches disappeared into the weeds, until the people and places of black Forsyth were forgotten. National Book Award finalist Patrick Phillips tells Forsyth’s

tragic story in vivid detail and traces its long history of racial violence all the way back to antebellum Georgia. Recalling his own childhood in the 1970s and '80s, Phillips sheds light on the communal crimes of his hometown and the violent means by which locals kept Forsyth "all white" well into the 1990s. In precise, vivid prose, *Blood at the Root* delivers a "vital investigation of Forsyth's history, and of the process by which racial injustice is perpetuated in America" (Congressman John Lewis).

## **BLACK AND WHITE LIKE YOU AND ME**

---

---

### **PARALLEL LINES SOMETIMES INTERSECT**

---

[Tomjo Media](#) Even in 1960s Detroit, race isn't everything. Tom Daniels and "Cookie" Marsh will be the first to tell you that race isn't everything. But it did shape the way they experienced the world growing up in Detroit in the 1950s and 60s. Tom "Cookie" Marsh grew up in a black neighborhood on Detroit's west side. Tom Daniels grew up in a mixed, working-class neighborhood on Detroit's east side. Both men grew up in strict households where they "always got what we needed, and sometimes what we wanted" and both saw their city, their country, and their world transform around them through the Civil Rights movement, riots, and the Viet Nam War. But sometimes parallel lines intersect. As each man tells his story, it is apparent that race isn't just "black and white" but it is part of what makes their friendship extraordinary. Their experiences will show you that race made for huge differences in their experiences, while, in spite of race, there are also touching similarities that made it possible for two men, in their older years, to overcome decades of racial turbulence of their upbringing to become lifelong friends. Follow Tom and Cookie. Hear about their lives, their upbringing, their successes and regrets growing up in black and white Detroit - and how when it boils down to it, the things that are truly important are actually black and white, like you and me.

---

## **THE SECOND MEDIA AGE**

---

[John Wiley & Sons](#) This book examines the implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

---
